

No. 119053-5.

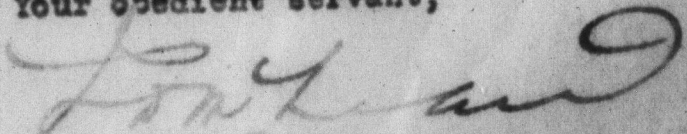

Ottawa, August 4, 1916.

Rev. Sir,-

Certain changes were made to the floor plan of the Kuper Island Industrial School during erection, consisting principally of a re-arrangement of the left hand end of main building and the left wing and the changing of the location of rooms, and as it is necessary to plot the changes on the plan for future reference, I have to request that you will place on the blue print plans sent you herewith under separate cover, the rooms changed, with the location of each fixture therein. This should be done as soon as possible and returned to the Department.

Mr. Morley was requested to have photos taken showing different perspective views of the building, the negatives of which were to be sent to the Department for purposes of illustration. These according to his statement, were left with you to be sent at a later date, and as they can now be used to advantage, I have to request that you will forward them by registered mail safely packed.

Your obedient servant,

Asst. Deputy and Secretary.

Rev. W. Lemmens,
Principal, Industrial School,
Kuper Island, B. C.

Indian Affairs, Letterbook,
21 July 1916 - 11 August 1916, (R.G. 10, Volume 5633)
