

U. S. FARMERS FEAR RECIPROcity SAY THEY WILL RECEIVE LESS FOR PRODUCTS

Taft Will Not Change Attitude Even at Cost of Votes of Farmers

Washington, D. C., May 8.—President Taft indulged in some talk yesterday in explaining to 25 members of the National Association of Manufacturers...

Mr. Hull, master of the Michigan group, spoke for the farmers, and strongly urged that the farmer does not like reciprocity...

Mr. Taft said, "I have no disposition to interfere with the progress of our country's farmers..."

Mr. Taft said, "I have no disposition to interfere with the progress of our country's farmers..."

GERMANY SEEKS TRADE AGREEMENT

Report That Negotiations With Dominion Will Be Opened Shortly

London, May 9.—The Daily Mail's Berlin correspondent wires that the Berlin journals publish identical communications assailing the Mail for publishing a recent statement that Germany has stretched out certain "feelers" in the direction of a tariff agreement with Canada...

"The time for initiating reciprocity negotiations with Canada could not possibly be more inopportune. It is true that when the last tariff arrangement with the Dominion was effected, in February, 1910, it was planned to renew negotiations at no distant date...

As the Mail has circulated these reports, and those from Ottawa emanate from English sources, it is plain that their only object is to interfere with and disturb the development of German-Canadian relations...

The Standard's Berlin correspondent writes that an understanding has been arrived at between Canada and Germany that negotiations for reciprocal commercial treaties shall take place after Canada's commercial relations with the United States have been regulated by the treaty now in sight...

Seattle, Wash., May 9.—On the opinion of attending physicians hangs the fate of Joseph P. Groh, the Austrian building contractor of Victoria, B. C., who shot Attorney W. S. Mitchell through the legs on Spring street...

CUNNINGHAM COAL CLAIMS IN ALASKA

Attorney for Claimants Appears Before Board at Washington

Washington, D. C., May 8.—Argument designed to prove that letters patent for the coal lands in Alaska were issued to the holders of the so-called Cunningham Alaskan coal land claims, which were the cause of the Ballinger-Pinchot investigation, yesterday began before the board which has final jurisdiction...

Speaking of the claimants, E. C. Hughes, Seattle, the only attorney heard, attempted to prove that there had been no thought of combination among the entrants prior to the time their rights to the claims had been acknowledged by the government's acceptance of the purchase price for the lands...

Clarence Cunningham, who discovered the coal lands and finally succeeded in getting thirty-two others to allow him to locate claims for them, was present...

Mr. Hughes, defending the efforts of the claimants to combine after their claims had been allowed, said it was understood by congress when it passed the Alaskan coal land law that the acreage was impracticable, if not impossible, and that individuals had the right to unite in the operation of their claims...

FIND RELICS OF THE JEBUSITE CITY

Evidences in Prehistoric Pottery Dating Three Thousand Years B. C.

London, May 9.—Captain Montague Parker, who headed a party of British explorers in Jerusalem who have been accused with despoiling the Mosque of Omar and carrying away sacred relics hidden in the Romanesque tower to England and gives the Times an account of the excavation...

He says: "Unfortunately, although the work from a scientific point of view was of extraordinary interest, we were unable to discover any Hebrew writing. But we found definitely the spot where the locality of David and the Jebusite city, which preceded it, had existed. The latter undoubtedly, from the pottery we discovered, was in existence 3,000 years before David captured the city..."

Capt. Parker adds: "I cannot say anything about the rumors in connection with the Mosque of Omar until the Turkish committee on inquiry has presented its reports..."

As the Mail has circulated these reports, and those from Ottawa emanate from English sources, it is plain that their only object is to interfere with and disturb the development of German-Canadian relations...

OPERATIONS AT TRAIL SMELTER

Receipts of Ore for Nine Months Total 308,836 Tons—Output of Mines

Nelson, May 8.—According to figures for February and March for the Trail smelter, the total tonnage of ore received at the smelter during the two months was 67,300, the ore smelted in that period amounted to 66,500 tons, and the gross output of metals amounted to \$891,000...

If the next three months average about the same, the smelter will terminate the current fiscal year with a total tonnage considerably less than last year's remarkable bumper tonnage...

The ore smelted in the fiscal year ending June 30, 1910, amounted to 347,417 tons, and at the present rate the quarter now entered upon should leave that figure far behind...

Clarence Cunningham, who discovered the coal lands and finally succeeded in getting thirty-two others to allow him to locate claims for them, was present...

Mr. Hughes, defending the efforts of the claimants to combine after their claims had been allowed, said it was understood by congress when it passed the Alaskan coal land law that the acreage was impracticable, if not impossible, and that individuals had the right to unite in the operation of their claims...

ASKING CITIZENS TO VOTE BIG SUMS

MAY 22 IS DAY FIXED FOR VOTERS TO ACT

From a monetary point of view the meeting of the city council on Monday was of paramount importance, as a number of money-by-laws, involving hundreds of thousands of dollars, were put through their preliminary stages, and will become law after the 22nd inst, unless the ratepayers see fit to "knock" any of the propositions...

The sewer loan by-law, to raise \$300,000 for the extension of sewers. The parks loan by-law, to raise \$210,000 for the purchase of park sites. The school loan by-law, to raise \$150,682 for extraordinary expenditure purposes...

The police and jail headquarters by-law, to raise \$300,000 for rearranging the market building for that purpose. The public library by-law, to provide for the annual amount available for public library maintenance being increased from the maximum of \$5,000 to a maximum of \$25,000...

As already reported in the columns of the Times the sewer loan by-law will provide for a main trunk sewer running easterly to a point near Todd land, it will drain the northeastern section of the city, and also provide the necessary extensions in the Gorge district, James Bay, and other areas...

In connection with the scheme it was explained to the council by the city solicitor last night that the general revenue will have to be called upon, as the income from the sewer rates is not sufficient to meet the annual demand for interest and sinking fund. As the system expands, however, the rentals will increase until they become sufficient for the purpose...

The parks loan by-law, if passed by the ratepayers will provide for the purchase of sites near the following localities: Oswego street, Richardson street, Richmond street, Belmont avenue, Edmonton road, Oaklands, Smith's Hill reservoir, Burnside road, Skinner's flat and Peak Bay beach. The school loan by-law calls for the expenditure of \$88,000 for site and building in James Bay; \$25,000 for site and building on the Burnside road; \$20,000 for site and building in the Oaklands section; \$3,500 for additional lots to increase the present Bank Street school grounds; \$7,000 for manual training and domestic science buildings at the George Jay and Victoria West schools...

The police headquarters by-law, as reported in the Times Monday, provides for the rearranging of the market building for the purpose of police and jail headquarters. It is the intention of the promoters of the scheme to provide the west end of the building for this purpose. The east end is occupied by the fire department. In connection with this scheme it was suggested that the Consolidated Mining & Smelting Company of Canada has reduced a very large aggregate of ore...

The February and March figures complete the record for nine months of the current fiscal year of the Consolidated Company, and make it possible to estimate the probable gross production for the year. During the nine months the total smelter receipts at Trail were 308,836 tons, the ore smelted amounted to 294,650, and the gross output was \$3,334,000. Of this gross output 55.44 per cent of the values was in gold...

If the next three months average about the same, the smelter will terminate the current fiscal year with a total tonnage considerably less than last year's remarkable bumper tonnage, and considerably ahead of the tonnage—at that time a record—of the year previous. The ore smelted in the fiscal year ending June 30, 1910, amounted to 347,417 tons, and at the present rate the quarter now entered upon should leave that figure far behind...

The market building will be the scene of the voting on the by-laws, and W. W. Northcott will be the returning officer, as usual.

STEAMER CAPTAIN SHOT BY PASSENGER

Wounded Man May Not Recover—Assailant is in Jail

San Francisco, Cal., May 9.—H. W. Bush was placed in jail here today charged with intent to commit murder in connection with the shooting of Captain Goodell of the river steamer Capt. City, while that vessel was on its way to Sacramento last night. After the boat left San Francisco Captain Goodell was informed that Bush was insulting women passengers. When he ordered him to desist the man drew a revolver and fired five shots, one striking the captain in the chest and two penetrating his left leg. He probably is fatally wounded...

San Francisco, Cal., May 9.—H. W. Bush was placed in jail here today charged with intent to commit murder in connection with the shooting of Captain Goodell of the river steamer Capt. City, while that vessel was on its way to Sacramento last night. After the boat left San Francisco Captain Goodell was informed that Bush was insulting women passengers. When he ordered him to desist the man drew a revolver and fired five shots, one striking the captain in the chest and two penetrating his left leg. He probably is fatally wounded...

SAW HILL'S TWINS AND PASSED CHEQUE

Cort Starkman Had Financial Dealings While Drunk and Goes to Jail

Frankly admitting that he had too much liquor that he had been taken to a hospital while suffering from the advanced effects of drink, Cort Starkman, in the police court dock this morning, said all his trouble over having passed a cheque for \$10 to J. D. Hill, of the Hall saloon, Fort street, was caused by a round of visits to the Klondyke, Bodega and Hall saloons in company with others, and that the reason the party finally reached the Hall saloon, where the cheque was passed, was because a friend in the party suggested they should all go up to the Hall saloon to see J. D. Hill's wife...

Eight or nine rounds of drinks at a dollar a round were consumed there in toasting the healths of the twins, and finally, said accused, he found himself in St. Joseph's hospital awaiting an operation for appendicitis, with Detective Harry O'Leary sitting by his bedside...

G. M. Lindsay said he was business manager of The Week, and that the accused had worked for it two months before he received his wages on the Saturday, and on the Monday the events narrated occurred. A detective (sotto voce)—stood it for two months...

The witness gave evidence of the accused's character during the time he had been employed by The Week. The accused, who was defended by J. P. Walls, said he had drawn on the Merchants' bank on his father in Germany for \$200. He had done this before and the money had always arrived in due course. A friend had come to the hospital while he was preparing to go on the operating table and told him he had got into some trouble. That was the first he knew of it...

He postponed the operation while he learned from Detective O'Leary all about it, and then went to bed again. The following day he felt he ought to get down town and see the detectives, and was just about to leave the hospital when Detective O'Leary called in to see how his health was. Learning that the accused was then about to visit the police station, the detective suggested they go down together. When they arrived the visit to the station became considerably lengthened, and Magistrate Jay, having seen all the facts, has decided that Starkman shall extend his temporary visit with the authorities by two months...

NEW SCHOOLS AT NEW WESTMINSTER

Three Will Be Erected—The Method of Civic Officials Criticized by Trustees

New Westminster, May 8.—The board of school trustees held a lengthy session when the matter chiefly under discussion was the erection of three new schools, one on Lulu Island, one at Sapperton and a third on a site to be determined. It was decided to call for plans from local architects only for building a small two room school at Sapperton, and a maximum price of \$200, but the other two erections will be thrown open to competitive designs and prices from all comers...

In connection with this matter the question was raised as to whether the board should have received some official intimation from the returning officer as to the result of the voting on the by-laws, or some official intimation from the city council that they were now at liberty to proceed with the expenditure of the money voted on the passed by-law. It was decided to write the city council asking for such authority in writing. As a side issue, it transpired that the board had never been notified officially of the passing of its ordinary estimates, Trustees Stoney remarking that the members were interested in carrying out its pledges to Canada to enforce the recommendations of the commission. This view of the action of Dr. Jordan, whose resignation was handed to President Taft quite recently, accompanied by the declaration that it would become effective on May 1, is held by those who are familiar with the ardent hope of the United States commissioner that the conservation of fisheries in boundary waters would follow the adoption and enforcement of the findings of the commission. As matters stand at present Vancouver fishing interests do not believe Washington will live up to its agreement with Ottawa...

The opinion is expressed in Vancouver that political expediency, as well as the question of state rights in the matter of fisheries, a point pressed strongly by the salmon canners of the state of Washington, has influenced the authorities in carrying out its pledges to Canada to enforce the recommendations of the commission. This view of the action of Dr. Jordan, whose resignation was handed to President Taft quite recently, accompanied by the declaration that it would become effective on May 1, is held by those who are familiar with the ardent hope of the United States commissioner that the conservation of fisheries in boundary waters would follow the adoption and enforcement of the findings of the commission. As matters stand at present Vancouver fishing interests do not believe Washington will live up to its agreement with Ottawa...

W. S. MORDEN ACQUITTED. (Special to the Times.) Toronto, May 9.—J. J. Warren and W. S. Morden appeared in court this morning to answer to the charge of receiving Farmers' Bank notes in pledge. The result of the trial of both men was the acquittal of Morden and his discharge, and the reserving of judgment by the judge in the case of Warren. On the evidence alone Mr. Morden was found not guilty.

WHEAT PRICES. (Special to the Times.) Winnipeg, May 9.—Rain throughout the West was the cause of Winnipeg wheat closing two cents below the opening on exchange to-day. Following are the prices: Wheat—May, 92; July, 94; Oct., 96. Oats—May, 37; July, 38; Oct., 40. Flax—May, 24; July, closed 24. Cash prices—No. 1 Northern, 95; No. 2 Northern, 94; No. 3 Northern, 93; No. 4 Northern, 92; No. 5 Northern, 91; No. 6 Northern, 90; No. 7 Northern, 89; No. 8 Northern, 88; No. 9 Northern, 87; No. 10 Northern, 86;
