SEE WHAT THE AMERICAN PRESS SAYS:

CAPE ANN "WEEKLY ADVERTIZER."—"We found this comfortable old house, yielding to the march of progress, undergoing extensive repairs, which when finished will make it one of the most convenient and elegant hotels in the Dominion, which will help to draw hither the stream of American tourists, who yearly increase in number to do the rounds of this interesting trip, extending to the romantic, wild and picturesque scenery of Cape Breton, and the fertile and beautiful Prince Edward Island. The Americans will patronize a good hotel, and Messrs. Hesslein & Sons are doing a great thing to attract travel to Halifax, by making their hotel first-class in every respect."

CAMBRIDGE "CHRONICLE."—"This admirable house has just been thoroughly renovated, and is now, with its richly decorated and spacious entrances, plate glass windows, elevator, electric lights, and other modern improvements, truly a first-class hotel, while the cuisine leaves nothing to be asked for."
