PREDICTIONS FOR 1856.—Some one of a turn of mind decidedly philosophical, has ventured upon the following sage predictions:—

This year will be famous for a thousand different things. From January to December the days will consist of twenty-four hours each, and there will be such a number of eclipses that many wise people will be in the dark.

Those who lose money will look sad, and those who are in the want of cash when they borrow, will want it more when they come to pay.

Haszard's Gazette will be printed with *Black ink*, and it will be more generally *read*, than any other Island newspaper, because it gives the latest news whenever it may arrive, Publishing a paper twice a week, gives it a double opportunity of giving the news to what a weekly does.
