## Wiesel's Weekly

Vol. 1—Saturday, August 25—No. 61.

### School Days

The best days on earth—glorious, care-free, happy school days demand the best shoes on earth.

Two much care cannot be exercised in the selection of School Shoes for the Growing Boy or Girl!

At every stage of Foot develop-ment, it is absolutely essential that the Shoes conform to the lines of the foot and fit properly. This not only prevents foot trouble in later years, but saves the shoes as well!

There's no line of footwear we handle that receives as much careful and expert attention as our lines of School Shoes!

**TEST OUR GOOD SHOES**  
Boys' Shoes, \$1.95, \$2.25, \$2.65 to \$3.85  
Misses' and Children's, \$1.45, \$1.85, \$2.25 to \$3.65, according to size.

**WIESEL'S CASH STORE**  
243 - 247 Union St.

### LOCAL NEWS

Yesterday two prisoners in the Boys' Industrial Home, East St. John, escaped.

A very large number of people enjoyed an excellent programme given by the City Cornet Band last night in King square.

In the county court yesterday afternoon, A. V. Cowan gave evidence in the Eley case and court adjourned until Tuesday morning.

At Doten's mill-pond in Charlotte county yesterday afternoon, Arnold Miller of Tower Hill was drowned in a pool, where he was swimming. The fatality occurred on his sixteenth birthday. His younger brother saw him drown.

Lena Land, 16; Theora Baynton, 12, and Minnie Baynton, 17, of Middle street, went berry picking yesterday, and as night came on lost their way. They were yesterday in a barn off the Hickey road when a search party, accompanied by County Policeman Saunders, found them.

### The Wonderful Mission of the Internal Bath

By C. G. Percival, M. D.

Do you know that over five hundred thousand Americans and Canadians are at the present time seeking freedom from small, as well as serious ailments, by the practice of Internal Bathing?

Do you know that hosts of enlighten-ed physicians all over the country, as well as osteopaths, physical culturists, etc., etc., are recommending and recog-nizing this practice as the most likely way to secure and preserve per-fect health?

There are the best of logical reasons for this practice and these opinions, and these reasons will be very interesting to everyone.

In the first place, every physician re-izes and agrees that 95 per cent. of hu-man illness is caused directly or indirect-ly by accumulated waste in the colon; this is bound to accumulate, because we of today neither eat the kind of food nor take the amount of exercise which Nature demands in order that she may thoroughly eliminate the waste unaided.

That's the reason when you are ill the physician always gives you something to remove this accumulation of waste be-fore commencing to treat your specific trouble.

It's ten to one that no specific trouble would have developed if there were no accumulation of waste in the colon—

And that's the reason that the famous Professor Metchnikoff, one of the world's greatest scientists, has boldly and spec-ifically stated that if our colons were taken away in infancy, the length of our lives would be increased to probably 150 years. You see, this waste is ex-tremely poisonous, and as the blood flows through the walls of the colon, it absorbs the poisons and carries them through the circulation—that's what causes Auto-intoxication, with all its pernicious, enervating and weakening results. These pull down our powers of resistance and render us subject to al-most any serious complaint which may be prevalent at the time. And the worst feature of it is that there are few of us who know when we are Auto-intoxi-cated.

But you never can be Auto-intoxi-cated if you periodically use the prop-er kind of an Internal Bath—that is sure.

It is Nature's own relief and correc-tive—just warm water, which, used in the right way, cleanses the colon thor-oughly its entire length and makes and keeps it sweet, clean and pure, as Na-ture demands it shall be for the entire system to work properly.

The following enlightening news article is quoted from The New York Times:

"What may lead to a remarkable ad-vance in the operative treatment of cer-tain forms of tuberculosis is said to have been achieved at Guy's Hospital, London, the operation of the removal of the lower intestine has been applied to cases of tuberculosis, and the results are said to be in every way satisfactory.

"The principle of the treatment is the removal of the cause of the disease. Re-cent researches of Metchnikoff and others have led doctors to suppose that many conditions of chronic ill-health, such as nervous debility, rheumatism, and other disorders, are due to poison-ing set up by unhealthy conditions in the large intestine, and it has even been suggested that the lowering of the vital-

ity resulting from such poisoning is fav-orable to the development of cancer and tuberculosis.

"At the Guy's Hospital Sir William Arbuthnot Lane decided on the heroic plan of removing the diseased organ. A child who appeared in the final stage of what was believed to be an incurable form of tubercular joint disease, was operated on. The lower intestine, with the exception of nine inches, was re-moved, and the portion left was joined to the smaller intestine.

"The result was astonishing. In a week's time the internal organs resumed all their normal functions, and in a few weeks the patient was apparently in perfect health."

You undoubtedly know, from your own personal experience, how dull and unfit to work or think properly, bilious-ness and many other apparently simple troubles make you feel. And you proba-bly know, too, that these irregularities, all directly traceable to accumulated waste, make you really sick if permitted to continue.

You also probably know that the old-fashioned method of drugging for these complaints, is at best only partially ef-fective; the doses must be increased if continued, and finally they cease to be effective at all.

It is true that more drugs are proba-bly used for this and all other human ills combined, which simply gives prove how universal the trouble caused by accumulated waste really is—but there is not a doctor that drugs are being dropped as Internal Bathing is becoming better known.

For it is not possible to conceive until you have had the experience yourself, what a wonderful breeder an Internal Bath really is; taken at night, you awake in the morning with a feeling of lightness and buoyancy that cannot be described—you are absolutely clean, everything is working in perfect accord, your appetite is better, your brain is clearer, and you feel full of vim and confidence for the day's duties.

There is nothing new about Internal Baths except the way of administering them. Some years ago Dr. Chas. A. Tyrell, of New York, was so miracu-lously benefited by faithfully using the method then in vogue, that he made in-ternal Baths his special study, and im-proved materially in administering the Bath and in getting the result desired.

This perfected Bath he called the "J. B. L." Cascade, and it is the one which has so quickly popularized and recom-mended itself that hundreds of thou-sands are today using it.

Dr. Tyrell, in his practice and re-searches, discovered many unique and interesting facts in connection with this subject; these he has collected in a little book, "The What, the Why, the Way of Internal Bathing," which will be sent free on request if you address Chas. A. Tyrell, M. D., Room 963, College Street, Toronto, and mention having read this in The St. John Telegraph and Times.

This book tells us facts that we never knew about ourselves before, and there is no doubt that everyone who has an interest in his or her own physical well-being, or that of the family, will be very greatly interested and enlightened by reading this carefully prepared and scientifically correct little book.
