The prices are thirty-day prices only. Messrs. Pearson Bros. are acting for the owners, and would be pleased to show the plans on year and work the wind the relation of Queen's has drawn very particulars. As a special inducement for quick-selling within thirty days, purchasers will be allowed the taxes for the year 1904. This is one of the finest residential properties for building on the market.

THE JAUNDICED VIEW

ther increase.
That the imports from the United States should have so greatly increased in spite of the British preference, or because of it as unkind critics would gay—it is certainly very remarkable. Friends of the government point out that the importations are very largely of raw material used in manufacturins, and that the importations are very largely of raw material used in manufacturins, and that the increase shows the growth of Canadian industry. Among the items which sustain this contention are raw cotton, which increased from \$2.792,395 in ten months of 1897 to \$5.194,504 to \$15,600,000. On the other hand, we find that there are large increases in manufactures; for instance, in agricultural implements, from \$291,000 to \$2,567,600, more than eightfold; books and maps, imports nearly trebled; cars and carriages, increased from \$100,000 to \$2,567,600, colocks and watches, \$200,000 to \$700,000; scientific instruments, imports more than trebled. In timber there was an increase from \$585,825 to \$1.225.756. the largest imports in 1904 were, in round numbers: Bituminous coal, \$3,000,000; and in lumber from \$585,925 to \$2.721.764. The largest imports in 1904 were, in round numbers: Bituminous coal, \$3,000,000; anthracite, \$7,000,000; raw cotton, where the continuance of the grant is more than related to the continuance of the grant is more than related to the continuance of the grant is more than a continuance of the grant is good faith. Finally, its continuance of the grant is good faith. Finally, its continuance are also for the government as a ridiculous theory, it was not unnatural for a British aristocrat with the strong political preferences of his class to make political preferences in the continuance of the grant is good faith. Finally, its continuance are also for his class to make political preferences where the political preferences were rised to the continuance of the grant is good faith. Finally, its continuance are also for his contention of the grant is good faith. Finally, its continuance are a

The Vice-President Independent Order of Good Templars.

An experience which many women have was related by Miss Agnes Stebbings, of 231 East 30th Street, New York City, as follows: "I had very poor health for a year until life looked dark and dreary to me. Had headaches, backache, also pain, my sleep was broken and fitful. I longed for health. Tried several medicines but none were of any lasting benefit until I took Doctor Pierce's Pavorite Prescription. I soon realized that I had found the right remedy. It helped nature to throw off the poisons that saturated the system, removed all pains and strengthened the digestive organs, and brought the roses of health back to my cheeks. This medicine if taken occasionally keeps the system in perfect condition, helping it to throw off the disease and consequences of exposure to dampness. I am pleased to give it my endorsement."

"Favorite Prescription" makes weak women strong, sick women well. Accept no substitute for the medicine which works wonders for wear women. STATED CASE IS SIGNED.

MANUFACTURERS AND FIRE PRESSURE Willing to Pay for Special Mains Even at Cost of a Million.

The board of control yesterday heard a deputation from the Manufire. The members suggested that the district should be bounded by Simcoe, Shuter and Sherbourne-streets,

It was estimated that the cost would be between \$400,000 and \$500,000, but the manufacturers said that it would be immaterial if the cost were \$1.000,000, as they would save much more in insurance.

The mayor and controllers expressed their sympathy with the wishes of the delegation, and the city engineer and fire chief will report on the question.

Incidentally the mayor remarked that a, fire tug to provide pressure would be of better utility to the city as a whole than an auxiliary pumpins station.

New Water Mains.

The following new water mains are recommended by the city engineer: Roxborough-avenue, from point 410 feet east of Avenue-road 460 feet easterly, \$391; Plymouth-avenue, from Claremont-street westerly 150 feet, \$69.50; Jones-avenue, from Queen 590 feet northerly, \$570.60; Ulster-street, from Palmerston-avenue 168 feet westerly, \$101; Galley-avenue, from point 294 feet west of Sorauren-avenue 600 feet westerly, \$101; Galley-avenue, from point 420 feet north of Easternavenue to point 420 feet further north, \$44.20.

advantage of this event will please send their names to Miss Burkholder.

Ontario Ladies' College. The annual commencement of the Ontario Ladies' College will be held on Tuesday, 21st inst. A special train will leave the Union Station at 2.15 p.m., calling at Queen-street station and go-ing direct to the college grounds. Re-turning will leave the grounds at 9.30 p.m. Railway tickets and tickets of

signment of plums. Strawberries, fine apples and cabbage poured in from the north tier of the Southern States. Eighty pairs of spring chickens were received by one dealer, and sold at 25 cents per pound.

The Turbine Steamship Company's new steamer Turbinia will likely commence service between Toronto and Hamilton in a few days. The up-town ticket department will be in charge of A. F. Webster, corner of King and Yonge-streets. The book tickets will be on sale Monday, at Webster's office.

Local Option in Paris.

Paris, June 17.—An effort will be made in the fall to submit a local option bylaw in Paris. A similar movement will also be made in Blenheim and South Dumfries.
