THE EVENING TIMES-STAR, SAINT JOHN, N. B., WEDNESDAY, APRIL 14, 1926

### N. B. CHECK FOR \$50,000 SENT TO SCHOOL BOARD

First Payment Received On Vocational School Building Account

DAYLIGHT TIME PLAN ADOPTED

Reports Submitted At Meeting of Saint John Trustees

A check for \$50,000 from the Province of New Brunswick has been received by the Saint John School Board as the first payment on account of the Vocational School Building, for which the Federal and Provincial grants, in equal amounts, will cover 25 per cent. of the erection cost and 50 per cent. of equipment costs.

The receipt of the \$50,000 was reported at the meeting of the School Board last night.

A. Gordon Leavitt, secretary, said he had placed the money in the bank to start a sinking fund. He suggested it be invested in Dominion of Canada registered stock.

**URGES TAKING N. B. BONDS**  
Mr. Nagle asked if it might not be better to have the money in New Brunswick bonds, a new issue of which will be made shortly.

The matter was referred to the finance committee.

**REPORTS SUBMITTED**  
Dr. L. M. Curran, chairman, presented. Others present were Mrs. E. R. Taylor, Mrs. D. P. Chisholm, T. H. Carter, W. C. Cross, H. Colby Smith, S. W. Palmer, Thomas Nagle, E. R. W. Ingraham, S. A. Worrell, superintendent of city schools and A. Gordon Leavitt, secretary.

Mr. Leavitt pointed out that it would not be possible to carry on without increasing the bank overdraft in May when coupon interest fell due.

**REFERS TO LATE MRS. DEVER**  
Mrs. E. R. Taylor said she had just heard of the death of a former trustee, Mrs. James Dever, and referred to her great beauty of mind and the great loss it had been to the Board and to the city when she left Saint John.

Resolutions of sympathy were extended to the bereaved relatives of Mrs. Dever and the late Michael Colby, another member of the Board.

A buildings committee report recommended that the members obtain first hand information regarding needed repairs to all the schools, that the carpenter have authority to hire help without the consent of the chairman of the committee and that the matter be taken up at the April meeting.

Mr. Carter expressed the opinion that the carpenter was an unscrupulous employee, and the matter of the carpenter was referred to the teachers' committee.

**APPLICATIONS FOR TEACHERS**  
Applications for positions on the teaching staff were placed on the application list and were as follows:

E. H. Wiley, East Saint John and the Misses M. C. Roxborough, Beach Bay, Grace Calder, Campbellton; G. M. Fillmore, Ludlow; Elsie Thompson, Sussex; K. G. Rodin, Long Beach; Audrey McKee, Port Maitland; N. S. Marion Marvin, Sackville; Florence Henry, Lunenburg; M. J. Kesteven, G. A. Coleman, G. L. Verinder, W. E. Doherty, Ella Whipple, Vickers McLaughlin and Frances J. Barry, of Saint John.

E. C. Goggin applied for a position as a manual training teacher and the Misses J. A. Morrison and L. H. Ellis applied for positions as teachers of household science.

**NEW SYSTEM FOR HIGH**  
J. V. Cunningham, city electrician submitted plans for installing a new electrical system in the High School, which he estimated would cost \$2,120.

The thanks of the Board were extended to Mr. Cunningham and his report was referred to the visitors to the school.

A letter from Dr. Mabel Hannington, medical inspector of schools, referring to opportunity classes, was passed to the committee for their consideration.

**STATISTICAL REPORT**  
The report of the secretary contained the following statistics: pupils belonging 8,730, of whom 4,216 were boys and 4,514 girls; pupils enrolled 8,730.

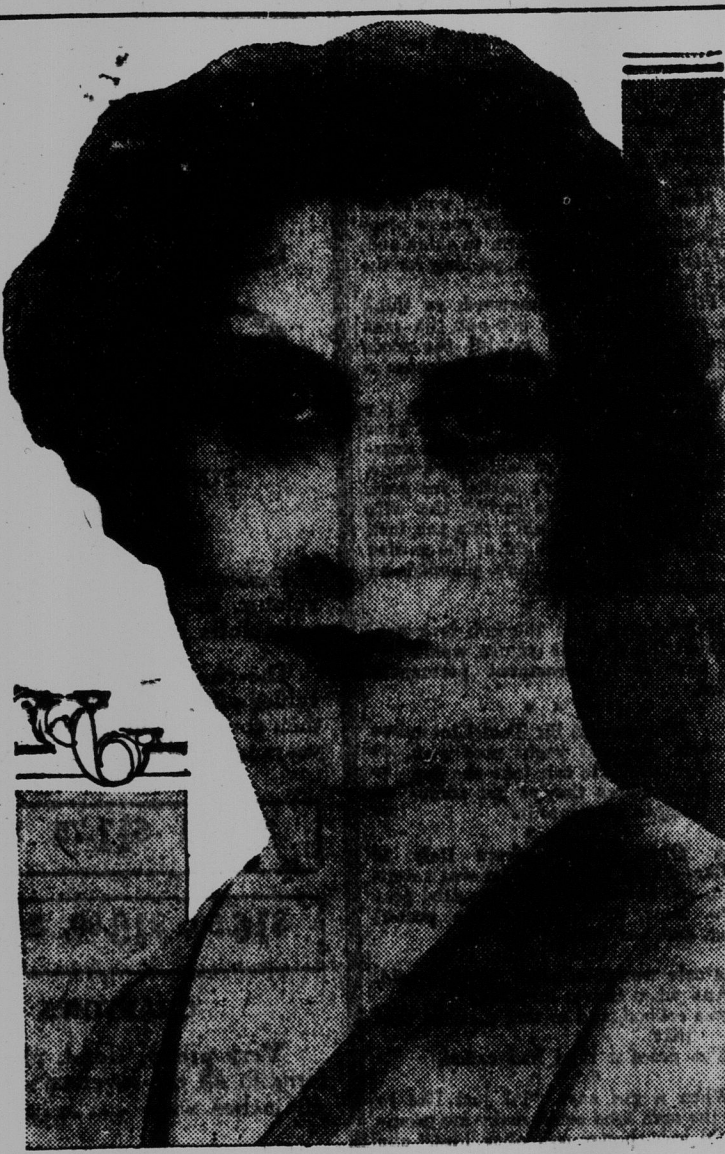

**Does Spring Find You In Poor Health?**  
Many people find themselves in comparatively poor health at this season of the year. They lack vim and energy; they become easily wearied and fatigued.

This condition is caused by the winter's heavy drain on the vitality, rendering the blood sluggish and the body cells inactive.

Many people were not rugged enough or did not have high enough raising power to meet the abnormal demand. What they need now is a pure food tonic such as Father John's Medicine which builds up and strengthens tissue and which enriches and nourishes the blood. Father John's Medicine increases the power of resistance so that weakened people gain in health rapidly. It nourishes the system and enables it to throw off disease germs and remnants of poisonous waste matter. Start taking it today.

### U. S. GIRL FINDS FAME IN PARIS

Enthusiastic reception given Mollie Stiles, American singer, in her debut at the Theatre Comique, Paris, as Mimi in "La Boheme," has won her a two year contract with the famed opera company, a rare honor for a foreigner.

ed, \$8,953; with \$9.09 of those belongings in attendance; teacher visits, 268; those not belonging but enrolled were as follows: died, two; sick, 48; at work, 57; left city, 24; transferred, 25; kept at home, 50; total 222.

During the month the Board of Health reported eight cases of measles, three of scarlet fever and one of chicken pox.

**TO ADOPT DAYLIGHT TIME**  
It was agreed the schools would follow the city in adopting Daylight Time.

Mr. Worrell paid a tribute to the late W. A. Nelson for many years principal of Winter street school. Mr. Nagle heartily concurred and on his motion a letter of condolence was sent to the bereaved relatives.

The G. W. A. wrote to point out that John Cummings, recently appointed caretaker of the Saint John Vocational School, was not a returned soldier.

The monthly expenditures sheet was submitted and there was some discussion of a \$1,400 item which was under the general term of expenses.

Mr. Leavitt said all the expenses not in separate accounts were placed under that head and he mentioned auditors charges, cartage charges, removal of ashes, office expenditures and other items, as being included under that heading.

**TRUANT REPORT**  
The March report of G. Herbert Green, truant officer, submitted at the meeting of the Board of School Trustees last night showed that during that month he had visited 126 homes and 16 schools, and been twice in court.

He found that 54 of the children were home on account of sickness, and 14 for lack of clothing, as well as 28 for other temporary necessity. There were six who were found to be over 14 years of age and 17 that were irregular in attendance. Of habitual truants there were four, and nine that were truants but not in the habitual class. Three were found who were not enrolled in any school and two had been sent home by the school nurse.

During the month Mr. Green sent an official notice to one parent with reference to the truant law.

**APPOINTMENTS**  
Appointments to the vocational school staff were considered by the vocational committee held yesterday afternoon with Dr. L. M. Curran, chairman, presiding. The appointments were as follows:

Mr. Leavitt said all the expenses not in separate accounts were placed under that head and he mentioned auditors charges, cartage charges, removal of ashes, office expenditures and other items, as being included under that heading.

A letter from Dr. Mabel Hannington, medical inspector of schools, referring to opportunity classes, was passed to the committee for their consideration.

**STATISTICAL REPORT**

### REV. E. JAGO TALKS ON THE BIBLE HERE

Returned Missionary From Palestine Is Former New Brunswicker

Rev. E. O. Jago, returned missionary from Palestine, who last night gave his first address in the Bible and missionary conference that will be held for one week in the Prince Edward street church, is a native of New Brunswick, but last night preached for the first time in his native province. He was born in Clifton, Gloucester county, and his father being the manager of a business concern in Boston the family removed to that city and Mr. Jago received most of his education there. From Boston he went to missionary work in Palestine 25 years ago. His years of service in that territory are longer than those of any other North American missionary in Palestine.

It is 50 years since Mr. Jago visited his birthplace and although he will be unable to find time in his present itinerary to go into Gloucester county and meet his home people he is planning to return to New Brunswick for that purpose in the summer time. His mother was one of the first graduates of the New Brunswick normal school and taught school in this province for some time.

**MAKES DEEP IMPRESSION.**  
Mr. Jago made a very deep impression on the minds of his hearers last night as he described conditions in Palestine in the old days under the

Turk. He had seen the New Turkey movement sweep the country and then the expulsion of the British and American people and had been there at the time of Allenby's campaign.

The population of Palestine, he said, was about 2,000,000 and of these 60 per cent. were Mohammedan; 12 per cent. were Jewish, and only eight per cent. were Christians. He told of the marvelous change in the life of the country since the British mandate had been established and the Jews were residing in Palestine their ideal of a national land.

There were more than 4,000,000 Jews waiting to be admitted to Palestine, he said, and about 1,000,000 had already made preparation but only about 60,000 could be admitted each year at the present time as the number admitted depended on the country's ability to assimilate greater population.

Mr. Jago contrasted the Jewish progressiveness in Palestine with the Arab complete lack of progress.

Rev. D. N. Cameron, Baptist preacher from Toronto, and L. Watson, assistant superintendent of the Christian and Missionary Alliance of Canada, are also in the city for the conference and addressed the special meetings yesterday.

**VETS' FAIR.**  
The G. W. V. A. fair last night had a much increased attendance, and all of its many attractions had brisk patronage. The games, the grocery basket and the blanket booth were special attractions and there was much interest in the store and wardrobe drawings. The door prize last night was a jardiniere, won by ticket 7,188, but had not been claimed at the close of the fair. The door prize tonight will be a set of aluminum cooking utensils.

**GAS IN STOMACH HURTS THE HEART**  
Thousands of Cases of Heart Failure are Caused by Acute Indigestion, Says Medical Writer

Gas pressure from sour acid, upset stomach is not only nauseating, and highly uncomfortable, but some day it may prove fatal.

When your meals are followed by bloating, a feeling of fullness or pressure, shortness of breath and pains around the stomach, you may be sure that the acid condition of your stomach is causing a gas that is pushing up towards and crowding your heart. That is a dangerous condition.

Whether young or old, the presence of stomach gas is truly serious and should always be given prompt and careful attention.

To quickly banish gas, cleanse and sweeten the stomach, neutralize the acidity—nothing is better than the daily or "as needed" use of ordinary Bismarck Magnesia. It gives almost instant relief.

Any good druggist can supply Bismarck Magnesia in powder or tablet form, at very small cost—but be sure you get BISMARCK Magnesia—recommended by doctors and druggists throughout the civilized world for more than 12 years.

### Analysis Club Is Addressed By Visitor

The Saint John Character Analysis Club met at the home of J. King Kelley last evening and was delighted to have as its guest Charles B. Roberts, a graduate of Oxford University. Mr. Roberts gave a very clever talk on "Psycho-analysis From a Psychological Standpoint" which was greatly appreciated by the many members who gathered to hear the distinguished speaker.

Miss Iris Morse gave a very interesting address with reference to the work. Mrs. F. B. Sprague, the president read a poem, of her own composition which merited a great deal of praise.

At the close of the evening delicious refreshments were served by Mrs. Kelley.

The Norwegian America liner Bergenfjord sailed from Bergen on Saturday for Halifax and New York with passengers and general cargo.
