

THE LITERARY TRANSCRIPT.

The Montreal Courier of yesterday, contains several addresses to His Excellency the Governor General from Beauharnois; and the Kingston Chronicle of the 21st inst. gives the substance of the oral reply of His Excellency to the address of the inhabitants of Kingston. The following paragraph is an extract: "His object in visiting Upper Canada was two-fold: 1st. to take such steps as would prevent a recurrence of those outrages to which they had lately been subjected; and 2nd. to observe what improvements were calculated to promote the prosperity of this promising Colony. —With regard to the first he had, during his residence at Niagara, made such a disposition of the force at his command, and such other arrangements, that he apprehended no further annoyance to the peaceable and industrious inhabitants; and it was the intention of Government to punish all future attempts of the lawless aggressors and brigands, and that their execution would follow as summarily as the act.

The Montreal papers have been authorized to state that His Excellency the Governor General made no allusion in his answer to the Cornwall Address, to the Union of the Provinces, or to any Legislative measure whatever. His Excellency confined himself there, as elsewhere, to the same declarations which he has invariably made, of his determination to provide for the general interests of all Her Majesty's Colonies in North America.

The Theatre at Montreal opened on Tuesday evening, under the management of Mr. Leblond. The performance was commenced with the National song, "God save the Queen." After three very amusing pieces were performed, in which Mr. Edwin, Mr. Latham, Miss Melton, and Mrs. Knight, took the leading characters.

E. M. S. Apollo, which left here on the 17th May, arrived at Portsmouth on the 10th June, making the passage home in 24 days. She carried with her intelligence of the wreck of the *Silérie*, *Lord Wellington*, *Rebecca*, &c. which happened in the St. Lawrence, at the opening of the navigation this year.—*Mercury*.
