

- (c) Regional fisheries bodies should link information systems which have part of the high seas ecosystem under their responsibility and inventory all stocks (target and non-target) in order to set up rehabilitation measures where appropriate.
- (d) GATT assisted by the FAO should strengthen international technical cooperation mechanisms in relation to high seas stock-commodities with a view to identifying and eventually eliminating inappropriate trade barriers and assisting in preventing the evasion of international management regimes.

196bis. States should develop multilateral standards dealing with the interlinkages between trade and the protection of living marine resources, taking into account concerns on sustainable development]
