Adams Purchases the Balance of the Bedell Stock

The simple announcement told in the headlines conveys a message of money-saving possibilities seldom equalled.

We bought the remainder of this stock, believing we could project a sale that would bring to our friends—the buying public—most extraordinary values in home-furnishings. The keen buying homekeeper will see in it an opportunity fraught with unmatched money-saving chances. No economical buyer of home things will care to miss it.

It will be a Truly Great Sale--Starting Monday

We count it a stroke of real good fortune to have secured the Bedell stock. This was the one stock of home-furnishings in Toronto that we have recognized as worthy of competition with our own—not of course in point of size, but in the quality and choice of goods carried. Although the late Bedell Furnishing Co. made herculean efforts to close out their big stock, there remained naturally an immense amount of it that could not be sold in the comparatively short time before their lease expired.

This we bought at a mere fraction on the Dollar, which enables us in turn to sell it at prices so low as to stir home-providers to a high pitch of enthusiasm.

Furniture forms the basis of the selling, but included are Rugs, Curtains, Electric Fixtures, Stoves, Chinaware and most every housekeeping requisite.

The Bedell purchase coupled with the July Carpet Sale—the Bedding Sale—the Drapery Special Features and other Department Sales will provide a Carnival of Bargains Unprecedented.

Owing to the fact that there are few duplicate pieces among the furniture, we have used no illustrations, but we present below a generous list taken at random from among the items in the Bedell Purchase, and a single glance is sufficient to show that prices are cut to a mighty fine point. Come Monday for first pick—
