The interesting news comes from OtWilson, agent of the Union Bank of the other hand, the fact that "Fruit-atawa that Dr. Michael Clark has been for some time under the wing of Hon. Canada in New York, in an article on the other hand, the fact that "Fruit-a-tives" is entirely different from any other preparation in the world, is just why you should give it a fair trial, in any trouble of the Stomach, Liver, Bow-els, Kidneys or Skin. "Fruit-a-tives is lowing the outbreak of war, the most him to the caucus of the Liberal party.

Lest May he declined to assist the Liberals in the Alberta elections, and it is said he had come to an agreement with the Conservatives of Alberta that he would not himself be opposed in his constituency in the next election Dr.

Clark may therefore be classed as a Clark may therefore be classed as a purchasing power of the common people Conservative and a supporter of the was larger than ever before and was been classed as a Liberal. We are now was artificial and ephemeral and that told that he broke with the Liberals of Saskatchewan four years ago, and that would come. The United States is conwould come. The United States is conmoderate that the universal products the seasoner. I can set at my own with the seasoner. I can set at a nominating convention two years ago another candidate was chosen in his place. Moreover, he worked against the place. Moreover, he worked against the Liberal Martin government in the re-Liberal Martin government in the re-educating the people of both countries to -Pittsburg Press.

the Borden resolution for an extension of the term of parliament was moved without the knowledge of many of the conscriptionist Liberals. The truth is that this amendment had been agreed to by every member of the Liberal party, and even Dr. Michael Clark, who voted against it, had previously endorsed the principle and wording of it. It is well the task of organising and controlling the food and industrial output of the country determined to avoid the pitfalls of wastage, which have caused such unnecessary depletion in the resources of its Allies during the food and industrial output of the country determined to avoid the pitfalls of wastage, which have caused such unnecessary depletion in the resources of its Allies during the food and industrial output of the country of his disgraceful conduct are dreadful. I wouldn't for the world have anyone know of his doings."

"You don't? Didn't you read that part of his letter where he says he was out with a British tank last night, and they rolled all over the place?" the Borden resolution for an extension the task of organising and controlling the It's mighty interesting." principle and wording of it. living together after the elections, and mobilizing the whole country for war. after the war, this is a very good time for the average citizens to keep his mind clear and his prejudices well in hand.

Last week's submarine toll was only fourteen British ships ever 1,600 tons.

This was the same as in the previous week, while in the week of July 4 the week, while in the week of July 4 the all cases of the above are directly or in-

THE STUMPAGE INCREASE

The Foster government has taken a bold step, and one that is justified by the situation, in the increase in stump-

this province ranges from \$8 to \$5, and it is therefore higher in many cases than the new government rate. The crown lands are the great revenue producing asset of the province, and the great increase in the price of lumber since the old rate was established justifies an increase in the stumpage rate. The new regulations also provide for a close distinction between what an operator cuts on crown land and on private land, and this will undoubtedv result in an increased revenue. The to strike again. provision that the saw shall be used instead of the axe is one in the interest of conservation, and merely makes gentheir own section of the western front. ful of the powder form and are much

The financial condition of the province when the new government came into by local applications, as they cannot that purpose was passed, affecting wild remedy. Catarrhal Deafness is caused lands, telephones and automobile licenses, but that was not sufficient, for the public services have been starved and the interest charges increased to such an extent in recent years that the financial situation became serious. The Foster government has faced that situ-stroyed forever. Many cases of deafation with courage, and the result of its ness are caused by catarrh, which is an action will be a greatly improved condition of the finances during its term of
office. For many years past the game

per sulphate solution and stir thoroughly, when it is ready for use. The concentrated lime mixture should not be mixed with the concentrated copper sulphate solution, as, if this is done, an inferior mixture will result. If the barrels are kept covered so that there is no evaporation, stock solutions of the concentrated materials may be kept in separate barrels theoretical the season. It is impossible the season. portant to have the quantities of lime and copper sulphate as recommended, but, in order to be sure that enough lime has been used and there is no danger of burning the foliage, let a drop of ferrocyanide of potassium solution (which can be obtained from a druggist) fall into the mixture when ready. If the latter turns reddish-brown, add more lime mixture until no change of color takes place.

U. S. TROOPS TAKE OVER FRENCH RAILWAY LINE

Paris, July 18—Official announcement is made that the U. S. transport service is taking control of the French railroad lines from the port bases to the permanent camp and the front. Tracks are being laid and sidings enlarged. The roads will be manned later by engineer regiments. American locomotives, mostly narrow gauge, will be utilized.

A section of the French state forests has been turned over to the United States. Lumbermen will take out lumber for railroad ties, barracks and other purposes. In addition to this 30,000 tons of lumber will be imported from America monthly.

"The Deemster," Hall Caine's great story, Gem, Saturday, Monday and Tuesday; nine reels, 3,500 people in

risk of paring.

Blue-jay plasters have ended millions of corns. This very night thousands of people will say goodbye to painful corns forever. Touchy corns are needless, even foolish.

Blue-jay brings instant relief. And in 48 hours the average corn is gone. Only a few stubborn ones require a second or third treatment.

A Blue-jay plaster, with its healing wax, is applied in a jiffy. No soreness, no inconvenience. The pain is not temporarily eased, as with paring. There is no danger, as with
