"Prism" Don't Disappoint Her

The Snail-in-Distress, the flagship of Commodore Joe Hadley's fleet, went on a trial trip this afternoon. This was the initial run of this maginflicent sand-sucker since it was fit-ted with its new and modern engine. The Commodore is well pleased with the work of his flagship. She showed up well on her trial trip, making as much as seven miles an hour, where the current rendered sufficient assist-ance. The owner donies the rumor that he is going to put a mast in the Snail and send her as the Canadian challenger in the international yacht race. There is utterly no truth in the rumor, although it is the general impression that the Snail would do as well as Shamrock the first and Sham-rock the second did.
