What the Government Tourists Are Telling and Are Being Told.

Charlton, Temiskaming District ept. 14.—(Special.)—To get in touch with the settlers and hear their grievances and their suggestions is the object of the northern tour of Hon. Frank Cochrane, minister of lands and mines, and Hon. Nelson Monand mines, and Hon. Nelson Monteith, minister of agriculture. The ministers are accompanied by A. W. Campbell, good roads commissioner; Thos. Southworth, director of colonization; Dr. J. F. Clark, director of forests; Commissioner Coombs, and Col. Lambe, the latter being in charge of the immigration work of the Salvation Army. Such a tour should be of the greatest importance to the new districts and to the government, because wherever the ministers have spoken the freest criticism has been invited and by this means the needs of the pioneer are made known. f the pioneer are made known. Wherever it has been shown that

Wherever it has been shown that a substantial grievance exists there has been the promise of a responsible minister that it would be remedied.

Meetings have already been held at Milberta on Tuesday night, at Earlton Wednesday afternoon, and at Charlton Wednesday night, and at Heaslip and Englehart last night.

To get here the government party Heaslip and Englehart last night.

To get here the government party forsook the railway at Liskeard and drove over the pioneer roads, some of which are admitted to be better than the majority of roads in Old Ontario. The worst strip was the eleven miles from Heaslip to Charlton, which is at the foot of Long Lake. Here we are in the moose country. It is said to be a hunter's paradise. The lake abounds in fish, and the forest in hig game: and no more romantic scenbig game; and no more romantic scenery is to be found in New Ontario.

Here and there along the highway is seen a patch of cleared land. Some of them show splendid thrift and enterprise. There were a few plots of "garden sass" not unlike the best to be seen in the Niagara district.

In the church, where the meeting was held, Wednesday night, an exhibit of farm produce opened the eyes of the visitors. They all said it was "marvelous" that these men in two or three years should bring their farms to that state of forwardness to be able to produce practically all to be able to produce practically all the new country eats.
