

Acid Waters! Acid Waters!!

## IMPERIAL BOILER COMPOUND CO.

TORONTO,

Have produced a compound that will NEUTRALIZE either SULPHURIC ACID or other acids in the water to be used in steam boilers. It is, of course, known that these acid waters do not make scale, but cause the boiler to be "pitted" with small holes, and render it almost useless in about six months.

The remedy now offered has been wanting for years, and will be a great boon for steam users whose supply of water has to be taken from these acid streams. We sell it under a GUARANTEE OF SUCCESS.

Send five gallons of the water in carboy to be analysed. Also state size of boiler and hours running a day.
