

WOMAN'S POWER

Perfection of Form, Feature, and Mind Render Women All-Powerful. Health, However, the Greatest Charm.

Woman's greatest gift is the power to inspire admiration, respect, and love. There is a beauty in health which is more attractive to men than mere regularity of features.

The snap and spirit which health gives to the eye, the movement, and the speech are full of magnetism.

Sickly women can't understand this. They only know that they are miserable, and their efforts to be attractive are languid and weak.

Woman's influence in the world is limited by her strength, and the strength of health is real strength.

It brings with it beauty and grace and loveliness of disposition.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. If she would be all she may, she must guard well against the signs of ill health.

Regular and painless menstruation is absolutely necessary.

The help which Lydia E. Pinkham's Vegetable Compound gives to women who are attacked by any disorder of the feminine organism is real, permanent help. It cures all weaknesses of the organs and makes it possible for women to retain their health and beauty to maturity.

Mrs. Pinkham advises women who are ill free of cost. Address her at Lynn, Mass. Thousands owe their health to her.

A Boston Woman's Experience.

"DEAR MRS. PINKHAM:—I feel very grateful to you for the benefit I derived from your kind advice and remedies. I was troubled with a complication of female troubles, had ovarian, painful and irregular menstruation, leucorrhoea, nervousness and weakness. I had no appetite and could not sleep nights. The least exertion would cause shortness of breath and dull pains in my hips and side. The doctors all advised me to have an operation, and have one of my ovaries removed, but this I could not bear to think of. I was induced to try Lydia E. Pinkham's Vegetable Compound, and after taking the first bottle I was much improved. It renewed my appetite, health and strength. I continued taking it, also your Blood Purifier and Sensitive Wash until entirely cured of all my troubles. The pains have never returned and my health is splendid. Your remedies have been a boon to me and I am sure many a woman owes her life to them."—MABEL WEBB, 356 Columbus Ave., Boston, Mass. (March 15, 1901.)

No other medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends. Remember this when you go to buy Lydia E. Pinkham's Vegetable Compound.

\$5000 BONUS.—We have deposited with the National City Bank of Lynn, Mass., which will be paid to any woman who can prove that she has been cured by Lydia E. Pinkham's Vegetable Compound, or by any of her other remedies, the sum of \$5000. The bonus is not given, or paid, until the woman's story is published in our magazine. Address: Lydia E. Pinkham Medicine Co., Lynn, Mass.

OBSERVANCE OF EMPIRE DAY

Patriotic Exercises in the Normal and Model Schools Joined in By the Scholars

FLOWER PLANTING ON THE 30TH

On That Day 14,500 Flowers Will Be Set Out in the Schoolyards and Windows.

The celebration of Empire Day was participated in yesterday by the pupils of the Model and Normal schools, the celebration in the Public schools being set for May 30, when it will be observed jointly with Arbor Day. On that day 14,500 flowers will be distributed among the pupils for plantation, and patriotic exercises will be held. In the afternoon there will be a parade to Queen's Park, where the monuments will be decorated.

In the Normal and Model schools yesterday morning, the history, extent and resources of the British Empire were reviewed by the teachers, and in the afternoon the scholars were addressed in the assembly hall by Rev. Dr. Fots and Rev. Armstrong Black. Principal Scott explained that the day was set aside to illustrate to the children the growth and importance of the empire.

The flowers to be planted next week in the school yards will consist chiefly of geraniums. In cases where the school yards are planted, the flowers will be arranged in the school windows.

NO LONGER STAMMERERS.

(From The News-Record, Berlin, Ont.)

The editor of The News-Record met Mr. J. S. Hoffman yesterday and was asked if he knew Mr. A. H. Ewing, the florist. Receiving an affirmative reply Mr. Hoffman continued: "You remember how badly I stammered? Well, he has been completely cured and now speaks as easily as you or I."

We interviewed Mr. Ewing, and Mr. Hoffman's statements were fully confirmed. After a four weeks' course of treatment, he has completely overcome a life-long impediment in his speech and is a new man, so to say. He can now participate in a conversation on any subject. He can pronounce "chrysanthemum" without a skip.

Investigating the matter further, The News-Record learned that Dr. Arnott has at present a class of four who are being treated for stammering. One of these is John Lane of Chatham, another K. Smith of Sudbury, and another came from Winnipeg to get relief from his sore affliction.

Mr. Lane, on Mr. Lane at Berlin, went to the opera house to buy a ticket. He stammered so badly that the ticket seller did not know what he wished to buy the house or was an actor looking for a job. He was even worse than Ewing that day. He speaks fluently and easily.

Dr. Ewing's case will come home to every one who knows him here, because he is a Berlin citizen, and many are the congratulations offered him. He informed us that he had tried to get relief at various institutions at Toronto and elsewhere, but at best it was only temporary relief, and he was soon relapsed.

Dr. Arnott has been treating stammerers for some years and has met with pronounced success. The reason of it is that he has made a study of the cause and how to remove it. At stammering institutes they treat the habit instead of the thing that causes the stammering habit. Their system teaches mechanical speech; a sing-song, one word or one syllable uttered, usually accompanied by a hand movement. Should the person drop the cumbersome movement, he stammers as badly as ever. Nineteen out of every twenty so treated go back. The method is physiologically wrong.

The doctor's system does away with all this. He gets at the cause, removes it, and the person is taught to speak confidently, naturally and correctly. He requires no mechanical movement to assist the stammerer. After treatment they speak as if they had never been afflicted with stammering.
