WASHINGTON, D.C.

September 21, 1923

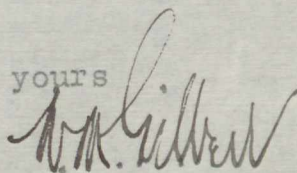

Dr. F. E. Lloyd
McGill University
Montreal, Canada

My dear Lloyd

It is a pleasure to hear from you and I think I understand the situation which you describe in your letter of September 19. Perhaps the inclosed printed list of lantern slides and photographs to be obtained from the Mount Wilson Observatory will prove satisfactory. I believe there is some dealer in Pasadena who does all of this work upon order received by the Observatory and transmitted to him. Under the circumstances I am not inclined to think that the prices charged for lantern slides *are* excessive.

My very best wishes to you, with the hope that our paths may cross again before long.

Sincerely yours

G:C
