SPECIAL FEATURES IN CIRCUS PARADE

Sells-Floto Organization Arrives in Toronto This Morning.

MANY WILD ANIMALS

Every Cage is Open So That All Can See Jungle Denizens.

Of course when the Sells-Floto circus comes here today, it will give a parade, which will probably come down the street about eleven o'clock in the morning with bands playing and banners flying and full of all the joy and gladness that it will held.
Sells-Floto is the only big traveling organization that always gives its patrons the full benefit of this free spectacle. Others cut out the street parade at one time or another, the real reason being that they did not have exactly what they advertised, but when the Sells-Floto circus comes here, it is especially requested by the management that you go and see the street parade, because if you don't even care to go to the circus afterwards, you will see much that is interesting, entertaining and educational while watching the pageant. Some of the things that you will see and hear are as follows:

as follows:

The famous Scotch Kilty Band from Toronto, Canada, the greatest organization of its kind in the world. You will hear the Sells-Floto Concert Band under the direction of Park B. Prentiss. As the line of march proceeds, you will notice Devlin's champion zouaves, performing all kinds of intricate and sensational military movements. You will hear Berni Giant Serenadum, the largest musical instrument ever carried on wheels and featured in a parade.

Open Cages.

You will also notice that every cage and den is open, and each contains some remarkable specimen from jungle and plain. You will see Margruerite Ricardo, sitting like Daniel of old in an immense den of lions and tigers, unterrified and unafraid, while they crouch fawning at her feet. You will notice the display of horse flesh, the like of which you have never seen before and may never see again, every class and species being represented from the sleek thorobred to the lordly Percheron.

And the Clowns.

"The Count of Luxembourg" will be given its initial Toronto presentation at the Princess theatre on Monday night. Franz Lehar wrote the music and Glen MacDonough has provided the libretto from the German of Willner and Bodansky. Londoners, Parisians, Viennese and New Yorkers have heard this musical romance.
