MANHOOD HOW LOST, HOW RESTORED!

Trice, in a sealed envelope, only of cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practise, that alarming consequences may be radically cured without the dangerous use of internal medicines or the use of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

In the large reading of the text, and a liberal view and look of it all, it seems plausible almost, even to us. If low certain then did it seem to the see ignorant and merciless followers of the dread order of the Danites, established there by the way,' in the path,' that they were, as they sat in the heart of the desert, to be the 'judges' of those who passed by!

We must follow on in their track till we came in our journey to where Dan, who judged his people, lay like a 'serpent by the was, and the people, lay like a 'serpent by the was, and the path.'

I forgot to mention that my father had done a little something in his quiet Quaker-like way to help, or try to help, a beautiful young woman who had oome in great distress to our camp one evening, while tented in the old Mormon whiter quarters on the banks of the Missouri.
