This section of the annual report is one of the tools the IPB uses to report on the management of the funds entrusted to the department by partners and co-locators. It begins with an overall picture of spending managed by the IPB to the benefit of Canada's Network. It continues with more specific information about changes in Network spending.

OVERVIEW

Figure 34 presents an overall and comparative picture of the expenditures managed by the IPB in relation to the Network. This includes IPB spending both at headquarters and missions abroad for the delivery of common services to Government of Canada representatives abroad. CBS salaries and benefits paid—directly by partners (excluding DFATD) and co-locators—are excluded from this figure.

FIGURE 34 Spending managed by the International Platform Branch, 2012-2013, 2011-2012, 2010-2011
