

## Of the Largest Stocks This Store Has Ever Had For the Largest Business This Store Has Ever Had

Prices are so little advanced yet to what they will be that we count this a Golden Opportunity to Buy Worthy, Wantable Merchandise at a Very Great Saving in Price.

Had we not contracted heavily months ago we could not get the desirable merchandise we have today at from 10 to 25 per cent. above what we paid, and a great deal of the British and French made goods we should never have been able to get at all.

We feel so certain of the greater advance in price that we are not afraid to offer for any Fall and Winter goods bought today to give you 10 per cent. at least more if you return same to us six weeks or two months hence.

Never in the history of merchandising and manufacturing have so many imitations and worthless mixtures been put in goods.

In every instance this store stands for "Quality." We are not going to sacrifice a reputation that cost us 20 years hard work for the little gain in shuffling off worthless imitations at larger profits. We're working today for next year and years after.

# The World's Most Powerful Low Priced Car 31½ H.P.

ANNOUNCING THE NEW SERIES

**\$890 75 B Overland \$890**

f.o.b. Toronto

f.o.b. Toronto

This new Overland is the world's most powerful low-priced car.

It has a 31½ horsepower motor that is a perfect marvel for speed, power and endurance.

By increasing the bore of the motor from 3½ to 3½½ we are able to offer a power plant which at 1500 R.P.M. develops full 31½ horsepower.

Tests under every condition in all parts of the Dominion demonstrate that it easily develops better than fifty miles per hour on the road.

Speed of course varies under different conditions, but is practically every instance it has been getting fifty miles an hour and with ease.

We have more of telegrams showing that twenty to twenty-five miles per gallon of gasoline is not unusual.

The performance of this car is almost beyond belief.

Take any other low-priced car in the market. Put it against this new Overland. Compare them for speed, power, for abundance of power, for riding comfort.

and economy, and you'll find this car will back anything else clean off the track.

That's a strong statement, but a fact nevertheless.

Try it yourself and see. Here are more important facts.

It has four-inch tires which are more than generous for a car of this size.

Not only has it a large and roomy body, but it has an attractive, up-to-date streamline body.

It has the latest and most improved system of ignition.

It has the exclusive springs—the newest riding springs in the world.

What's more, it's complete. Not a thing to buy. You get the finest Auto-Lite.

electric starting and lighting system, magnetic speedometer, one-man top, de-mountable rim and practically every accessory found on the highest priced cars.

From a driving standpoint, the new car is ideal. It's light, easy to handle and anyone can drive it.

Take one look and be convinced.

And mark these words—the car is destined to be regarded and referred to as one of the really great achievements of the great automobile industry.

Yet it only goes to prove how big production can cut cost and save you money.

First come, first served. Place your order now.
