

MUNICIPAL COUNCIL.

Regular October Meeting Held Yesterday Afternoon.

The Resignation of Dr Bayard as Hospital Commissioner Accepted, and Dr. James Christie Appointed to Fill the Vacancy—Jail Improvements Completed—The Question of Hospital Changes.

The quarterly meeting of the municipal council was held Tuesday afternoon in the court house. The meeting was scheduled for 2.30 o'clock, but it was not called to order until nearly three, many of the councillors being interested witnesses at the sentencing of Higgins in the court room just above the council chamber.

Warden McMullin presided, and there were present beside the county secretary and auditor, John A. Macgilton, W. W. White, M. D., W. C. Rudman Allan, Thos. R. Hillyard, Jas. O. Stackhouse, John B. Baxter, Wm. Lewis, Samuel Tuttle, Jos. B. Hamm, Alex. W. Macrae, Robt. Maxwell, S. B. Robinson, Thos. Millidge, Wm. Christie, Thos. H. Bullock, James Lovell, John W. Long, Joseph Lee, Daniel Hogan, Fred M. Cochran, William J. Dean and Anthony Thompson.

The county secretary read a certificate to the effect that W. C. Rudman Allan had been elected alderman at large, replacing Ald. Seaton, resigned, and consequently an ex officio member of the body in session.

After the minutes of the last meeting were approved the county secretary read the following report from the finance committee:

The committee on finance and accounts have the honor to report as follows: They recommend the payment of the following amounts, such payments to be made out of the contingent fund, except as otherwise directed:

- To assessors parish of Lancaster, making assessment for current year \$422.90
To assessors parish of St. Martins, making assessment for current year 130.75
To assessors parish of Simonds, making assessment for current year 218.05
To assessors parish of Lancaster, making up list of voters for revisors 12.00
To assessors parish of St. Martins, making up list of voters for revisors 12.00
To assessors parish of Simonds, making up list of voters for revisors 10.00
To Tilley & Clarke, building retaining wall, cutting rock, etc. in front of 643.50
To James H. Grey, M. D., two certificates, paper lunatics 8.00
To county treasurer, postage for 12 months 44.50
To J. & A. McMillan, binding Dunn's Commercial Directory for 1921 1.25
To R. J. Coughlan, six months' care dead house 15.00
To county secretary, one-half copy of files 3 months 45.75
To telephone revisors 29.00
To postage stamps 10.00
To J. S. Gibson & Co., coal to court house 12.68
To paper-lunatics' quarter ending 30th September, 1921 146.25
To James McLeod, the box for the office 3.50
To Sun Printing Co., advertising notices, banners and blank forms 128.00
To Globe Printing Co., advertising notices and banners 60.05
To Globe Printing Co., printing tax returns 17.80
To William Lewis & Son, grill and bed books in jail 276.00
To Geo. A. Knodel, printing blank forms for the registering of marriages and death forms 115.59
To Sun Printing Co., advertising notices, banners and blank forms 150.21

Your committee after considering the resolution of this council recommending that Drs. Ellis and Morris be paid the sum of \$100 each, the nurses the sum of \$25 each for their valuable services in connection with the smallpox epidemic, do hereby refer the whole matter back to the council for further consideration.

Your committee had before them the report of Robert R. Patchell asking for a reduction in the assessment on agricultural property at Moospath. They recommended that the matter be referred to the councillors of Simonds to consider and report.

The committee recommended that a special committee be appointed to consider the resignation of Dr. Bayard, and to report to the council as to whether to receive for his services in the collection of \$14,851.36 arrears of taxes.

Respectfully submitted, WM. CHRISTIE, M. D., Chairman. A very lengthy, debate followed the reading of this report, and several motions and amendments were considered by the councillors.

Councillor Christie, chairman of the finance committee, moved the reading of the report by sections, passing the bills. Councillor Maxwell asked why the committee did not carry out the recommendations of the council as to the money voted to Drs. Ellis and Morris and the nurses for services at the time of the smallpox epidemic.

The warden explained that the meeting was poorly attended. Councillor Maxwell thought it had been a direct order, but would move Drs. Ellis and Morris be paid the amount voted by check at once.

Councillor Christie said the order to the finance committee was a sweeping statement and would not do. They must know who the money was to be paid to.

Councillor Tuttle, seconded by Councillor Thomson, moved that the doctors be paid immediately. Councillor Baxter thought they were getting far away from the original idea, which was to recognize the excellent work of the doctors and nurses.

It now looked as if they were trying to avoid the payment of the money. Councillor Lewis thought that both doctors and nurses should be paid without further delay.

Councillor Allen favored the payment of the money voted to Dr. Ellis, Dr. Morris and the nurses in the hospitals. Councillor Christie, referring to the payment to the nurses, said that the Board of Health had by a cash grant recognized the excellent work of the nurses, and if the proposition of the Council was carried out some would receive \$50 more than others.

Councillor Macrae did not believe the nurses should be doubly paid. He moved the Dr. Ellis and Morris be paid \$100 each, and the nurses who had not received a special grant from the hospital commission \$25 each. This was seconded by Councillor Dean.

Councillor Dr. W. W. White took exception to this. He asked why the physicians should be paid from two sources and the nurses from but one. They should not be in too big a hurry, but to that was right. The Board of Health and hospital commissioners had rewarded some, but what they had or had not done did not affect the Council. He wanted a fair and equitable deal for all.

ITALY EXCITED

Over Murder of Count Antonio Bonmartini.

All the elements of a tragic crime are believed to be contained in the Bonmartini murder case, at Bologna, which is a theme of general interest throughout Italy. On September 2, Count Antonio Bonmartini was found assassinated in his apartment, in the Via Mazzini, Bologna. There are now under arrest on suspicion his wife, Countess Teodolinda, Bonmartina, a woman nearly thirty years old, daughter of an eminent physician of Bologna named Murri; her brother, Tullio Murri, 28 years old, a lawyer and socialist provincial councillor; Dr. Pio Naldi, a gay companion of Murri's and a dress-maker, Rosina Bonetti, supposed to be an accomplice in the affair.

It was found that the Count and his wife had been separated for some years. The Countess was placed under arrest and her father, Professor Murri, then denounced his son Tullio as the murderer. Tullio himself admitted the crime, stating that he had killed the Count in a quarrel and with a weapon which the Count had first employed against him. As the autopsy was with us, and the scriptures cannot be broken, that opposite to the A-I doctrine was directed because we were Bible lovers and wanted S. S. teachers to not to the fact. The rev. gentleman challenged answers to the arguments based on Ephraim and Manasseh, and on the prophesy about David's throne.

A resolution of thanks was passed by a standing vote to the Rev. Mr. Bareham for his paper. In reply the Rev. Mr. Bareham thanked those present for their kindness in listening to his paper and expressed on those present the fact that Anglo-Saxons stood by the Bible. It was with us, and the scriptures cannot be broken, that opposite to the A-I doctrine was directed because we were Bible lovers and wanted S. S. teachers to not to the fact. The rev. gentleman challenged answers to the arguments based on Ephraim and Manasseh, and on the prophesy about David's throne.

CANON RAWLINSOON DEAD. LONDON, Oct. 7.—The Rev. George Rawlinsoon, Canon of Canterbury since 1872, died at Canterbury last evening at the age of ninety. He was born in 1812.

George Rawlinsoon, Canon of Canterbury, ranked among his contemporaries as one of the foremost of Oxford scholars. He is best known by his translation of Hieroclytus, a work which he followed up with histories of the great monarchies of the ancient Eastern world, and with histories of Ancient Egypt and Phoenicia.

The conversation turned on the effect produced on the emotions by pictorial art, when one man remarked: "I remember one picture that brought tears to my eyes." "A pathetic subject, I suppose?" "No, sir; it was a fruit painting. I was sitting close under it when it dropped on my head."

THE KING'S PHYSICIAN ON APPENDICITIS. Not Cured by Grape Seeds, Orange Pips, etc., as Is Popularly Believed. Preventative Treatment Better Than the Dangers of an Operation.

It will be a surprise to many to learn that Sir Frederick Treves, physician to the King, and a great authority on appendicitis, in a paper recently read before a medical society, does not attribute the cause of this disease to the lodgment of grape seeds or other small particles in the appendix, but rather to irregular and unwise habits in eating, careless and insufficient chewing of the food, over-eating and drinking, the use of indigestible foods, which tend to clog the system, and neglect to keep the bowels and bladder active in their work of removing waste matter from the body.

It is the accumulation of this poisonous waste material in the system that sets up inflammation of the appendix or appendicitis, and consequently these ailments can be avoided by keeping the filtering and excretory organs in active working order.

If you question people who have been attacked by this disease as to the cause of their trouble they will almost invariably attribute it to neglect to keep the bowels regular and the liver and kidneys active. These very people prevent the return of the trouble by paying special attention to these organs, but often make the mistake of using medicines which merely affect a movement of the bowels without having a lasting, beneficial result.

Dr. Chase's Kidney-Liver Pills are especially suitable as a preventative of appendicitis and such diseases, because they act directly on the liver, kidneys and bowels, making them vigorous in their action of removing waste matter from the body, and permanently curing kidney disorders and constipation of the bowels.

There could scarcely be a stronger warning against neglecting to keep the bowels and kidneys healthy and active. Year by year appendicitis claims more and more victims, and it is undoubtedly a fact that the majority of these cases could be avoided by careful attention to the regularity of the organs of filtration and excretion.

A HUMANE JUDGE

Give Sound Advice to Evicted Irish Tenants.

DUBLIN, Oct. 4.—Lord De Freyne applied at Castle-Res (Broommountain county) today for 300 ejectment writs in tenants' cases. They are all under-tenants. The friends and neighbors of those who have already been evicted are caring for the homeless in out-houses and stables.

All the tenants on the Ellis estate have been advised the government have decided to submit to eviction and are building huts on land adjacent to the estate.

At the Castle-Res quarter sessions today, after granting 300 ejectment writs, Judge O'Connor Morris, chairman of the quarter sessions, delivered a long and sympathetic address, which he advised the tenants to settle with their landlords and their appeal to parliament to remove their legitimate grievances. The judge assured the tenants that there was nothing in the story that the government was going to pledge the credit of the British taxpayer to the extent of \$750,000,000 to pay the landlords, and in order to enable them to come to their senses and not be led into foolish agitation, that he would not sign a single ejectment writ until the end of the session, and in the meantime he would pay one year's rent and costs, that he would stay the degree for six months.

NEWFOUNDLAND AWARD. Mr. Reid to Get One Third of His Claim—A Government Victory.

ST. JOHNS, N. F., Oct. 8.—The arbitration of the Reid railroad case against the colonial government, which a unanimous award today giving Mr. Reid \$854,000, which amounts to one-third of his whole claim. The other two-thirds will be shared between the arbitrators. The award virtually represents the matters for which the government admitted its liability. The arbitrators declared that each side should bear the cost of arbitration between them. The award gives general satisfaction in that most people here feared it would be over \$2,400,000. The claims for which the government did not admit liability were not regarded by the arbitrators. The police theory is that the Countess, who now has been changed his opinion and protests her innocence, was the instigator of the crime, that Tullio Murri and Pio Naldi carried it out, and that Rosina Bonetti, who had an income of \$15,000, married Teodolinda Murri in 1883, her father having a great medical reputation, and studied medicine long to make his way as Murri's son-in-law.

GIANT McLEOD IN BANGOR JAIL. The N. B. Terror Held in \$500 for Assault With Intent to Kill. (Bangor News, 8th.)

William McLeod of Millinocket, who is charged with having committed an assault on Sheriff Fred Gates at Bangor, Maine, last Sunday, was arrested in Houlton on Tuesday and brought back to Millinocket by Deputy Gates.

McLeod appeared before Trial Justice Geo. W. Stearns, upon the charge above named. It was testified that on Sunday, Oct. 5, when Deputy Sheriff Fred Gates at Millinocket last Sunday, was arrested in Houlton on Tuesday and brought back to Millinocket by Deputy Gates.

McLeod is a giant in size and strength, and is described as a terror when drinking. He is 31 years old, 6 feet 10 inches tall and weighs about 180 pounds. He is now in the Brunswick to Millinocket at the time of the construction of the pulp mill and has lived there ever since, occupying for some time the distinguished office of "bonzer" in a boarding house where little consideration is given to elegance of deportment or niceties of etiquette.

About a year ago, in a boarding house at Millinocket, Mr. McLeod and some other gentlemen were engaged in a debate which not only shook all the place off the walls of the forum but jarred the machinery in the distant pulp mill. Deputy Sheriff Bragdon, since deceased, tried to arbitrate, and took a few of the debaters in tow, who were afterwards arrested, tried and convicted, but the case was sent to the law by Justice Emery. The exceptions were argued last June, but no decision has yet been reported.

DEATH FOLLOWED MATE'S SEA JOKE. "Once, while rubbing the steaming down," said Able Seaman Bill Owen, "the mate of the ship S. D. Carleton ordered a sailor to wipe off the tops of the upper-toppling bantlines.

"It was at four bells of the afternoon watch. There was a long, heavy roll on the sea that swatted the ship every time a swell came. The wind was ahead and the wheel contrary.

"A week after, at the same hour, the ship was under lower topsails and needed forest. On the day before the mate had a gal and the sea was that so high that you could hardly move the ship, and you were under lower topsails and needed forest. On the day before the mate had a gal and the sea was that so high that you could hardly move the ship, and you were under lower topsails and needed forest.

"Two men wrestled with the ropes. Capt. Amesbury and his son, Edward, were standing under the overhang of the wheel when the mate ordered the crew to come a sea that broke away, when along the whole line into damage wood, knocked both Amesbury and his son overboard. One of them and dashes the mate against the mast just as it had been fired out of a cannon.

"The mate was so fearfully hurt that he did not live long. Ever since, Capt. Amesbury read the service when the body was put overboard, and then the men said: 'Well, every dog must have his day.'"

LATE REV. GEORGE SCHOFIELD. After an illness of only five days the Reverend George Schofield of this city quietly passed away at ten o'clock Tuesday forenoon at the residence of his daughter, Mrs. Wm. H. Beer, with whom he had lived during the last twenty-eight years. He was born at Ashton, Lancashire, England, in the year 1813, and was ordained a clergyman in 1838. He has been a resident of St. John since 1859, and was rector of the parish of Simonds for 23 years, during which period he also considered clerical work in the city, and was a member of the Board of Health. He leaves two sons (Samuel and John K. Schofield) and one daughter (Mrs. Wm. H. Beer), all residents in St. John. The late George A. Schofield, manager of the Simonds Paper Mill, and Mrs. T. B. Bell of Rochdale, England, were also children of his. His wife died here in the year 1888.

At a recent meeting of the Sunday school teachers of the Denary of Kingston, held at Upham, a very interesting paper on the subject of Lost Israel, found in the Anglo-Saxons, was read by the Rev. Alfred Bareham, rector of St. Martins.

The paper was a revelation to many present and provoked much discussion during the afternoon. In reply to the paper, one young clergyman said it was a frivolous subject and required courage to introduce it among modern educated teachers. He didn't see the use of it, etc. etc. said it relied on the inspiration of the scriptures, which no scholar now defended.

Another clergyman said it was a too material way of dealing with the Kingdom. The Rev. C. D. Schofield, rector of Hampton, took issue with the two previous speakers' very forcibly. He did not agree with them in their indifference to the subject. The identity was in the art of Sunday school teachers not acquainted with the subject were not up to date. He himself was studying the subject and thought there was something in it. On the whole his speech was favorably received.

The Rev. Mr. Bates, rector of Upham, said he was in favor of the Identity. Six months ago he was a scoffer, but now he had changed his opinion and was all but convinced of the full claims of the Identity. The laity present were evidently largely in favor of Anglo-Israelitism.

A resolution of thanks was passed by a standing vote to the Rev. Mr. Bareham for his paper. In reply the Rev. Mr. Bareham thanked those present for their kindness in listening to his paper and expressed on those present the fact that Anglo-Saxons stood by the Bible. It was with us, and the scriptures cannot be broken, that opposite to the A-I doctrine was directed because we were Bible lovers and wanted S. S. teachers to not to the fact. The rev. gentleman challenged answers to the arguments based on Ephraim and Manasseh, and on the prophesy about David's throne.
