THE STALLION RACE.

As the time apprenches for the clisia, of the entires for this grand event, speculation is a ready exert a among hirsomen as to the probabler suit of the race this year. On all hands it is normitted it will be the time success. for the scason, only opinions are electly divided as to the direction, the GAL M dal, will 3 preparing for the honor, and from every continuit to the pice are of visitors point of the compass we have of some tavored one who will astorish the outside world. But if ther were no fin acial considerations attached to the race, the post of honor would be a treasure unmeasure able by dollars and cents. It would be impo-I have of us, at this early day, to individualize the anticipated entries, much less give any prophecy as to the final issue. There can be a | no doubt, however, that all the leading strains i of trotting blood in the country will be represented, and the result of the race will be watched with eager interest by the careful brecder who, at one view, can tans look over the finest field of hors sever congregated together in the country, and make his selection accordingly. All can not be winners; but the honor attach-a to the second, third, or fourth horse from the varying change of the race, may be but httle inferior to that gained by the winner. In no other way could even a starter acquire the reputation be will earn in this rac . A VISIT TO EASTWOOD.

Mr. Pattes at's imported hors s, Banjo Charlie and African Maid, will take part in the races at Toronto next week, his English jockey steering them across country. Though enjoying the pleasures of the harem to within the last tortin ht, the old horse looks in fair trim and going as strong as ever. The Maid, who has nearly got over the effect of the voyage, and of a subsequent attack of strangles, has only been taking gentle exercise. She has never been trained or started in a race; but her owner is actermined to see her gallop at the first opportunity, and Price thinks that some day she will not disgrace the " French grey and cerise." Emily's foot is so much better that her visit to Stockwood has been postponed, and she may be seen on a race-course in the Fall. Her halfsister Equality, by King Tom out of Liberty, 3 years, and two imported fillies, are in the hands of the breaker, but will not be brought out till next year. Mr. Patteson will send his fillies to the exhibition at London in October, after which he intends sending them south to be wintered and prepared for a spring campaign.

FROM CHICAGO.

GARAFRAXA-WHAT AND WHO HE IS.

CHICAGO, May 14, 1877.

To the Editor of the Sporting Times:

DEAR SIR,-The Chicago Spirit of the Turf, last week, has the following item :-- The bay gelding Garafraxa, purchased in this city a year ago, was found doing some fast suide work on the ice in Canada." Would the S. of the T. tell the ice in Canada." Would the S. of the T. tell what he knows about Garafeaxa, as he is quite a conundrum licie?

I clip the above it in from your paper of a recent date. The hors Garafraxa should not " be a conundrum " unless it is by over zeal of his owner to conceal his identity.

As your paper circulates largely through Canada, and the above non, unless contradicted, will be doing Gara'r xa and his worthy owner injustice, I should be pleased to have you publish the following facts:

Garafraxa is a bright ony, 151 hands high and w. igus about \$75 ibs., is now about 12 years old, was bred in Aurora, Ill., and was sired by a Mor. an horse; he was brought to Chicago 8 years ago, by W. C. Furman, now of 2221Ogden Avenue, this city. Furman say be placed him in the hands of Sam PARK RACES, TORONTO, SATUR- Crooks, who handled him a portion of a sca-

Nobody will impute to Mr. Harris the idea of manufecturing the story out of whole cloth, even if Garafraxa is handled by a near relative of his; his connection with one of the leading sporting journals of America making such atheory untenable; but there are discrepancies in his statement which Canadian horsemen would like to have volained .- ED.
