VICTORIA TIMES, FRIDAY, MAY 3, 1901.

It appears that on two occasions the -The death occurred at the family drain the United States of Colombia."

> There are a couple of inland towns built after the most approved fashion of South African barbarism on supports on the river where some half a dozen Engish traders were engaged in their various enterprises. It was to see that their interests were safely guarded that the

Condor made the trips. Both places are situated from five to ten miles up rivers, and it was found that neither was immediately threatened by the revolution disturbing the state, the centre of hostilities where the in surgents had mustered 'strongest being two hundred miles inland. British inter ests, however, did not appear likely to suffer from the belligerents, and the Condon culy remained in either place one day. The crew, not inured to such climatic changes, suffered much, from the heat, and the mosquitoes were worse than the insurgents. They made life a misery while the Condor remained on fresh water, and thus it was, it is believed, that the disease was contracted.

Leaving these places the warship re -The British Columbia Medical Asso-ciation examinations for certificates of competency to practice in British Co-lumbia will be held on Tuesday next at the office of the secretary of the provin-tending candidates will be received by Dr. Fagan at his office on Monday. -Lieut.-Col.
