DETROIT. Detroit, May 29.—Beans—Spot, \$2 55; MONTREAL PRODUCE MARKET EASIER

Advance in Cheese Overdone, and Checked by Increased Offerings and Lack of Export Demand.

Montreal, May 29.—The price of cheese declined steadily this week, owing to the lack of demand from Great Britain and the increased offerings at the country markets. The advance scored last week was overdone to some extent, and British importers were not inclined to pay the high prices asked for shipment this week. As high as 12 1-16c per lb at factories was paid at the beginning of the week, but values were marked down daily, and to-day at most of the boards in Ontario the ruling price paid was 11% oper 15. This represented about the highest price ob-tainable over the cable today for immerepresented about the highest price obtainable over the cable today for immediate shipment, and as there is no demand for forward shipment it is almost impossible to get a price for next week's delivery. There is a general feeling that prices must come still lower, as advices from the other side indicate that the consumptive demand is being curtailed somewhat by the high prices ruling. This probably accounts for the scarcity of buying orders this week, and there is every prebability of a considerable quantity of cheese being carried over in stock this week-end. At this time last year the conditions prevailing were very much the same as at present, and we had a drop of fully is per lb in prices, the downward movement extending over a period of three weeks, ending with the advent of three weeks, ending with the advent of the cable to day for immediate shipment, and set less than 10 1 pittsburg ... 4 10 1 pittsburg ... 5 9 2 Lush and Phelps; Maddox and Gibson.
