

NEWS OF WORLD TOLD IN BRIEF

Italian Army has Occupied Austrian Town of Gradisca and is Solidly Established

2nd. DIV. C. E. F. IN FRANCE

Canadians Have All Landed on Continent—Still Short of Shells—U. S. Note Reaches Kaiser Today—Turkey Wants Peace.

It is officially announced at Rome that the Italians have occupied Gradisca, six miles southwest of Gorizia, in Austria-Hungary. A statement made at main headquarters of the Italian army, under the date of June 11, and given out in Rome last night, says that the Italians are now solidly established in the Austrian city of Gradisca which, it is stated, has been held by the Italian advanced troops for some days.

The announcement was made last night by the Minister of Militia that the 2nd Division Canadian Expeditionary Force has been landed in France. No information as to their exact whereabouts is available, but it is assumed that the men will have some further training. The division consists of the fourth, fifth and sixth infantry brigades, respectively under the command of Brig.-General Lord Brooke, Colonel J. P. Landry, and Col. H. D. B. Ketchen; divisional ammunition park under command of Major Pousette; machine gun battery under command of Major E. Holland, V.C.; Fourth, Fifth and Sixth Artillery Brigades and heavy artillery; ammunition column, Divisional Cyclists, Divisional Engineers under command of Lieut.-Col. Houston; Army Service Corps, and various other units which go to make up a complete division.

Addressing representatives of engineering firms at Cardiff, Wales, David Lloyd George, Minister of Munitions, said yesterday that it was his purpose to organize South Wales to speed up the output of munitions just as Lancashire had been organized, and to establish two or three war factories. Referring to the dire need of ammunition, Mr. Lloyd George said: "I hardly like to say it, but we are still short of shells. We must get them, and it will not do for some to undertake the responsibility and some to shirk. There must be equality of sacrifice and contribution."

Germans in Berlin who are in the secret of the closely-guarded text of the American note are guarded in their comments on it. The impression gleaned at the Foreign Office was that the note had not changed the situation for better or worse, but from a German point of view it left the situation pretty much unchanged. Dr. von Jagow politely asked to be excused from making comments at this time, as the note had only just got to Chancellor von Bethmann Hollweg a few hours earlier, and the Foreign Minister was unwilling to discuss it until his superior had had a chance to digest it. A copy of the text is already on the way by special courier to the Kaiser at the eastern front and should reach him this morning.

Ever since Italy declared war against Austria, and in a sense, war also against her ally, Germany, Turkey, the ill-starred partner of the "kill or conquer" policy of Potsdam, has realized the hopelessness of her position, saying a Rome despatch. Dismay has seized the governing party of Young Turks in Constantinople. From authentic information it can be stated that the present Government of Turkey has had enough of the German alliance. It is tired of the war, and ardently desires peace. It has been driven to entertain the possibility of separate peace because it can see no other feasible method of procuring the cessation of hostilities, so far as Turkey is concerned, on any other conditions.

Desperate fighting continues night and day on the Gallipoli Peninsula. The Allies are endeavoring to penetrate the Turkish lines to the north. Reports from Mitylene state that the Allies, after successive attacks, have succeeded in occupying two heights dominating Madoles, and have taken seven hundred prisoners. Reinforcements for the Allies continue to be embarked. Wounded Turks are reaching Constantinople in such numbers that all hospital facilities have been exhausted, and forty ships have been transformed into hospitals.

NEW YORK PRESS COMMENT

SUN: After all the Bryan rumpus over the Washington negotiations with Germany the actual note which was the alleged cause of the political disturbance at the capital produced on Wall Street yesterday the effect of a vast relief from strain.

It was felt that the note had cut the ground from under Bryan's effort to justify himself and probably constituted by that much to the diminution of his influence with the country. It was realized that the note itself was not conclusive of the outcome, but it ended one phase of uncertainty, the government's line of policy in dealing with the issues that Germany had raised by its methods of warfare.

TIMES: Our note to Germany held paramount place among market influences yesterday. Wall Street was favorably impressed with the American rejoinder to Germany, and it expressed its satisfaction in a rise in prices at the opening, which was followed by further gains in a number of issues.

The controlling thought in regard to the note seemed to be that it left the way open to further exchanges with Germany and made easier Germany's acceptance of our essential demands.

This note was regarded as more conciliatory than the previous note and Wall Street had an explanation to offer for that fact. It gave ear to the suggestion that a more conciliatory attitude was adopted by the government in response to intimations that the German government was disposed to accept our position, if acceptance was made easy. The note published yesterday, Wall Street thought, made acceptance by Germany easy, and reached the conclusion, therefore, that the international situation had become much less strained.

B. R. T. 5 PER CENT. BONDS.

New York, June 12.—J. P. Morgan & Company have taken \$5,000,000 additional of Interboro Rapid Transit first and refunding 5 per cent. bonds, making a total of \$103,658,000 issued to the bankers since the underwriting agreement was made. This \$5,000,000 is the first block of bonds taken by the bankers from the company since last year, and is part of the 1915 allotment.

J. P. Morgan and Company will take a total of approximately \$160,000,000 of the bonds under contract which provides for taking up of all the bonds by December 31st, 1915, unless contract date should be further extended.

Of bonds so far taken by the bankers \$52,600,000 have gone for refunding and remainder for financing the construction of new subways and extension of elevated lines.

LIVERPOOL COTTON FUTURES.

Liverpool, June 12.—Cotton futures opened steady at 2 1/2 and 3 points advance. The market closed quiet with prices at 2 points advance net.

July-Aug. Oct.-Nov. Jan.-Feb. May-June. Close . . . 5.27 1/2 5.50 5.63 1/2 5.77

Close . . . 5.30 5.52 1/2 5.68 1/2 Close . . . 5.29 1/2 5.52 5.65 1/2 5.78

At 12:30 p.m. spot quiet. Prices steady with middlings at 5.14; sales 4,000 bales, including 500 for speculation and export and 3,500 American. Receipts 35,000 bales, including 34,700 American.

Spot prices at 12:45 were: American middlings fair 6.24; good middlings 5.73; middlings 5.41; low middlings 4.84; good ordinary 4.43; ordinary 4.23.

N. Y. MARKET OPENING.

New York, June 12.—Stock market opening. General Electric . . . 173 1/2, up 1/2

N. Y. COTTON MARKET DULL. New York, June 12.—The cotton market opened steady. July 5.52, off 2

JUTE REMAINS INACTIVE.

New York, June 12.—Jute was still inactive, the trade being more interested in the arrivals on the Roserick than in new offers, even if such had been available. The primary situation is unchanged, with prices nominal. Indian mills are busy on war orders and using a large quantity of the fibre. June-July 4.85 to 4.90.

PHILADELPHIA OPENED STEADY.

Philadelphia, June 12.—The stock market opened steady. Cambria Steel 48 3/4, up 1/2

INLAND STEEL'S BENZOL OUTPUT.

Chicago, June 12.—The Inland Steel's benzol plant has contracts with the leading power concerns that assure steady sales of the product for the next two years at a net profit exceeding \$1,000,000 annually, regardless of the war's duration.

CASH WHEAT ADVANCED.

Liverpool, June 12.—Cash wheat quiet and unchanged. No. 1 Northern Spring 11s 1d; No. 2 Hard Winter 11s 3d; No. 2 Soft Winter, 11s 2d; Rosafé, 11s 5d.

BOSTON OPENED STEADY.

Boston, June 12.—The market opened steady to firm. North Butte 33 3/4, up 1/2

CALIFORNIA PETROLEUM DIVIDEND.

New York, June 12.—California Petroleum Corporation's dividend of 1 per cent. on the preferred stock is payable July 1 to stock of record June 17.

SPELTER DROPS TWO CENTS.

New York, June 12.—Late Friday, spelter was quoted at 23 cents, compared with 25 cents earlier in the day.

Heard Around the Ticker

More land expropriations have just been authorized by the Board of Control. This system of helping the undeserving unemployed is becoming more and more popular with all concerned, save the general public, which pays the bills. The dwindling funds have no restraining influence on the enthusiasm at the City Hall.

Mr. J. H. Sherrard, of this city, who has just been elected president of the Canadian Manufacturers' Association, says that there are good reasons for expecting that at the close of the war a trade agreement will be arranged between the Allies that will include Canada, and if this is done, the Dominion will have a valuable customer in Russia alone that will greatly benefit Canadian industry, and that should make British Columbia a manufacturing province of the first rank.

Another Tramways proposal has been evolved, this time by Controller Hebert. As the city is in need of money, and as there appears to be no checking the "deluge of proposals," why not a tax on these obstructions?

According to word received in Calgary contracts to the amount of \$10,000,000 have been awarded the P. Burns Company at that point for meat products for the Allies. Although officials of the company intimated that this was exaggerated, they admitted that some "experimental" shipments had been made. It is stated that the company has already shipped pork, while the Calgary plant has shipped the enormous of its Edmonton plant 2,000,000 pounds of cured meat to the amount of \$8,000,000. It is also asserted on what seem authoritative sources, that the company has orders for 100,000 head of live beef, and this view is strengthened by the remarkable scarcity of beef cattle that has been reported lately by commission merchants here.

Another invited German criminal has been apprehended. Harry Davis Lewis Cooperstein, said to be an agent of the "opium trust" in London, was sentenced to one year in Atlanta Penitentiary and fined \$50.

David Lloyd-George, Minister of Munitions, in order to increase the output of shells and other articles necessary for the proper prosecution of the war, is about to establish two or three war factories. The Allies are still short of shells of a high explosive type and these must be secured at all hazards. With such a man as Lloyd-George in charge there is little doubt but that the object set will be accomplished. Nor will some be allowed to shirk while others assume the responsibility. There will be equality of sacrifice and contributions.

France is reported to have appropriated \$7,000 for the purchase of wooden legs in the United States. This seems to be unnecessary extravagance. Some of the Chicago canned meat factories would surely supply the wooden limbs in exchange for the original disconnected ones.

A petition is being widely circulated all through the district of Timiskaming to intern all alien enemies. It is set forth in the petition that already an attempt has been made by alien enemies to blow up the Nipissing powder magazine, and that only a few nights ago four cases of dynamite were stolen from another magazine of a mine in camp; that aliens are absolutely free from all registration and can do anything they like in a community where, owing to the large amount of explosives stored, their capacity for harm is very great. It is estimated that there are several hundred alien enemies working in the mines in the Cobalt and Porcupine districts. The petition has already been very largely signed. It will be sent to Col. Sam Hughes at Ottawa.

Even the Sultan of Turkey is setting the Germans an example. He is not so white-livered and cowardly as those Teutons who would have had him flee from Constantinople. Evidently, like Napoleon, he prefers himself to go down amid the wreck of his Empire.

These are the days in which the women—even the suffragettes—are coming into their own without even having to fight for it. Lady bank clerks are the latest in the world's metropolises. Our London correspondent writes: "Within the last few weeks we have had the girl messenger, the elevator girl at Harrod's, the girl railway ticket collector at Paddington, the newspaper stall girls on the underground railways of London. But last week provided a surprise, a went into a bank near the Law Courts, one of the largest, as well as one of the most conservative banks in London. And there I saw five girls sitting working at ledgers."

The Motherland is evidently not in so bad a way as her enemies would have it appear. To date, 79,946 women have registered in Great Britain for war work, and of this number, 1,916 have been utilized.

The Government at Ottawa is exerting particular efforts at the present time to extend the lumber trade of British Columbia. Some time ago, on representations being made by several boards of trade in British Columbia, Sir George Foster obtained from the trade agents of the department reports on the lumber demand in various parts of the world. He also arranged for an extended tour by Chief Forester McMillan, of British Columbia, with a view to finding new markets for British Columbia timber, especially in the Orient. Mr. McMillan was instructed to visit Japan, China, India, Australia, New Zealand and South Africa. The possibilities of an important development in the lumber trade with Japan and China are believed to be great.

Canada had better speed things up a bit. The Australian Government will shortly begin the manufacture of shells to supply the Australian and New Zealand contingents now fighting at the Dardanelles. Canada needs to send more shells to aid our own boys in Flanders.

The British Press Bureau, commenting on the announcement at Vienna regarding the sinking of a British cruiser, said last night that the ship presumably referred to was safe in harbor, "not seriously damaged."

Closed on May 27 by a strike, the Everett Cotton Mills, Lawrence, Mass., employing 2,000 hands, will resume operations next Monday.

The transport Buford, en route for Vera Cruz to take away refugees, was ordered to stop at Tampam; if there is room aboard for more refugees.

The Ford Motor Company expected to buy a big factory site in Jersey with frontage on Hudson River.

Large spoils were captured by the French at Neuville, including 800,000 cartridges, 1,000 rifles, 3 field and 15 machine guns.

An advance of five points to \$130 per 100 pounds in the price of steel hoops was announced at Pittsburgh.

All French soldiers capable of turning out shells were ordered back from the trenches to work in the factories.

More than 150,000 horses have been shipped from the National Stock Yards at East St. Louis, Ill., to the French, English, Italian and Belgian armies.

The American tank steamer Cullight, torpedoed by a German submarine off the Sicily Islands, on May 1, sailed from St. Mary's, England, for Rouen, under her own steam.

Hervy B. Ferguson, former Congressman from New Mexico, who recently resigned as private secretary to William J. Bryan, died of apoplexy at his home in Albuquerque.

Flames attacked 3,500 bales of cotton in the hold of the three-masted ship Britishlida at her pier in Brooklyn. The cargo, which is consigned to Russia, is expected to be a total loss.

The report that Alfred Gwynne Vanderbilt's body has been recovered on the coast of County Clare, Ireland, was denied by the Cunard Line. The body recovered is believed to be that of a Pole.

J. P. Morgan and Company take \$5,000,000 Interboro Rapid Transit first and refunding 5 per cent. bonds, making \$103,658,000 issued in all.

Dun's Review commenting on conditions of trade says that while general business gains but slowly, the economic situation grows steadily stronger.

Reports received in Berlin state there is a possibility of a ministerial crisis in Petrograd and that a coalition ministry is demanded.

The Italian army has taken Gradisca and is also reported to have captured Ploeken. The latter is 15 miles south of the main highway between Laibach and Innsbruck.

As a result of the successful counter-thrust against the Austro-German line in Galicia, military experts expect that there will be a repetition of what occurred before Warsaw last year, when the Germans incurred enormous losses in their efforts to break the Russian front.

PORCUPINE CROWN.

Cobalt, Ont., June 12.—Owing to the success in diamond drilling to the south of the present drifts, and also to cross-cutting, the extensions of the ore bodies on the Porcupine Crown have been found and the mine is in a better position to-day than it has been for the last eighteen months.

Diamond drilling has picked up the vein showing a good width and grade far to the south on the 500-foot level, while on the second and third drifts are being pushed in high grade or beyond the two faults.

So successful has been development that it is proposed to retreat some old tailings in the mill so that it will be possible to lessen the demands on the mine ore and free more drills for development.

It is anticipated that at the end of present financial year there will be shown as good or reserves at the beginning of the year, while dividends of 12 per cent will have been paid.

N. Y. CURB STRONG.

New York, June 12.—The curb market opened strong.

Table listing various market items and prices: Bid, Asked, Cramp 59 59 3/4, St. Joseph Lead 14 14 1/4, Anglo 16 1/2 17, Electric Boat 109 110, Car Light 5% 5 3/4

RIO COFFEE MARKET.

New York, June 12.—Rio coffee market unchanged. Stock 396,000 bags against 200,000 year ago. Santos market unchanged, stock 374,000 against 868,000 year ago. Port receipts 11,000 against 22,000 year ago. Interior receipts 14,000 against 25,000. Rio exchange on London 13 1/4, up 5-32d.

WEST INDIA ELECTRIC.

The West India Electric Co. has declared its regular quarterly dividend of 1 1/2 per cent, payable July 2nd, to shareholders of record June 23rd.

SPOT WHEAT HIGHER.

Paris, June 12.—Spot wheat 3/4 higher at 1.65.

HAPPENINGS IN THE WORLD OF SPORT

Inclement Weather Hurt All Sports, but Track Was Open, Despite Heaviness and Rain

BISONS BEAT HUSTLERS

There was no game at Atwater Park yesterday afternoon, owing to the inclement weather, and the Leafs and Royals were thus prevented from trying to do one another up. The third game will be played as scheduled this afternoon at 3 o'clock, weather permitting, with a double-header tomorrow.

The Bisons evened matters with the Hustlers yesterday, winning by a score of 12 to 5. Rochester started out as on the preceding day by getting a good lead in the first inning, but the Bisons gradually fought their way back to within fighting distance, and then in the sixth landed heavily on Huenke, who succeeded Erickson, and stowed away the game.

A general meeting of the Shamrock A. A. football team of the First Division will be held in the St. Urbain street clubhouse on Monday night at 8 o'clock, when the question of whether the team will continue in the P. Q. F. A. series will be taken up. Because enough players could not be secured this afternoon's fixture had to be postponed.

Wet greens and weather resulted in the calling-off of local bowling competitions last night. Weather permitting, however, the season will be inaugurated here this afternoon. Valleyfield comes here to play a double-header in the St. Pierre Trophy competition, meeting Westmount at 2.30 p.m. and Montreal West at 7.30. Four rinks from the Outremont Club left this morning for Ottawa, where they will meet the Victoria Club for the Birks' Trophy, which the latter club took from Valleyfield last season.

A handicap doubles duckpin tournament commenced at Payne's alleys last night, when the first play of three games in a nine-game series was played. Ole Charabot and "Buntly" Eaves, one of the scratch competitors, rolled the highest total of 728. The next series will be played next Friday night.

Tommy Buck, who was scheduled to fight Eddie Wallace here some time ago, has broken away from the management of C. Gillespie. He is now being looked after by Johnny Schiff, who will not only make his engagements, but will be his sparring partner. Buck is a likely little featherweight, who is anxious to get on a match with Fleming, Fleming beat Buck some months ago, but the latter is confident that he would make a better showing if given a chance.

An attachment against whatever property Jess Willard, the champion pugilist has in New York, has been granted by Supreme Court Justice Greer's team. The application was made by the McClure Syndicate through Percival C. Eastman, and Robert Edgren, sporting editor of an evening newspaper, and says Willard made a contract with the syndicate by which he was to give Edgren the details of his life; that the latter was to write them, and the syndicate was to publish them. The proceeds were to be divided equally among the three.

Willard, it is charged, then signed a contract with another publishing company for the privilege of printing the story of his life for \$26,000. The plaintiff says the breach of contract has injured them to the amount of \$27,323. The writ was served upon the publishers holding the last contract in order to prevent them from paying Willard any part of the money involved in their agreement with him.

FALL GRAIN IN GOOD CONDITION.

Ridgefield, Wash., June 12.—Fall grain is in excellent condition, with moisture enough to insure maturity. Unprecedented crops are expected throughout this section. Spring grain has had a good start. With the usual weather conditions prevailing until harvest, an excellent crop is assured. Haying has commenced, and will give heavy yield.

BRITISH CANADIAN CANNERS, LIMITED.

Notice is hereby given that a meeting of the holders of the bonds of British Canadian Canners, Limited (hereinafter called "the Company") constituted by a deed of trust and mortgage dated the 27th day of February, A.D. 1912, and made between the Company, of the one part, and Montreal Trust Company, Limited, of the other part, will be held at the offices of the Company, in the C.P.R. Telegraph Building, Hospital Street, in the City of Montreal, on the 24th day of June, A.D. 1915, at the hour of three o'clock in the afternoon, for the purpose of considering and, if thought fit, passing extraordinary resolutions as defined in said deed of trust and mortgage:

- (a) Sanctioning a scheme for the sale of the undertakings of the Company on terms to be submitted to said meeting by the Company and authorizing the Trustee to accept in satisfaction for the sale or transfer of the mortgaged premises a consideration which may consist wholly or in part of shares in another Company.
- (b) Sanctioning the release of the Company and of the whole of the mortgaged premises covered by the said deed of Trust and Mortgage from the whole of the principal and interest owing by the Company upon the bonds;
- (c) Authorizing the execution of such formal instruments as may be appropriate to carry into effect the sanctions mentioned in (a) and authorizing the distribution in specie of the consideration to be received by the Trustee on account of the bondholders.

The Trustee has under the provisions of said deed of Trust and Mortgage made regulations providing for the deposit of the bonds with any chartered bank or trust company and for the voting of bonds by proxy. Copies of such regulations and of the forms of certificate of deposit and proxy may be obtained from the Company or from the Trustee.

This notice is issued by the undersigned Company pursuant to the provisions contained in the Seventh Article of said Deed of Trust and Mortgage. Dated at Montreal.

BRITISH CANADIAN CANNERS LIMITED.

FRANK E. SHERIDAN, Secretary.

PERSONAL.

THE REV. M. O. SMITH, M.A. WILL ADVISE with fathers concerning the instruction and education of their sons. No. 544 Sherbrooke St. West. Or telephone Main 3071, and ask for Mr. Kay.
