SHOW STRENGTH**

Bethlehem Quoted at the Highest Price in Many Years.

CHEERFUL TRADE NEWS

Exchange on London Lowest in Eight Years—Bonds Irregular.

Canadian Press Despatch.

NEW YORK, Feb. 7.—The depression caused by Germany's proposal of a moratorium on the war was again a factor of importance today, the stock market reflecting further foreign liquidation. On the whole, however, the list made a good showing, and some of the early gains were wiped out.

London and Canadian Pacific were the strongest, with Reading and Canadian Pacific, which was weak in the railway shares in yesterday's session, opened with a gain of one point. At the higher level it met with further offerings, which soon brought about a general reaction. The lower level was then reached, and recoveries with some confusion and irregularity at the close.

Each relatively inactive shares on Chicago and Northwestern and Norfolk and Western were weak, the former declining three points to its minimum of 12 1/2. Pennsylvania shares, the transcontinental group showed variable but unimportant changes.

Bethlehem stock overshadowed all other industrials with its rise to 54 1/2, the best quotation in many years, and the steel quotation in London, where it appeared to be in moderate demand. Incompleteness in the market, however, was down from one to two points, and other specialties were dull, with little change.

Trade advices were of a cheerful tone, even the expansion in merchandise lines shows no marked advance. The steel quotation in London, where the great rise in grains has contributed measurably to commercial betterment, was down from one to two points, and other specialties were dull, with little change.

Reports of Boycott.
Reports of a boycott on goods from this country in Canada have been spread in the press here, but Canadian bankers in New York state that the business and financial men of the two countries say that they have to look to New York as about the only market for financing loans for the next few years, and that they have received very good treatment. They admit that a boycott on goods from the United States would have the effect of disturbing friendly banking and financial relations here. Bankers point out the fact that when Canada gets short of goods, it will have to buy heavily in this country owing to the inability of its merchants to get supplies from abroad during the war.

**PRICE HIGHEST ON
NORTHERN WHEAT**

Renewed Demand for Manitoba Spring Over Cable—Flour Firm.

Canadian Press Despatch.
MANITOBA, Feb. 7.—The foreign demand for Manitoba spring wheat was made by London at 64 1/2 to 65 1/2, the latter price being the highest in the market so far. There was no further change in the condition of the local market for coarse grains, but the flour market was active, and the flour market is firm with a fair demand for local consumption, but the foreign demand was not active.

Wheat prices for the week were 12 to 13 boxes as against 12 1/2 to 13 1/2 boxes for the week ending Jan. 26.

**C. P. R. FOOTBALL
IN WALL STREET**

Stock Was Buffeted About Severely Thruout the Past Week.

STILL GOOD INVESTMENT

Is Opinion of Market Followers—London and Montreal Sold Heavily.

NEW YORK, Feb. 7.—

London and Montreal holders of Canadian Pacific were among the heavy sellers of its shares in the market during the last week. The decline in the stock was also aided by the attempt to blow up the railroad bridge, bears setting it as a sensational issue to depress the stock. On the down turn a number of weak bull holdings were shaken out, while those who bought before the recent decline were taking profits. As a whole, nothing developed to account for the big decline in C. P. R. It had been a steady climb from about 100 to 110, and the recent general market weakness, however, and that might have made it a specially shining market for bear speculation. Followers of the market stated that even at the weakest period, there was a good investment demand for Canadian Pacific. Canadian Grain Means Wealth.

The interview with Sir Thomas Shaughnessy in which he showed such supreme confidence in the great future prosperity of Canada had a favorable influence on sentiment regarding Canadian Pacific shares, without being of service in starting a recovery at once. There are plenty of people in this market who believe that the present high prices for grain for Europe are two factors which will influence a great increase in earnings for railroads through the dominion. Sir Thomas stated that a large amount of wheat is still in the hands of Canadian growers. With the world renovating all restriction on wheat imports, and with the supply in this country at a low point now, the Canadian farmers should get the highest prices of the year when they are ready to sell.

Reports of Boycott.
