PUBLIC NOTICE.

Under Sub-section 2 of Section 78 of the Highway Act, 1918, no motor vehicle is allowed on any highway of the Province in the Spring of the year while the frost is coming out of the ground, without permission of the Supervisor, with the exception of physicians, clergymen and ambulance drivers.

Sub-section 1 of the same section of the Act forbids the carrying of loads over 3,000 pounds and the hauling of portable mills on wheels between the fifteenth day of March and the fifteenth day of May, in any year, without a written permit from the Supervisor of Roads.

The damage which would be done by allowing motor vehicles on the highways during this time of the year would be beyond finances of the Province to repair. All those interested in good roads in this Province are requested to comply with the above law and to co-operate in the enforcing of same. The above law will be strictly enforced by the Department and all supervisors and other employees of the Department are ordered to report any violations and to see that those guilty of same are prosecuted to the full extent of the law.

By order of the Minister of Public Works,
P. J. VENIOT.

Oh! the Ache
and Pain of
Neglected Feet

If you are troubled with tired aching feet don't delay a visit to this store any longer. Come today and let us demonstrate to you

Dr. Scholl's
Foot Comfort Appliances

There's no joy in anything when your feet ache and pain, or if you have corns, bunions and callouses. Foot discomfort seems to pervade the whole body and you feel tired all over.

But just you put a Dr. Scholl's Foot-Easer in each of your shoes and see how good it feels. You take a new interest in life. The aches and pains vanish, your ankles stop turning in, your broken down arches assume normal position, the callouses disappear, toes straighten out and corns leave, forward pressure into your shoes is stopped and genuine relief and foot comfort are yours.

Dr. Scholl's Foot-Easer is self adjusting to the action of the foot, manipulates and strengthens the muscles, stimulates the circulation and gives ease and springiness to the step that puts real pleasure into everything you do. It can be comfortably worn in your regular size shoe.

Examination and advice free.
