BLOOD MAKES HEALTHY PEOPLE

Sarsaparilla surely and effectively removes scrofula boils and all diseases because it drives the blood all the humors that are in the system. They cannot be treated in any other way. Applications for their removal have proven almost useless, they cannot drive out the blood. Sarsaparilla makes pure, perfect the digestion, and the whole system. The skin smooth, clean and healthy. It has stood the test of thirty years. Insist on having nothing else like it. No real substitute. Get it sold by all druggists.
