

BELIEVES IN SOVIET GOVERNMENT FORM

Visitor to St. John Carrying on Farm Work in Russia

Eight months' sojourn in Russia and Siberia has made Harry Fillmore fully convinced that he will throw in his lot with the people of these lands. He believes thoroughly in the Soviet form of government, he says. It is a place of experiment and he is assisting in these experiments as an agriculturist in Kemerovo, where the short summer is tropical, and the long winter is Arctic.

Through a friend in New York, Mr. Fillmore, whose former home was in Hillsboro, Albert county, accepted an offer from the Russian Government to take up the directorship of an experimental farm last spring in Siberia.

He is so enamored with the life and the opportunities for the worker, that he will take his wife and family with him when he returns in the spring. He will also take some apple trees from the north-western provinces, that are being secured by him, through Dr. Macoun, at Ottawa as the fruit experiment is among many others being tried out in his adopted country.

He left Siberia in October and journeyed through Latvia, Lithuania and Germany and spent a week in England where he said, "I read and re-read every paper I could get, for that is one thing denied me in the new home. Papers come, of course, but they are weeks old before they reach us. Letters are quite different and arrive from here in less than a month."

The whole trend of life in Russia is to get away from the unfairness of the blankets for peopies, parties, at the rich against privation, lack of employment and destitution among the poor, he says. That if this condition existed in any country for long, with the spirit of the working people aroused, there must be a revolution, was the import of many things stated by Mr. Fillmore.

"It is the only country in the world that grants to the working woman who is about to become a mother, the privilege to rest for two months before the birth of her child and for two months after with full pay," he said. This made for healthy people, and would be the great strength of the nation in the future, which loomed far and bright to those who had faith in Russia, said Mr. Fillmore.

X-Ray Discoveries Claimed

University life was possible to all. Students were sent from communities to learn engineering, chemistry, and many useful arts, that their communities needed workers for. The Montessori method of teaching was being tried out. Mr. Fillmore could not say, as yet, whether it would be successful.

Research and study in medicine have been going on in Russia to an extent that would astonish the world when her attainments in these matters were discovered.

On the steamer Montreal, on which Mr. Fillmore arrived here on Saturday, was a Russian professor, Nicolai Yastouk, who is now in Montreal, where he will lecture to the McGill students, or rather the doctors, through an interpreter, on some wonderful discoveries he has made in relation to X-ray experiments.

Mr. Fillmore said that Russia was progressing rapidly in the matter of medical research, as the Government was determined to stamp out disease of every form by prevention.

There was a widespread thirst for education and one might see old bearded men at the free schools, so long denied them, trying to learn to read even so little, he said. In education, more than in any other line, were experiments being made, for people were of more value than cotton, according to the Soviet or Communist. The great problem of Russia today was to feed her people and clothe them, until a thorough reconstruction brought about a normal market with the world. As it was, said Mr. Fillmore, 8,000,000 tons of grain, mostly rye and wheat, were exported from Russian markets this year.

Ability, desire and determination to work were the only test for voting, he said. Any man or woman, over eighteen, who was doing labor that was productive had voting power. Anyone who was not doing this, no matter how much wealth he or she might have had no such right. Many of the officials who were in power before the overturn, who promised to be submissive to the new rule and not to exploit the working men, were still in office and holding the respect of the new Government.

There were no scattered homes in Russia, said Mr. Fillmore. Communities were formed and the people went out to their land to work it. The social life was possible at all times through this method of settlement.

Stubborn Coughs Stop Quick With Home Made Cough Mixture

Not until you make your own cough mixture—a half pint of it for a small sun—will you know how easy it is to stop any bad persistent cough as if by magic.

It's pleasant-tasting, but that doesn't stop it from knocking out a cough quicker than anything else in the world. Children love it.

Get from any druggist one ounce of Parment (double strength)—a little granulated sugar and enough water to make one-half pint—that's all there is to it.

This loosens the phlegm, stops the irritation, allays the inflammation, cleans out clogged nostrils, makes breathing easier, and causes sore throat and hoarseness to disappear.

With speed almost beyond belief this some-made cough mixture stops the toughest hang-over cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately covers the membrane like a soothing healing poultice and blessed relief comes at once.

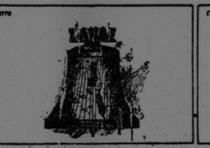

And it is always worth while to bear in mind that any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and ear-ache deafness.

Get Parment and get better.

Patriotic Appeal of "General" Lee is Example of Oil Faking

The first Lees came to Virginia when Indians watched fearfully at the sails that dotted the eastern horizon.

Two Lees signed the Declaration of Independence, and helped make possible the peal of the Liberty Bell.

Valorous in war, exploits of Lee in the Revolution, 1812, and later wars, brighten the pages of history.

Into the far places in quest of fortune—was a sure for pioneers. Gen. Robert A. Lee was among the first in the Klondyke.

By Roy J. Gibbons, Nea Service Writer.

Fort Worth, Tex.—The crooked oil stock promoter went to an extreme to bait his "traders."

As an outstanding example of just how these methods grew bolder from imagined long immunity, take the case of the so-called "General" Robert A. Lee.

Primarily, Lee, although titular head of the company bearing his name, was duped himself, taken in by a few suave promoters, who paid him \$50,000 a month for use of his pretended relationship to the famous Confederate leader.

With dress and appearance similar to what one might expect in a Confederate veteran, Lee forgot that the high price to which he had risen in life was a janitor in Boise, Idaho, and plunged willingly into the frenzied financial whirlpool.

Made "Geologist" An avalanche of high-pressure, faked advertising brought him before the public as an eminent geologist who had been keeping secret a great find of oil, and now wanted to let the "dear public" in on it.

Calling himself a nephew of the real General Robert A. Lee, this counterfeit relation, in a pamphlet captioned "The Honor of the Lees," said in substance that his promotional idea "was the supreme achievement of a lifetime."

From janitor to geologist, and then to kinship with a figure in history was a mere trifle for this character, whom we find later on as saying in his bait to trusting and patriotic southerners as well as folks everywhere in the country:

Town councils were formed and from these provincial councils, these in turn elected for the all-Russian Parliament at Moscow. In this city all religions were tolerated, where only a short time ago, under autocratic rule, everyone who did not fall in with the national church, was persecuted, he said.

The Salvation Army was doing splendid work in Russia and so were many other Christian bodies.

"Traveling in Europe is a terrible bugbear," said Mr. Fillmore. "When I came to Latvia, I had to have my head shaved and go through a cleaning process that would appal many people. After that I was never asked for my examination of passports and apparent suspicion of travelers from one European country to another."

WAS CARRIED FOR MILES WITH A BULLET IN FOOT

William Warsh, aged 16, son of Samuel Warsh, 207 Sydney street, was operated on in the General Public Hospital yesterday morning, when a bullet removed from his foot, and last night the young fellow was reported to be doing nicely.

Young Warsh, accompanied by two companions, left the city on Saturday for a camp about six miles back of Martinton, presumably to shoot rabbits. On Sunday morning, while about the camp, it is understood that Warsh had been having some target practice with a revolver, when the gun was accidentally discharged and the bullet entered the foot. His companions bathed the wound with water, and after placing a bandage on the foot, carried their wounded companion for a few miles to the highway. They hailed a passing automobile, but the driver would not stop. Some time later they managed to obtain a car to drive them to the city, arriving on Sunday night.

The first intimation that the family had of the boy being injured was when he climbed up the stairs to his home from school and loss of blood. Dr. D. C. Malcolin was summoned yesterday morning, dressed the wound and ordered the boy's removal to the hospital. It will be several days before he will be able to get about and return to his work.

A HALT IN ROBERTS' LIBEL PROCEEDINGS

Montreal, Dec. 10.—After lengthy argument by counsel for the defence and the prosecution in the case of John H. Roberts, publisher of a local weekly, who is charged with criminal libel by the stock broking firm of Logan & Bryan judgment was reserved on a motion of the prosecution to reject the accused's plea of "not guilty" on the grounds of justification. The case was then adjourned and Chief Justice Martin remarked that he did not think it possible it would come up again before next February.

The public domain amounts to 182,000,000 acres, the great bulk of which, not yet allocated, lies in the states of California, Utah and Nevada. Some of it has so little value it has not been surveyed.

"General" Robert A. Lee (left), who used the name of famous Lees as a bait to draw money for fraudulent oil concerns. Above are extracts from one of the ads used by those employing Lee for use of his name.

When business had been completed the lights were turned off preliminary to the majestic entry of a large three-decker birthday cake with lighted candles. Mr. Parsons, on behalf of the company, presented Mr. Robbins three volumes, Pappin's Life of Christ and Bliss Carman's new poems, and Deacon Ring, a copy of Tarball's Teachers' Guide. Mrs. Robbins was given a handsome bouquet of carnations and chrysanthemums. Mr. Parsons spoke in glowing terms of the members' appreciation of the splendid work of Mr. Robbins and the pastor replied feelingly. Deacon Ring also made a pleasing speech of acknowledgment.

Refreshments were served by the following committee: Mrs. William Grey, Mrs. Fannie E. Robbrough, Mrs. Amos K. Horton, Mrs. G. Jones and Mrs. J. E. Rupert. The excellent birthday cake was made by Miss Dorothy Rupert.

Mrs. George Price, one of the oldest members of the congregation, gave a short address and Mr. Robbins' father gave two readings. Several musical numbers were also enjoyed and R. J. Rupert was the accompanist.

The evening was a pleasant occasion that will be long remembered.

PREPARING FOR 2 GENERAL ELECTIONS

Saskatoon, Dec. 1.—The eyes of political Canada will be focussed on Saskatoon tomorrow, when the Provincial Conservative convention, expected to be the largest party rally staged in the west since 1915, is held here, with Conservative leaders in attendance and delegates from all corners of Saskatchewan. The Conservative machine will be oiled up for anticipated federal and provincial elections, a platform will be adopted, and a Saskatchewan leader will be named.

While there are many ways in which it is desirable to increase our work, St. John Centre has a right to feel proud of its record during the past year. We have taken part in every possible advance and service and have made a good record for the centre and for the province of which we form a part. It is also worthy of note that this has been accomplished without any financial appeal whatever.

The recent donation of a silver cup by Wm. S. Allison, to be competed for by junior teams in St. John, cannot be too much appreciated, and will no doubt lead to even keener rivalry between the entering teams.

It has been shown in past examinations for the provincial junior trophy. This mark of interest is also very encouraging to all who have given time and thought to the association's work.

The report of Miss Irene Barber, the secretary was as follows: The Centre has this year been an interesting and progressive one in many ways, the chief mark of our progress being the high standing of the St. John Police Team in the Lord Shaughnessy's Police Competition, in which second place was secured for the Easter Shield. The interest displayed by the members of the force at the First Aid examinations has been encouraging and in the assistance given by Mr. Thornton and by the Chief of Police we are remarkably fortunate. Col. Hodgett's visit and examinations have been an inspiration to the centre and to all those who have taken part in the team work. Our other teams, namely W. H. Thorne's and Miss Allecia Heales' ladies' team, have made a good mark for us in their respective competitions.

The classes held have been well attended and a marked increase noticed in the number of those who came for examination from each class. The following classes were held: Police (instructed by Dr. Lunney; ladies, Dr. Davidson; N. B. Telephone Co., Dr. Corbett; St. David's church, Dr. Corbett; St. Paul's church, Miss Barber; police and V. A. D. re-examinations and a cadet corps are now in progress. Undoubtedly a secretary who would be free to give her whole time and attention to advertising and forming classes would be able to accomplish much more for the centre than is possible under existing arrangements. The doctors of St. John have been very generous on responding to the many calls made upon their time and services for instructing and examining our classes and for coaching teams. The privilege of using the Red Cross and Health Centre rooms has been much appreciated, also the loan of the G. W.

V. A. hall for the presentation of the police medals in March. The Association booth and first aid centre at the St. John 1923 exhibition was especially creditable to the association, both in appearance and as a service to the public. Mrs. J. Boyle Travers was again convener. We were grateful for the loan of furnishings and decorations to the general council at Ottawa. The Exhibition Association, Red Cross, Department of National Defence and to Manchester Robertson, Allison, Ltd. Mrs. W. S. Allison kindly sent flowers through the week. Miss Purdy and Miss Daniel were again efficient and willing helpers, for whom we are grateful to the V. A. D. The Boy Scouts took charge of the tent erected in the grounds and the St. John Police team, who have been a record book in which each class member's record is being kept.

While there are many ways in which it is desirable to increase our work, St. John Centre has a right to feel proud of its record during the past year. We have taken part in every possible advance and service and have made a good record for the centre and for the province of which we form a part. It is also worthy of note that this has been accomplished without any financial appeal whatever.

The recent donation of a silver cup by Wm. S. Allison, to be competed for by junior teams in St. John, cannot be too much appreciated, and will no doubt lead to even keener rivalry between the entering teams.

It has been shown in past examinations for the provincial junior trophy. This mark of interest is also very encouraging to all who have given time and thought to the association's work.

HALIFAX WARMEST PLACE IN CANADA

Halifax, Dec. 10.—Halifax was the warmest place in the Dominion of Canada yesterday, according to the list of temperatures furnished by the Dominion Meteorological Bureau. Vancouver attained a temperature six degrees higher during the day, but its minimum was eighteen degrees lower, giving it a mean temperature to more than that in this city.

GIVE SURPRISE TO THEIR PASTOR

Ludlow Street Workers Also Honor Two Others at Gathering.

The officers and teachers of the Ludlow street Baptist Sunday school and the members of the adult classes last night tendered a surprise party to Rev. W. A. Robbins, the pastor, as a celebration of his birthday, which came on the previous Saturday. As Deacon John F. Ring was observing his 76th birthday yesterday and Mrs. Robbins' birthday had come a few days before, the members were extensively gathered for a teachers' meeting. R. H. Parsons, superintendent of the Sunday school, presided at the teachers' meeting, during which details of the annual Sunday school treat and the white gift service were arranged, and some of the work of the Sunday school was reviewed.

When business had been completed the lights were turned off preliminary to the majestic entry of a large three-decker birthday cake with lighted candles. Mr. Parsons, on behalf of the company, presented Mr. Robbins three volumes, Pappin's Life of Christ and Bliss Carman's new poems, and Deacon Ring, a copy of Tarball's Teachers' Guide. Mrs. Robbins was given a handsome bouquet of carnations and chrysanthemums. Mr. Parsons spoke in glowing terms of the members' appreciation of the splendid work of Mr. Robbins and the pastor replied feelingly. Deacon Ring also made a pleasing speech of acknowledgment.

GOES TO A PRISON TO CURE HIMSELF

Montreal, Dec. 10.—Wounded seven times in the war, during which he suffered the loss of a leg, and he said, contracted the drug habit through medical treatment, Joseph Clermont, a traveling salesman, begged Magistrate DeCaire to send him to jail. The court consented, and Clermont was given a year, the judge saying that if at any time medical inspection showed that he was cured of the drug habit, the sentence might be commuted.

Clermont declared that if he were not sent to jail he would never be cured of the habit, and thanked the court when the sentence was imposed.

Experiments are being made in raising flax from European seed in Egypt, where the Egyptian flax has been largely replaced by cotton cultivation in the last 100 years.

Your Health is at Stake if You Suffer from Constipation!

Every man, woman and child who has constipation or constipation symptoms should leave no stone unturned to get instant relief! Keep away from the dangers of pills and cathartics, which are almost as much to be dreaded as constipation itself. Your physician will recommend Kellogg's Bran because it is ALL BRAN—and it is Kellogg's Bran that will give permanent relief if eaten regularly.

Most cases of Bright's and diabetes can be traced to constipation; in its milder form constipation is responsible for sick headache, nausea, pimples, sour breath, etc. And, we say right here—and guarantee what we say—that Kellogg's Bran, if eaten regularly, will give you permanent relief.

Kellogg's Bran is wonderful as a food as well as wonderful as a natural means of relieving constipation. Kellogg's Bran contains important mineral salts; it contains elements that are necessary in making bone, tissue and blood—yet, it acts as a sweeper, cleanser and purifier.

Eat Kellogg's Bran as a cereal. You'll enjoy its nut-like flavor. Or, sprinkle it on or mix it with hot or cold cereals. Many like it cooked with hot cereals. Two tablespoonsful of bran should be added in each instance. You have missed much not to have eaten Kellogg's Bran made into muffins, raisin bread or many other bakery batches. Recipes on every package. Prominent hotels, restaurants and clubs serve Kellogg's Bran in individual packages. All grocers sell Kellogg's Bran.

The Choice of the Champions

Nearly all the hockey players of such crack teams as these use C.C.M. Automobile Skates:—

Edmonton "Eskimos," Western Pro. Champions. Stratford, O.H.A. Intermediate Champs. Kitchener, O.H.A. Junior Champions. Winnipeg "Falcons," Manitoba Senior Champions. Souris, Manitoba Intermediate Champs. "Sons of Ireland," Quebec Province Champions. "Abegweit," Champions of Maritime Provinces.

All the Alberta Amateur Champion Teams, senior, intermediate and junior, use C.C.M. Automobile Skates. Ottawa "Senators," World's Professional Champions, won on C.C.M.-made Skates. Many of the best hockey players in the United States also use C.C.M. Automobile Hockey Tubes or Model "D".

Such racing stars as Miss Gladys Robinson, the International Women's Speed Skating Champion; Charlie Gorman, the holder of the 440-yard world's record, and Jackie Marr, the Boy Wonder, use C.C.M. Skates.

C.C.M. Skates are The Choice of the Champions because of their speedy qualities and their wonderful strength. For the same reasons, they should be your choice, too.

Whether for Hockey playing, for Racing, for Figure Skating or for Pleasure Skating, there are C.C.M. models to meet the most exacting requirements.

The Chrome Nickel Steel blades of C.C.M. Automobile Skates are practically unbreakable. Inside their hard, brilliantly finished exterior is a "core" of tough steel that makes C.C.M. Skates capable of withstanding very severe shocks and strains without snapping or bending.

Ask your dealer to show you the C.C.M. line—models for men, ladies, boys and girls.

Let this be your guide to your selection of Elgin Watches for Christmas Gifts

HERE, in convenient form for ready reference and selection, are illustrated the Elgin Watches now at your command at your jeweller's.

For Men, for Women. For the pocket, for the wrist. Case in Gold, Gold-filled, and Silver (some in Platinum). Plain and engraved. A range of prices that gives a choice suitable to nearly any contemplated expenditure.

Professional timepieces, every one—Christmas gifts for a lifetime.

The "Classic" Elgin, case in 14-Karat Gold or White Gold, engraved. \$175.00.

The "Strawberry" Elgin, case in Gold or Gold-filled, plain or engraved. \$55.00 to \$110.00.

The "Coronet" Elgin, case in 14-Karat Green Gold or White Gold, engraved. \$200.

The "Presentation" Elgin—extremely fine, hand-made engraved case of either 14-Karat or 18-Karat Gold or Platinum. \$325.00 up.

Elgin Railroad Watches—adjusted to 5 positions. Your jeweller will give you a choice of 23, 21 and 19 jewel models, at corresponding prices.

Elgin Strap Watches for Men and Women, case in Gold, Gold-filled, or Silver, may be had from your jeweller at a wide range of prices.

Elgin Wrist Watches for Women, case in White, Green or Yellow Gold or Gold-filled, may be had from your jeweller at a wide range of prices.

Elgin Railroad Watches—adjusted to 5 positions. Your jeweller will give you a choice of 23, 21 and 19 jewel models, at corresponding prices.

Elgin Strap Watches for Men and Women, case in Gold, Gold-filled, or Silver, may be had from your jeweller at a wide range of prices.

Elgin Wrist Watches for Women, case in White, Green or Yellow Gold or Gold-filled, may be had from your jeweller at a wide range of prices.
