One of the exclusive features of
the already famous "Chevrolet" auto
which appeals at once to everyone
who has the slightest knowledge of
cars is the shock absorbing duplex
front springs, which makes it the
easiest riding car for its size in the
world. Another feature is its
self-lubricating clutch collar, which
eliminates all troubles such as heat-
ing, friction and wear. There are so
many special good points about this
car that you should ask Geo. W.
Howse, the local agent, to explain
them to you in detail. He will be
glad to do so, whether you want to
buy a car or not. Mr. Howse has
given up the implement business, and
is now devoting all his time to the
sale of "Chevrolets." And he is a

severe and painful injuries one day
last week. He was picking grapes
from a vine at his home which had
extended into a tree adjacent. A
limb broke on which Mr. Hemming-

a lower branch which also gave way
and he was precipitated to the ground
twenty feet below. He was uncon-
scious when discovered by a deliv-
eryman. It was found that sev-
eral ribs were broken, and slight
internal injuries received. How he
escaped so fortunately is a mystery.

in Dakota was telegraphed for. We
