GRAND CANAL BETWEEN THE MANUFACTURERS' AND ELECTRICITY BUILDINGS.

that the views of this Journal regarding the giving of a banquet, as expressed in a leader in our August number have been adopted, which we are glad to notice, as it is a big step in the right direction towards a really successful Convention. We have also heard that our associate editor, Mr. Henry, has consented to read a paper before the Convention. We are sorry that we are unable to give our readers more information regarding the coming convention, especially, as we know that a great many will be disappointed at not finding a full account in our pages as they expect. To those who have written us letters of enquiry, we would say, if not to late, write the secretary, who will undoubtedly, in the interests of the Convention, give you full information.

As this is the last issue that will reach you before the Convention, we wish to take the opportunity of saying that we look forward with pleasure to meeting those of our readers who attend, and we hope you will find the Convention of '93 interesting and instructive. Our temporary office, during the fitting up of our new quarters, will be at the Sales Rooms of Messrs. Mulholland & Sharpe, 159 Bay Street, and we feel we hardly need say, that we shall consider it a pleasure to serve our visiting friends in any way we can. Those we have appointments with, will find us at the above address.

EDITORS C. P. J.

AMATEURS -- Don't forget our Competition.
