#### TORONTO MARKETS.

FLOUR.—There is hardly anything to report in the way of transactions for the past week, there having been very little offerling of any grade. In extra there was nothing done. A few lots of fancy were taken at equal to \$16.10 here. In superfine there was nothing done excepting a few hundred barrels in bags which sold at \$6.10. To-day bag flour was offered at this figure with no buyers over \$6.00.

Wheat.—There were a few car-lots of old fall and spring wheat offered during the wook, but we did not hear of their having found buyers, and in the absence of transactions quotations are nominal. Of new a few waggon loads have come in, but the samples were generally inferior and prices irregular, affording no index to actual values.

Banker.—Old has no inquiry worth noting and no sales are reported. One load of now-a good sample—was taken at 65c.

PEAS.—None offering, and quotations nominal.

OARS.—The market has been well supplied throughout the week, a good many eastern eats offering at low rates, and having a tendency to depress prices generally. Western thave sold to some extent at 38c on the track, and 30c free in ears, while for eastern, as low as 35c has been accepted. OATMEAL.—We hear of no transactions except in broken lots. For car-lots, from \$4.50 to \$4.60 would be accepted, according to quality.

Bran.—Is not abundant, but prices remain about as last quoted.

HAX.—The receipts have been considerably more liberal of late, but there has been a steady demand, and prices have given way very slightly, closing rates being \$23 to \$25.

STRAW.—None coming in, and very much wanted; would probably command \$16 for sheaf.

### PROVISIONS.

The market has been quiet during the past week but there has been a steady business for home consumption at firm prices.

BUTTER.—The shipping demand is limited, the only recent sale reported being of 60 packages at 19jc. A small lotofselected for the city trade brought 16c, but the offerings of choice are small, and were it to come forward more freely, this price could scarcely be maintained. Low und medium grades are unsaleable, except at rates relatively much below that commanded by good quality, and quotations are nominal.

CHEER,—Unchanged, Fine qualities contine to

CHEESE.—Unchanged, Fine qualities contine to self in a retail way at 11c, the usking rates at the factories being 10c to 10ic for best, and 9ic to 10c for ordinary. EGGs.—Light demand, and quotations nominally unchanged.

JABD.—Soils at 101c for tinnets in small lots, tierces being held at 91c to 10c.

BACON.—The demand continues very active with free sales of Cumberland Cut in ton lots at 7c., smaller quantities being taken at 7½ to 7½.

HAMS.—The few new in stock are held at 15c with a fair demand for cunvassed at that figure. No other in the market.

Poux.—Small sales of Mess noted at \$15.50 to \$16, and of film Mess at \$15. Extra Prin. held at \$10-50 to \$12.

#### THE ALDINE:

ANILLUSTRATED MONTHLY JOURNAL claimed to be the

"Give my love to the artist workmen of THE ALDINE who are striving to make their professoin worthy of admination for boauty, as it has always been for usofulness."—Henry Ward Beecher.

HANDSOMERT PAPER IN THE WORLD.

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature and a collection of pictures, the rarest specimens, of artistic skill, in black and white. Although each succeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may cleim superior cheapness as compared rivals of a similar class, THE ALDINE is a unique and original conception—alone and unappreached—absolutely without competition or in price or character. The possessor of the volume just completed cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost.

The labor of getting THE ALDINE ready on the press is so great that reprinting is out of the question. With the exception of a small number specially reserved for binding, the edition of 1871 is already exhausted and it is now a scarce as well as valuable book.

### New Features for 1872.—Art Department.

The enthusiastic support so readily accorded to their enterprise, wherever it has been introduced has convinced the publishers of THE ALDINE of the soundness of their theory that the American public would recognize and heartily support any sincere effort to clevate the tone and standing of illustrated pupilications. That so many weekly wicked sheets exist and thrive is no ordinere that there is no market for anything better—indeed the success of THE ALDINE from the start is direct proof of the contrary. With a population so wast, and of such varied taste, a publisher can choose his patrons, and his paper is rather indicative of his own than of the taste of the country. As guarantee of the excellence of this department, the publishers would beg to announce during the coning year, specimens from the following eminent American Artists.

Grany, Perrins.

W. T. RICHARDS, WM. HART, WM. HART, GEORGE SMILEY, AUG. WILL, JAMES SMILEY, FRANK BRAND, J. HOWS.

GRANV. PERKINS, F. O. C. DARLET, VICTOR NEHLIG, WM. H. WILCOX, JAMES H. BEARD, R. E. PIGUET, PAUL DIXON,

The pictures are being reproduced without regard to expense by the very best engravors in the country, and will bear the very severest critical comparison with the best foreign work, it being the determination of the publishers that THE ALDINE shall be a successful vindication of American taste in competition with any existing publication in the world.

LITERARY DEPARTMENT. Where so much attention is paid to illustration any got my of the work, to much dependance on appearances may very naturally be feared. To anticipate such misgivings, is only necessary to state that the editorial management of THE ALDINE has been intrusted to Mr. Richard Henry Stoddart, who has received assurances of assistance from a host of the most popular writers and poets of the country.

## THE VOLUME FOR 1872,

will contain nearly 300 pages, and about 250, fine engravings. Commoneing with the number for January, every third number will contain a beautifully tinted picture on plate paper, inserted as a frontispiece.

The Christmas number for 1872, will be a splendid volume in itself, containing fifty engravings, florr in intr and, although retailed at 81 will be sent without extra charge to all yearly subscribers

## A Chromo to every Subscriber

was a very popular feature last year, and will be repeated with the present volume. The publishers have purchased and reproduced, at great expense, the beautiful oil painting by Sels, entitled "Dame Nature's School." The chrome is 11 x 13 inches, and is an exact fac-simile, in size and appearance, of the original picture. No American obrome, which will at all compare with it, has yet been of fered at rotail for less than the price asked for THE ALDINE and it together. It will be delivered free, with the January number, to every subscriber who pays for one year in selvance.
