

## SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-TIVES" Instead,  
And Is Now in Perfect Health.

MME. F. GAREAU

153 Papineau Ave., Montreal.

"For three years, I suffered great pain in the lower part of my body, with swelling or bloating. I saw a specialist, who carefully examined me and gave me several tonics to take, which did not help me. Then he told me I must undergo an operation. This, I refused to permit.

I heard about 'Fruit-a-tives' and the wonderful results it was giving because this medicine is made from fruit juices, so decided to try it.

The first box gave great relief; and I continued the treatment, taking six boxes more. Now, my health is excellent—I am free of pain and swelling—and I give 'Fruit-a-tives' my warmest thanks."

MME. F. GAREAU.  
50c. a box, 6 for \$2.50, trial size 25c.  
At all dealers or sent by Fruit-a-tives Limited, Ottawa.

### Punishment for the Kaiser

A New York woman proposes that he should be confined in a dungeon upon whose walls are portrayed the horrors of the Lusitania, the rape of Belgium and some of the unspeakable atrocities of German soldiers, fed on bread and water and left there for the rest of his life. "A quiet loving country woman would have him put naked in an iron cage 'all welded fast,' on some mountain top in Prussia to starve to death. The process of starvation would give him time to beg God's pardon for his sins. The bleaching bones should be left in the cage until they had become dust and blown away. Another writer would have the Kaiser banished to some desolate island and cut off absolutely from all communication with the world. Still another who has evidently given some thought to the problem writes: I would like to have a room built about 30 feet square made out of two-inch planks, 16 feet high, without any roof, and the floor made of sharp broken stones stood on end, and 12 rattlesnakes, 12 black snakes, 12 copperheads, and 12 pilots put into this room and the clothes to be taken away from the Kaiser, who would be fed the same as the snakes for the remainder of his days."

A Bronx lady, more merciful, would simply have the Kaiser nailed to a post and the United States army and navy shoot at him. A Prussian woman is anxious that everything possible should be done to prolong Wilhelm's life in order that his mental torture should not be cut short. Several propose that when the war is over the Kaiser, in a cage should be traveled about the world in order that the people might look at him and hand him something.

### The Origin of Sirloin

(The Manchester 'Guardian')

People with a taste for tercentenarians seem to have overlooked the date of a unique royal investiture which took place on August 17, 1617. James I., during a royal tour in Lancashire, spent a week-end—three 'verrie hot days,' August 16 to 18—at Houghton Tower, near Preston. His Sunday dinner a roast loin of beef—so mightily pleased him that, according to the legend he called for a sword and knighted it on the spot as Sir Loin—which it has ever since been called. The banqueting hall and table are still shown as evidence of the tale.

### You Can Help

The newspaper man is blamed for a whole lot of things that he can't help such as using partiality in mentioning visitors, giving news about some folks and leaving others out, etc. He simply prints all the news he can find. Some people inform him about such things and others do not. An editor should not be expected to know the names and residences of all your uncles, aunts and cousins, even if he saw them get on or off the train. Tell us about it. Its news that makes the newspaper, and every man, woman, and child can be associate editor if they only will. Never apologize when you give this information to the editor, for if there lives one so dead that he has lost his appreciation of such favor he is dead to every virtue that imparts value to a newspaper.

### Rice

One of the most encouraging items as to the food situation is the report from Texas that there is a considerable increase in the rice acreage. The gain is not large in comparison to what it might be, were labour enough to be had, but it is a step in the right direction, and has been made under no small difficulties. The Rice Millers, Association reports 1130,717 acres, as against 978,107 last year, a gain of 160,610 acres.

Rice is one of the most valuable of all foods. It far surpasses the potato in convenience and adaptability to manifold uses. A pound of rice costs a good deal more than a pound of potatoes, but it "goes farther." It is the equivalent of a good many pounds of potatoes in small bulk. It can be easily shipped and it will keep, where as the potato is a clumsy brute to handle and spoils on slight provocation.

The New York Evening Sun points out that it would be a very real gain in every way if we could learn to use many times more than the crop from a million acres of rice.

## PROCLAMATION

GEORGE the FIFTH, by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas, KING, Defender of the Faith, Emperor of India.

To all to whom these presents shall come or whom the same may in any wise concern,—GREETING :

A Proclamation of conditional amnesty respecting men belonging to Class 1 under the Military Service Act, 1917, who have disobeyed our Proclamation of 13th October, 1917, or their orders to report for duty, or are deserters or absent without leave from the Canadian Expeditionary Force.

E. L. NEWCOMBE, } WHEREAS consider-  
Deputy Minister of Justice, } able numbers of men  
Canada. }

belonging to Class 1 under our Military Service Act, 1917, called out on active service in our Canadian Expeditionary Force for the defence of Canada under Our Proclamation of 13th October, 1917, although they have thus become by law soldiers enlisted in the Military Service of Canada,

Have failed to report for duty as lawfully required of them under the said Military Service Act and the regulations thereunder, including the Order in Council duly passed on April 20 last,

Or have deserted,  
Or absented themselves without leave from our Canadian Expeditionary Force,

And it is represented that the very serious and unfortunate situation in which these men find themselves is due in many cases to the fact that, notwithstanding the information and warning contained in Our Proclamation aforesaid, they have misunderstood their duty or obligation, or have been misled by the advice of ill-disposed, disloyal or seditious persons.

AND WHEREAS we desire, if possible, to avoid the infliction of the heavy penalties which the law imposes for the offences of which these soldiers have thus been guilty, and to afford them an opportunity within a limited time to report and make their services available in Our Canadian Expeditionary Force as is by law their bounden duty, and as is necessary for the defence of Our Dominion of Canada.

NOW KNOW YE that we in the exercise of Our powers, and of Our good will and pleasure in that behalf, do hereby proclaim and declare and cause to be published and made known THAT THE PENALTIES OF THE LAW WILL NOT BE IMPOSED OR EXACTED as against the men who belong to Class 1 under Our Military Service Act, 1917, and who have disobeyed Our Proclamation aforesaid; or who have received notice from any of Our registrars or deputy registrars to report for duty on a day now past and have failed so to report; or who, having reported and obtained leave of absence, have failed to report at the expiry of their leave, or have become deserters from Our Expeditionary Force, PROVIDED THEY REPORT FOR DUTY ON OR BEFORE THE TWENTY FOURTH DAY OF AUGUST 1918.

AND WE DO HEREBY STRICTLY WARN AND SOLEMNLY IMPRESS UPON ALL SUCH MEN, and as well those who employ, harbour, conceal or assist them in their disobedience, that, if they persist in their failure to report, absence or desertion until the expiry of the last mentioned day, they will be pursued and punished with all the rigour and severity of the law, SUBJECT TO THE JUDGMENT OF OUR COURTS MARTIAL WHICH WILL BE CONVENED TO TRY SUCH CASES or other competent tribunals; and also that those who employ, harbour, conceal or assist such men will be held strictly accountable as offenders and subject to the pains, penalties and forfeitures in that behalf by law provided for their said offence.

Provided however that nothing contained in this Our Proclamation is intended to release the men aforesaid from their obligation to report for duty as soon as possible or to grant them immunity from arrest or detention in the meantime for the purpose of compelling them to perform their military duty; Our intention being merely to forego or remit the penalties heretofore incurred for failure to report, absence without leave or desertion incurred by those men of the description aforesaid who shall be in the proper discharge of their military duties on or before the said twenty-fourth day of August, 1918.

Of all of which Our loving subjects and all others whom these presents may concern are hereby required to take notice and govern themselves accordingly.

IN TESTIMONY WHEREOF, We have caused these Our Letters to be made Patent, and the Great Seal of Canada to be hereunto affixed. Witness: Our Right Trusty and Right Entirely Beloved Cousin and Counsellor, Victor Christian William, Duke of Devonshire, Marquess of Hartington, Earl of Devonshire, Earl of Burlington, Baron Cavendish of Hardwicke, Baron Cavendish of Keighley, Knight of Our Most Noble Order of the Garter; One of Our Most Honourable Privy Council; Knight Grand Cross of Our Most Distinguished Order of Saint Michael and Saint George; Knight Grand Cross of Our Royal Victorian Order; Governor General and Commander-in-Chief of Our Dominion of Canada.

At Our Government House, in Our City of OTTAWA, this FIRST day of AUGUST, in the year of Our Lord one thousand nine hundred and eighteen, and in the ninth year of Our Reign.

By Command,

*Thomas Mulvey*

Under-Secretary of State

PILLS OF ATTESTED VALUE.—Parmelee's Vegetable Pills are the result of careful study of the properties of certain roots and herbs, and the action of such as sedatives and laxatives on the digestive apparatus. The success the compounders have met with attests the value of their work. These pills have been recognized for many years as the best cleansers of the system that can be got. Their excellence was recognized from the first and they grow more popular daily.

The first English women to receive mention for brave conduct at the battle of Marston was Miss Margaret de Wend who was praised by Field Marshal Haig for her coolness in helping the injured while under fire from the enemy.

The Wisconsin industrial commission has rendered a decision which prohibits women employed on street cars as conductors and motorwomen from working on night runs or being on duty more than eight hours.

Only a little domestic storm may sour the milk of human kindness.

Use Millar's Worm Powders and the battle against worms is won. These powders correct the morbid conditions of stomach which nourish worms, and these destructive parasites cannot exist after they come in contact with the medicine. The worms are digested by the powders and are speedily evacuated with other refuse from the bowels. Soundness is imparted to the organs and the health of the child steadily improves.
