OUR TWO REPRESENTATIVES. The campaign against the Minister of Inland Revenue in Victoria has assumed concrete form. It is contended that Templeman should be defeated because he "has done nothing for Victoria." It is a somewhat singular coincidence that only a few days ago a prominent citizen asd leading business man (not a politician), in conversation with the Times, expressed the opinion, without solicitation, that the Minister of Inland Revenue had acmulished more for Victoria during his short term as British Columbia's representative in the government of Canada than all the representatives we have elected since confederation. This gentleman pointed out that it was not necessary to enumerate the works referred to. They are in evidence upon every hand.
