VANCOUVER ISLAND.

Northern and Western States.

J. JOHNSTON, C.E., MONTREAL.

TO BE PUBLISHED IN THE EARLY PART OF 1873, GEO. E. DESBARATS.

GEO. E. DESBARATS.

Size of Map, about 7 ft. x 5 ft. Extending (East and West) from Newfoundland to Manitoba and (North and South) from Hudson's Bay to latitude of New York, drawn on a scale of 15 miles to the meh, and compiled from the latest Astronomical Observations, Official Surveys, and Records of the Departments of Crown Lands, as well as from County Mans, Local and Railway Surveys. From Manitoba to Vancouver Island will be delineated on a scale of 50 miles to the inch. This arrangement of this Napadmits of the old Provinces of Upper and Lower Canada, New Brunswick and Nova Sectia being mapped on a scale large enough to shew accurately all bond fide surveys. The Great N. W. Territory and British Columbia—where comparatively little has been done in the way of actual an ever—a smaller scale answers every purpose. The whole Map is thus kept within the dimensions best adapted for general office use.

The following are some of the most important details, which have been collated with great carefrom the latest Official Plans and Reports:—Recent Explorations and Surveys in the "N.W. Ferritory." New Boundary Lines: Electoral Districts and Divisions: New Townships and Mining Lecations: all Now Railways: Canals and Colonization Reads: the "Free Grant Lands" and New Settlements: Elevations of the Infland Waters and Jounctainens regions above the Sea—marked in feet—and the correct delineation of all preminent Topographical features. In connection with the General and Detail Map, there will be two supplementand and Uniter shortest lines of communication: Telegraph lines in operation and projected: distances. &c. &c. with much other new and valuable information.

The explored route for the Canadian Pacific Rail-conton with its connections—East and West—with accompanying Protile, will be accurately laid down from data supplied by the Government Engineer: also, the Route of the Northern Pacific Rail-contoner of the connections—East and West—with accompanying Protile, will be accurately laid down from data supplied by the

Mr. Johnston has been engaged on the compilation and drawing, unremittingly, for a period of nearly four years. Neither labour nor expense has been economised in the endeavour to gain for this great Geographical and Topographical work the merit of being the STANDARD MAP OF CANADA for many years
