

BOARD OF CONTROL DOINGS

Man Whose Wagon was Burned
During Peace Demonstration
Will Get Damages.

THAT PAVEMENT FOR SIMCOE-STREET

Bright Prospects for an Island
Ferry Service From West End—
City Hall Notes.

The Board of Control had its first session in vacation yesterday afternoon, and owing to the prompt arrival of the Mayor business was conducted much earlier than usual. An echo of the peace demonstration and the bonfire which was graced by His Worship's presence came in the form of an application for damages.

Joseph Opperman, 12 Wilton-avenue, made the claim that on the night of Sunday, June 1, a mob of people got possession of a wagon which was upon the premises he uses as a blacksmith shop. The crowd drew the wagon up Yonge-street and put it on a bonfire to celebrate the declaration of peace.

Mr. Opperman says he saved one of the city's carts which was on his premises, and while doing so his own cart was taken away. He will get \$18 damages.

Another of those complaints. High-handed methods of the police, often the cause of complaint, were before the board, in the form of the following letter from Mrs. Russell, 593 Givens-street: "I got a summons for a pony and a colt running at large on June 30. We had a pony, but sold it two weeks before that day. Some of the boys told the police that it was ours, and I got a word about it until the summons was left with me. Mr. Russell, also Mr. Herdman, swore that the pony was not ours, but the policeman swore it was ours and that he gave it to Bertie Brown, Shaw-street, to bring it home. Bertie Brown says he never was speaking to the police. The policeman that left the summons with me went down to the City Hall to see if the case could not be withdrawn, but they told us down there they could not do anything in the matter. I have had to leave my six little children five or six times to see what could be done. They tell me at the station I can have the money refunded."

The board sent the communication to the legal department.

The Island Church. W. H. Lockhart Gordon, who had arranged an interview with the board with a view to getting some financial help for St. Andrew's Church at the Island, wrote asking that the matter be postponed until a later date, as a number of interested parties were not at present in the city.

Simcoe Street Pavement. Since street residents are worried over the new pavement which they want. They asked for macadam first, and then told Burns got a delay in order to get asphalt, but the petition spoke a month ago is not yet sufficiently signed. Capt. Kirkpatrick, with some Simcoe-street taxpayers, appeared before the board and asked that measures be taken to have some kind of pavement laid as soon as possible. They claimed at continual delay and would accept any good pavement. Acting City Clerk Sanderson is studying the asphalt petition and the matter will be acted upon by the board today.

West End Ferry Service. All that is needed now for a ferry service from Dufferin-street, where the island is repaired to the wharf, which are provided for in the estimates. Add. Grants are pointed out that the Park Commissioner will put seats there, and the Ferry Co. will run an afternoon and night service, with the ferry boat John Hanlan. The wharf will be put into shape right away.

Infants' Home Grant. The City Relief Officer wrote in regard to the grant to the Infants' Home. The only money the home receives now is \$7.50 a month for each child, and no children are sent there except on the order of the Relief Officer, unless the child is a foundling. Since the passing of the maternity bill the Medical Health Officer inspects maternity houses, and on account of the thorough inspection the number sent to the home is decreasing. Now the directors of the home want the city to guarantee them \$10 a year in lieu of the per capita allowance. This was left to the end of the year.

Some Small Matters. More vault room is wanted in the registry office, and an advertisement will be inserted calling for tenders for the improvements.

The board granted the \$400 necessary to purchase the Gurney-Tilden building at the Exhibition grounds to be fitted up for this year's Exhibition. Tenders will be asked right away for draining the walls of King-street subway.

The Commissioner of Parks will be granted permission to build the new taker's cottage at Riverside Park by day-labor at a cost of \$750.

Yonge-street Bridge. A petition is in circulation which it is proposed to present to the City Council asking for the erection of a bridge at the foot of Yonge-street.

Invited to Toronto. Mayor Howland telegraphed an invitation to the Glass Workers' International Association now in session at Atlantic City to visit Toronto next year.

Neglected Business. Although the City Council has adjourned until Sept. 22, there are a number of important questions still demanding attention, and which may be taken up at a special meeting of Council. These include the question of the entrance into the city the Metropolitan Railway, the settlement of the gas suit, the opening of St. Lawrence market, the disposal of the city's sewage, the superannuation of city employees, the reform of the City Commissioner's Department, the charges against the Assessment Commission, the erection of the Yonge-street bridge, and several other questions.

A special session will have to be held to pass the bylaw appropriating additional school funds.
