

Opportunities for Canadians

Work sponsored by the two major trust funds will add to the experience and profile of the Canadian consultants and could lead to future EBRD and IBRD contracts. A similar strategy adopted by the Task Force elsewhere paid dividends when the Association of Canadian Community Colleges undertook a hospitality and tourism curriculum development project in Hungary with Task Force support. The original project led the Association to win a \$1.5-million contract with the IBRD.

Both the EBRD and the IBRD will invite bids on their projects from Canadian companies known to the banks for their experience and stature in international development. ■

FOR FURTHER INFORMATION

This newsletter is produced by the Task Force on Central and Eastern Europe, External Affairs and International Trade Canada, to provide information on Canadian initiatives and developments in Central and Eastern Europe.

If you wish to receive further information on Task Force activities or on the submission of project proposals, please contact the Task Force at:
