

TO-DAY'S MESSAGES

A DUBLIN OUTRAGE

DUBLIN, March 30.—A large party of armed men, held up the staff of the Freeman's Journal, smashed the printing presses, and, throwing gasoline on the floor, set fire to the building.

SPECIAL CONSTABLES AMBUSHED

BELFAST, March 30.—Fighting lasting twenty minutes, took place yesterday on the South Antrim-Monaghan border, when a patrol of special constables ran into an ambush of Irish Republican Army men. Two were killed at once and one was so badly wounded that he died later, and a fourth was badly wounded. The Republicans had no casualties.

WANTS ROYAL COMMISSION

OTTAWA, March 30.—The Dominion command of Great War Veterans, acting in interest of 3,000 former service men in the Nova Scotia coal fields, has petitioned the Federal Government to appoint a Royal Commission to investigate conditions in Cape Breton.

ORDERED THEM OUT

GALWAY, March 30.—The Republican section of the Irish Republican army at Benmore Barracks, yesterday, ordered the Free State section of the army to quit the barracks within ten minutes. The Free Staters, numbering about two hundred, complied, taking their baggage, but not their arms. The barracks was then declared a training centre for the Irish Republican army. The incident was without any display of ill feeling.

REPRESENTATIVES MEET

LONDON, March 30.—Leading representatives of the British Provisional Irish Free state and Ulster Governments, gathered this morning to consider proposals advanced yesterday at the initial session of the Conference called to consider means of pacifying Ireland. Those meeting were Winston Churchill, Sir Laming Worthington Evans, Michael Collins, Arthur Griffiths, Sir James Craig and the Marquis of Londonderry.

BY EASY STAGES

LISBON, March 30.—An attempted flight from Lisbon to Pernambuco, Brazil, started this morning, naval captains Sacadura and Coutinho taking the air at seven o'clock. They hope to make a transatlantic passage of more than four thousand miles in sixty hours, actual flying time, and expect to arrive at Brazil by April 13. The first stop is the Canary Islands from there to Cape Verde Islands, and thence to Pernambuco, a short distance northeast of Pernambuco.

THE REASON WHY

DUBLIN, March 30.—The Freeman's Journal plant and supply of newspaper print suffered principally from the fire. The raid is believed to be a sequel to the publication of a report of the proceedings of the secret convention of the De Valera section of the Irish Republican Army on Sunday.

Lenine reported dead.

LENINE REPORTED DEAD

LONDON, March 30.—A Central News despatch from Paris says the report that Nikolai Lenine, Russian Soviet Premier, is dead, is published by Rome newspapers, who treat it with reserve.

FLORAL FAVORS.—The floral favors presented by the Methodist Ladies College Aid Association to the guests at the L.O.A. Banquet last night were Yellow Carnations, tied with bows of orange ribbon.

RESULT.—We feel sure if you do as suggested under the heading "REQUEST", it will be a case of—you CAME—you SAW—you BOUGHT at Steele's Crockery Store.

ARGYLE STILL DELAYED.—The Argyle is still ice-bound at the new winter port, Argentina. It is said that sufficient dynamite to blow up Bell Island has been used in attempts to move the ship but without effect.

A REQUEST.—You are asked to STOP at Steele's window, LOOK at what it contains, then go in and LISTEN to what they'll tell you.

M.C.L.I. meets to-night at 7.45 sharp. Debate: RESOLVED: That adequate food supplies for her population can be produced within Newfoundland. Leaders: A. E. Parkins and R. Cramm.

EXPRESS DUE.—The incoming express with the Kyle's mails and passengers, left Port aux Basques last night and is due here to-morrow morning. The weather is fine along the line and a quick run should be made.

How to See Nature's Wonderful Coloring.

Next time you go for a walk in the country, bend forward and downward until you can see the sky behind you, or, if you prefer it, bend your head and body over to one side as far as possible.

Trees, hills, and clouds will seem to lose their form, but their colours will stand out as you have never seen them before. Simply by altering your head you can make the tints of the sky and the colours of the landscape much more beautiful and pronounced. If you look at a sheet of water in this way it will seem as different from its ordinary aspect as the new half of a restored picture is from the old. The colours of trees and shrubs will be especially accentuated, and if you happen to be on the sea-shore you will see every possible shade of the same colour—provided that the variety of shades is present at the time in the sky.

The strange thing about this fact is that no one can explain it. One scientist, who has made many experiments in this direction, suggests that when your head is in this up-side-down position the form of objects is less sharply indicated, while the hues of all things are brought nearer.

Footwear Reduction.

Reduction in the price of shoes has been announced by the manufacturers of Boston and, the old colony district generally, comprising one of the largest men's shoe making centers in the United States, according to an A.P. Mail bulletin. Although authoritative announcement of the amount of the cut is lacking, it is understood to be between 25 and 30 cents a pair, wholesale price. The price reduction follows the recent award of a wage cut of ten per cent, made by the State board of conciliation & arbitration. This wage cut, it is said, amounted to from 12 to 15 cents reduction in the factory costs of Brockton grade welt shoes and from 11 to 19 cents a pair in adjoining towns.

Retributive Justice.

Geneva.—Justice has at last overtaken the man who borrows books and "forgets" to return them. A book-borrower of Babikon, a suburb of Zurich, has been sentenced to two days imprisonment and a fine of 40 francs plus the value of the book he failed to return. The magistrate in passing sentence said, "A book is a family utensil like furniture, and is necessary for the welfare of the family." The defendant has lodged an appeal.

Sweden Regaining Gold Standard.

Stockholm.—Sweden is now far from having regained the gold standard of currency. Bankers and business men have believed that steps will soon be taken toward complete restoration of the pre-war parity. The dollar which is considered in par with gold, has declined in its exchange rate from 4.60 in August to very near its par value in February.

One hundred years ago—in 1822—the first permanent photographs were secured on a compound of sensitive bitumen of Judea by a Frenchman named Niepce. As early as 1822 a process by which records could be made by the action of light was discovered by a certain Tom Wedgwood, but no method of fixing the print was then known, and it was not until Niepce came along with his process that this was made possible. In 1829 Niepce entered into a partnership with Daguerre, another Frenchman, whose name is remembered in Daguerrotypes, the earliest photographic records that remain at the present day. A monument was erected in France (near Chalon) upon which an inscription definitely names the year of 1822 as that in which Niepce "discovered photography."

Mexico City.—Four representatives of Belgian manufacturers are touring Mexico to arrange for exchange of Mexican raw materials for Belgian finished products. Professor Rouma, of Brussels heads the party, and is accompanied by Marcel Jottard, representing iron and steel manufacturers; Engineer Leduc, who represents metal goods manufacturers, and Felix Guillon representing textile factories.
