the value of food and drink than a trained nurse. Speaking of coffee, a nurse of Wilkes Barre, Pa., writes: "I used to drink strong coffee myself, and suffered greatly from headaches and indiges-tion. While on a visit to my brothers I had a good chance to try Postum Carced Freed Coffee for the start Cereal Food Coffee, for they drank i altogether in place of ordinary coffee In two weeks after using Postum I found I was much benefited and finally my headaches disappeared and also he indigestion.

Naturally I have since used Postum among my patients, and have noticed a marked benefit where coffice has been left off and Postum used. I observe a curious fact about Pos-tum used among mothers. It greatly helps the flow of milk in cases where coffee is inclined to dry it up, and

where tea causes nervousness. I find trouble in getting servants to make Postum properly. They most al-ways cerve it before it has been boiled long enough. It should be bolled 15 or

minutes and served with cream then it is certainly a delicious bever ige." Mrs. Ella C. Burns, 309 E. South St., Wilkes Barre, Pa.
