A Loop Line for Yorkville.

The project of a loop line through Yorkville, which has hung fire for nine years since Mr. Turner obtained a charter to build it, has now been put in marching order by the Milford railway. This will be an advantage to Yorkville, as it will direct traffic from the Esplanade to the northern part of the city. The Yorkville people have to blame the want of a progressive spirit in the village fathers who opposed the loop line ever since the project was mooted.

A Bridge over a Suicide.

On Saturday afternoon a young married man named Lemuel John Beasom committed suicide by taking laudanum at the residence of his brother-in-law, Mr. Anderson, 33 Tait street. The deceased, who was only married about ten days ago, was on his wedding tour at the time he committed the rash deed. Mr. Beasom was employed as a painter in the Nipissing railway car shop at Bridgeville. On the morning of the tragedy at 2 o'clock Beasom complained of being ill and lay down to sleep. His wife on going to the room at 7 o'clock, found him sleeping heavily. Knowing that he had taken a small dose of laudanum, she watched him, and shortly after 7 o'clock he died. Dr. Hall was summoned, and gave it as his opinion that the deceased must have been troubled with heart disease as the quantity of laudanum taken would not have killed him.

The Harbor of Toronto.

The thirty-first annual report of the harbor master at Toronto has just been published. The receipts for harbor tolls for 1881 were \$8,430.97, being an increase of \$2,379.35 as compared with 1880. The balance at the credit of the Trust on January 1, 1881, was \$5,527.06; the revenue for 1881 was \$1,103.69, making a total of \$6,630.75; the total expenditure was \$16,038.58 leaving a balance at end of year of \$82.10. The total amount of coal imported was 128,029 tons, an increase of 4,247 tons as compared with 1880. The total amount of coal imported by rail was 78,304 tons, a decrease of 4,407 tons. The total amount of coal imported into Toronto during 1881 would thus appear to be 206,423 tons, an increase of 35,140 tons. The highest water registered was 15 inches above zero, 4 inches lower than highest of last year, and with the exception of 1872 and 1879 the lowest on record. The lowest water registered was 7 inches below zero. A remarkable distance, lasting about an hour, occurred on June 28. While the gauge at Queen's wharf was registered at 14 inches above zero, the water suddenly rose to 22, fell to 8 inches below zero, and finally settled at 13 above zero. The government commenced dredging in the western channel on the 3rd of May and removed 43,170 yards of material to the 7th wharves. Notwithstanding this complaint was frequent of vessels striking the bottom. The harbor master again urges the necessity of a much improved light on Gibraltar point, and adds that if the commissioners could establish the Dominion government to establish at some point a steam ferry for use during fogs, they would confer a great benefit on the merchant marine.

Scott Act Provisions.

The tavern-keepers in Halton just now are kept in hot water by the whisky detective. On Saturday at Milton five or six hotel-keepers from various parts of the county were charged before the justice magistrate of Oakville with selling liquor against the provisions of the Scott act. None of the cases was disposed of.

From the Berlin Telegraph.

Should the protest against the return of Mr. Krantz be proceeded with, the public will likely be fully understood why so many bills of a certain bank, some of them of a large denomination, suddenly find circulation in this country. The name of the cashier also will, it is supposed, be made public, although this at present is only known to the inner story circle.

THE SPORTING WORLD.

Ross Accepts Hanlan's Challenge—Other Notes of Sport.

Sr. John, N.B., July 17.—Wallace Ross published a letter in today's Telegraph in reply to Hanlan's challenge. He reviews his negotiations with Hanlan, says the late sporting editor of the Mail ran away with the funds, \$1000, he had put up, and concludes as follows: As Hanlan has distinctly named me as one of those he is ready to meet, I am willing to row him five miles on five consecutive days, each race to be for \$1000 a side, distance from three to five miles; the races to begin on Monday and end on Friday, and no postponement to be permitted on account of the weather. As Mr. Hanlan is the originator of this idea of five races I hope he will not attempt to back out, and let him name his date in September, and let the races take place at Winnipeg, where people want to see a race. He is not to be allowed to skip of to Australia, going there as champion of the world unless he shows that he is willing to row for that title. When Hanlan puts \$1000 in cash, not a cheque, in the hands of some responsible party I will cover it to bind a race which Mr. Hanlan seems to desire, and which a great many people would be glad to see rowed.

A World reporter last night saw the champion in reference to the above challenge. Hanlan said: I will row Mr. Ross four or five miles next June for \$50,000 a side at any suitable course between here and New York, but object to go to Winnipeg, because it is out of the way, and further I think Ross's challenge is nothing more than a game of bluff. If I am sick of his future programme, he can take my forfeit; if he refuses to do so, as in the last case, I will hand it over to some charitable institution. Hanlan appeared very much annoyed at Ross's conduct, and claims that a series of races such as the New Brunswick proposal would be characterized as a hippodrome by the press. The champion would like to hear from some of the other oarsmen with regard to his former challenge, so that he can form an idea of the man he is to meet.
