There was considerable excitement about the Eastern Line Steamship which left last evening on the departure of the steamer Yale for Boston. The rumor spread that a very pretty young woman who occupied a stateroom looking out on the wharf was no other than the famous Evelyn Thaw. The young woman was not, but not Evelyn Thaw, but the crowd of women on the wharf did not know the difference and there was a crush of persons all looking at the lady who quite satisfied that she had been eagerly watched for a half hour or more. There are many women in the city who are quite satisfied that they have seen Mrs. Thaw.

WANTS MEXICAN STEAMERS TO CALL AT ST. JOHN

Southern Paper Thinks That Commercial Conditions Could be Improved by Such an Arrangement.

The following is from the latest issue of "The Canadian," published in Mexico City: "Unofficially it has been announced that the near future Messrs. Elder Dempster & Company's Canada-Mexico Steamship service will be improved by the addition of one or two more boats of increased tonnage and that in all probability fortnightly sailings will be inaugurated for the future. If such proves to be the case, it will be a matter of great satisfaction to all parties in this republic who are directly or indirectly interested in Canada-Mexican trade.

Speaking of this steamship service brings to mind a question which as far as we know has never been satisfactorily answered: "Why do not the boats of the Canada-Mexico Line call at St. John, N. B. as well as at Halifax, N. S.?" In St. John it has been said that the omission is due merely to government favoritism but while we are sure that this is not the reason, we cannot see but that a distinct advantage, especially for winter sailings, could be derived from having St. John put on the list of the ports of call.

Even from the standpoint of common fairness, if from no other, St. John should not be passed over for as much through a sense of patriotism as self-advantage, she has spent from her own local resources, a very large sum of money in dredging her harbor, building wharves and in other ways providing for the benefit of the Dominion generally, a safe and suitable winter-port for Canadian shipping. Boats of large tonnage such as those of the Allan, the Harrison and the C. P. R. steamship companies find safe and satisfactory winter moorings in St. John and there seems therefore to be no reason from a nautical standpoint, why the smaller boats of the Canada-Mexico Line should be taken up, while as regards facilitating the quicker transportation of goods to this country, there is undoubtedly much to be said in favor of such an arrangement. St. John in herself supplies much that is being sold satisfactorily in the market while many other things produced there could be sold here at a profit if it were not for the cost of transportation by rail from St. John to Halifax.

But what is of still more importance is the fact that the March in the general scheme of building up the Canadian trade with this republic, could be made a most important factor. If a fortnightly service is to be established, why could not the sailings be made alternately from St. John and Halifax?

VAUGHAN ELECTRIC CO. SUES FOR WORK DONE

In County Court Today the Case Against the Hampstead S. S. Co. Was Taken up.

The case of the Vaughan Electric Co. vs. The Hampstead Steamship Co. was taken up in the county court this morning before Judge Forbes. The plaintiff's claim is for \$36.88, which is regarded by the defendant company as an exorbitant price. The named amount is for work done by the Vaughan Electric Co. for the Hampstead S. S. Co. M. G. Teed appeared for the plaintiffs, and L. A. Curry represented the defendants. Frank Vaughan, manager of the plaintiff company, was the first witness called. He stated that before March last, his company did some work for the defendant company. The electric dynamo was repaired and several other jobs were done on the steamer Elaine. On the 8th or 9th of March he received a message from L. A. Curry to call on him. The latter asked Mr. Vaughan to name a price for doing some work on the Elaine. He stated to Mr. Curry that the work which required to be done would probably cost \$200 or \$250. He did not state definitely the price. After some discussion Mr. Curry instructed the witness to go ahead with the work. Captain Pentman of the Elaine was in Mr. Curry's office at the time. The dynamo was taken from the Elaine to the company's workshop and repaired. The dynamo was practically useless when it was brought there and a lot of work had to be done on it. The bills sent in to the Hampstead S. S. Co. by Mr. Vaughan were produced in court. The items were gone over. Mr. Vaughan stated that a system is used in his company to keep accounts of all material sent out. Cards bearing the dates and amounts for materials for work on the Elaine were produced. Mr. Vaughan was on the stand when the court adjourned.

The following cases were decided by default between ten and eleven o'clock: Jones vs. Chase, judgment for plaintiff for \$45. H. H. Pickett, Jones vs. R. T. Cross, judgment for plaintiff for \$45.33. H. H. Pickett, Jones vs. E. W. Cross, judgment for plaintiff for \$45.61. H. H. Pickett, Parke, Blackwell Co. Ltd. vs. Collins, judgment for plaintiff, for \$100.55. J. H. A. L. Fairweather.

Two drunks were fined the usual amount in the police court this morning by Acting Magistrate Henderson. Charles Roy and George Bridges, who were given in charge for refusing duty on the ship. Harold B. Cousins, they being articlee seamen, were disposed of yesterday afternoon in the court. They promised to be good and preferred the vessel to the jail.

James Wilnot, of Woburn, Mass., was a visitor at the Star office this morning. His mission is to endeavor to locate a brother whom he has never seen. Mr. Wilnot was adopted by C. W. Wilnot when but a year old.

He has learned that a William Bridges was in the city a few days ago, and that he belongs near St. Martins. The Woburn man has also four sisters in Bangor. Their names are Rosalie, Minnie, Sadie and Alice. Mr. Wilnot is staying at Samuel McCutcheon's house on Adelaide road. He will leave for home on Saturday. Mr. Wilnot's address is 40 Salem street, Woburn, Mass. He will be greatly obliged to anyone who will give him information as to his brother's whereabouts.
