PACKED DOGS IN CLOSE CASE Animals Were Four Days Without Food or Water When Discovered.

GALT, Nov. 23 .- (Special.) -- Fines to aling \$54.40 were imposed on John N. Sipes at the police court this afternoon before Police Magistrate Blake. Sipes was charged with transporting dogs into the northern game district, in contravention of the special act of prohibition, and also with cruelty to animals. The prosecutors were John Jennings, for the department of agricul-ture, and P. C. Laverton Harris, for the Humane Society. C. R. Hanning, K.C., Preston, appeared for the defence and pleaded guilty on both charges. Mr. Jennings said he did not want the full penalty inflicted, but only a lesson read to sportsmen and others.

Sipes boxed up two hounds in a close acking case and consigned them to Parry Sound, to be used for deer hunting. At Shawanaga the box was discovered by a provincial constable, who onfiscated and released the dogs. The animals had been four days without food or water and nearly perished.

It is understood that they are only waiting to see if the government cannot still persuade or force the company to reinstate the 250 men, out of the original 3000 who went on strike, who have been overlooked in the "re-call." The company's promise was to re-engage all the men at their former positions by Nov. 2, unless they had been found guilty of acts of violence or misconextradited declared that it was a mat- duct. "I was laid up with Rheumatism and Gravel," Mr. McCarter states, "and was also troubled with my bladder. I was so bad I could not do much work. Mr. Hays has been asked by the government to have prepared a list of the men—and the charges against them—who, according to the company's officers, have been guilty of acts of violence or disorderly conduct. Such a list is said to have conduct. Such a list is said to have been promised, but has not been fur-

The government is said to agree entirely with the men's view that if strikers are to be shut out from the benefit of the agreement they must be told what the acts are which they have committed and such acts must be proved. Mr. Hays must know that he is not standing on good ground when he refuses to leave the matter of reinstating or rejecting these men to an outside or disinterested party. The men are willing that the matter be left with Judge Barron of Stratford, who assisted so materially in straightening out the street railway agreement. But The government is said to agree en

But Mr. Hays refused on the ground unst it would not be proper for an outsider to pass upon the railroad ability of men. This is not required of an arbitrator. The qualifications of the men have no place in the controversy.

There is also a question to be settled if the 250 men are not to be taken back, and that is that they have not been paid up to between \$25 and \$80 of what is coming to them. The company agreed upon a new rate of wages to take effect on May 1 last. Those who were taken back got the benefit of this increase, but those not recalled did not and they claim the rate of the increase per day for two months and 18 days from May 1 till they went on strike.
