

SAWDUST AND FISH LIFE.

BY A. P. KNIGHT, M.A., M.D., PROFESSOR OF ANIMAL
BIOLOGY, QUEEN'S UNIVERSITY, KINGSTON.

(*Read 14th February, 1903.*)

CONTENTS.

PART I.—HISTORICAL	2
PART II.—EXPERIMENTAL	9
SINKING OF SAWDUST	10
AQUEOUS EXTRACTS FROM SAWDUST	12
AERATION OF WATER CONTAINING EXTRACTS	13
SOURCE OF EXTRACTS	13
WOOD CELLS AND CELL CONTENTS	14
PULP INDUSTRY	15
BEET SUGAR INDUSTRY	15
SOLID MATTER IN AQUEOUS SOLUTION PINE	16
SOLIDS FROM CEDAR	16
EFFECTS OF CEDAR SAWDUST SOLUTION ON PERCH	17
“ “ “ LEECH, SNAIL, VORTICELLA	18
“ “ “ WORMS, TADPOLE	19
“ “ “ BLACK BASS FRY	20
“ PINE EXTRACTS ON FISH EGGS	21
“ “ “ MINNOWS, PERCH, WORMS, TADPOLE	21
“ “ “ CRUSTACEANS, HYDRA, VORTICELLA, BASS.	22
“ MAPLE EXTRACTS	24
“ HEMLOCK EXTRACTS	24
“ BRITISH COLUMBIA CEDAR EXTRACTS	24
“ RED PINE, OAK, ELM	25
RAPIDITY OF SOLUTION	25
FISH AT MILL ENDS	26
A STAGNANT ARTIFICIAL POOL	27
COMPARATIVE EFFECTS OF PINE, CEDAR.	28
“ “ HEMLOCK BARK, CEDAR BARK	29
“ “ HARD WOOD SAWDUST	30
“ “ CONCLUSIONS BASED ON	32
EXPERIMENTS WITH WHITE PINE BARK	33
“ “ HEMLOCK AND CEDAR BARK	33
DECAYING SAWDUST	34
BACTERIA IN WOOD EXTRACTS	34
AROMATIC COMPOUNDS	35
NUTRITIVE RELATIONS	37
SAW MILL ON THE BONNECHERE RIVER	38
CONCLUSIONS.	41
ACKNOWLEDGMENTS	41
DR. CONNELL'S BACTERIOLOGICAL EXAMINATION	42

NOTE.—The trees mentioned in the following report are : White Pine (*Pinus Strobus*, L.), Red Pine (*Pinus Resinosus*, Ait.), British Columbia Cedar (*Thuja Gigantea*, Nuttall), Ontario Cedar (*Thuja Occidentalis*, Linn.), Hemlock (*Thuja Canadensis*, Carr.), Maple (*Acer Saccharinum*, Wang.), Elm (*Ulmus Americana* Linn.), Ash (*Fraxinus Sambucifolia*, Lam.), Oak (*Quercus Rubra*, Linn), Spruce (*Picea Alba*, Linn).
