Hon. A. M. McKay. St. John's, Nfld., Nov. 24.—The death of Hon. A. M. McKay took place here this morning. Mr. McKay was a superintendent

ent of the Anglo-American Telegraph Company, having an evision over the company's system in Newfoundland. He acquired his career as a telegrapher more than fifty years ago, and was believed to be one of the first, if not the first operator who could read by sound, a distinction claimed by two others in the United States. Mr. McKay went to New York as a "sound" operator when there was but one other in that office, and that one required the services of another to watch him. Young McKay spurned the idea. He was a native of Nova Scotia, and opened the office at Liverpool (N. S.) just fifty-one years ago next February. He leaves his wife, two daughters (married), and three sons.

NEARLY CHOKED BOY. Candy "Sucker" Caused Serious Trouble for Harold Fish, of Brussels Street. Who would suspect that deadly possibilities lurk within an innocent and innocent appearing candy sucker? The catastrophe was almost the cause of the death of a Brussels street boy, Harold Fish, Friday night. He essayed to enjoy the sweet after the customary fashion, but it was not long ere he was struggling for breath. A physician was called, the members of the family were distressed and a crowd gathered. The candy had lodged in his throat and it was more by good fortune than by anything else that it finally passed into the stomach.

CLAIMS SLICE OF NEW YORK. Scotch Family Wants Sixty-five Acres—Valued at \$350,000-000. Glasgow, Nov. 24.—A Glasgow family claim, and have evidence to support their claim, that they are heirs to a great fortune of the land upon which New York is built. The value of this property is said to be \$350,000,000. Robert Edwards was born of Welsh parents in the County of Perth in 1739. He emigrated to America, made a fortune, and bought 65 acres of land in Manhattan Island, New York.

IT'S ONLY A GOLD, A TRIFLING COUGH. Thousands have said this when they caught cold. Thousands have neglected to cure the cold. Thousands have filled a Consumptive grave through neglect. Never neglect a cough or cold. It can have but one result. It leaves the throat raw, hoarse, or both, affected.

Dr. Wood's Norway Pinus Syrup. It is the medicine you need for relief of the very distressing of all coughs or lung complaints, following or curbing Coughs, Colds, Bronchitis, Asthma, Hoarseness, Throat, and preventing Pneumonia and Consumption. It has stood the test for many years, and is now more generally used than ever. It contains all the lung-salving virtues of the pine tree combined with Wild Cherry Bark and other powerful remedies. It stimulates the weakened bronchial organs, allays irritation and subsides inflammation, soothes and heals the irritated parts, loosens the phlegm and mucous, and aids nature to easily dislodge the mucoid accumulations. Don't be humbugged into accepting an imitation of Dr. Wood's Norway Pinus Syrup. It is put up in a yellow wrapper, three pine trees the trade mark, and priced 25 cts.

Arkansas' Governor in a Row. Little Rock, Ark., Nov. 27.—Chas. Jacobson, private secretary to Governor Davis, has given out a statement here to the effect that Governor Davis had wired him from Fayetteville, stating that former Congressman Hugh Dismore and Jack Walker assaulted him last night in his room at a hotel with drawn revolvers and that he (the governor) was struck over the head with a revolver. The governor in turn according to statement, struck Dismore over the head with a large can.

FREDERICTON'S ASSESSMENT LAW. To the Editor of the Telegraph: Sir,—In today's issue of the Telegraph your correspondent, "Parent," advocates the removal of the University and Normal School from the city of Fredericton, because of the conditions. Perhaps "Parent" would widen his indictment by charging this at John's assessment, which has maintained an assessor law for a generation, which was framed partly with the view of relieving the province by the "view" of the provincial employees who are in her debt. This capital does the bleeding in this way: (1) by taxing income first on a real estate, and (2) by interpreting the law so that it bleeds the province, or her employees, here, so that about four times the quantity of blood is let as St. John's assessment takes from victims having the same "income." A relic of barbarism was the charge applied in the Fredericton assessment law by a delegate from St. John who spoke on behalf of an improved assessment law for your city. Very truly yours, W. W. BIGGAR, Susex (N. B.), Nov. 24, 1905.
