Monday and Wednesday.  
Private Sales every

Come and see this new  
Horse Exchange,  
it will interest you, also  
the Quarter-mile Track  
for showing  
and exercising

The Directors of the above Company have not spared anything in the building of this new Horse Exchange. The stables, which are built of cement and brick, will stall between 900 and 300 head of horses and are considered by judges, who have seen them, to be the most sanitary they have yet seen.

We have sold on an average of 100 horses per week since the opening of this great horse market, and now that the success of the horse business is assured, we are in a position to handle Breeders' Stock Sales of all kinds, Cattle, Sheep, and Hogs.

Breeders will find that advertising from a central place like Toronto will be advantageous in many ways, as this is unquestionably the most complete market of its kind in America for both buyer and seller.

We have our own railway chutes, which are the finest, and can load any number of cars at once on both G.T.R. and C.P.R. No charge for loading or unloading stock of any kind.

Correspondence solicited as to terms, etc.

HERBERT SMITH, Manager.

(Late Grand's Repository).

## GOSSIP.

Another important dispersion sale of pure-bred Holsteins is advertised in this paper to take place near Hespeler (C. P. R. and G. T. R.), on March 26th, when the entire herd of 25 head, belonging to Mr. Elias, Pannabecker, of that place, will be disposed of by auction. The prospect for high prices for dairy products is so bright, there should be plenty of buyers to take care of this stock at fair prices.

## HEAVY-WEIGHT HOLSTEIN CALVES

In response to Prof. Cumming's enquiry, allow me to say that on Nov. 30th, 1906, my pure-bred Holstein cow, Tidy Pauline De Kol, gave birth to a heifer calf, which weighed next morning, when dry and not having sucked its mother, 140 lbs. She was the largest, and yet, in two weeks, as fine a specimen as I have ever seen. She was carried just 28 days over the nine months' gestation period, which I think accounts for the fleshiness and heavy weight. H. BOLLERT.  
Cassel, Ont.

A good horse, tested and proven, is usually a wiser investment than an untried one of the most promising breeding. In this issue is offered for sale the imported Clydesdale stallion, Carron Jamie, travelled for five consecutive seasons over one route by the Hyde Park Clydesdale Horse Co. His breeding traces to Prince of Wales, and, as a stock-getter, he has amply substantiated the promise of his pedigree, having sired a large number of excellent foals, quite a few of which have sold for \$100 apiece off their dams. Look up the advertisement, trace out the pedigree, and call on, or write, Geo. Long, Ettrick, Ont.

Mr. James Douglas, Caledonia, Ont., in ordering a change of his advertisement of Shorthorns, writes: "I wish to state to readers of 'The Farmer's Advocate' that my large herd is in extra nice shape. We have lots of feed of all kinds, and, consequently, the cattle have fared well. I have a particularly fine lot of young heifers and bulls, and some extra good young cows bred to the great Duthie-bred bull, Imp. Joy of Morning. I have young bulls good enough to head any herd in the country, from imported sires and dams, and some from home-bred dams and imported sires. I can also show fourteen of the best yearling heifers I ever saw stand in my stable at one time. Am always pleased to have lovers of good stock call and examine the herd, whether they wish to purchase or not."

On or about the 1st of May, The Rathbun Company, Deseronto, will hold a dispersion sale of all their live stock. This consists of a dairy herd of pure-bred and high-grade Holstein cattle numbering about one hundred head of all ages, a flock of one hundred and forty-five breeding ewes with their natural increase, a herd of sixteen brood sows with their litters, and five young horses. The dairy is beyond doubt one of the best in Ontario, being the result of careful and intelligent breeding for years from pure-bred sires of the highest milking strains procurable, and an idea of the quality of the herd can be gained from the fact that the average production of the herd for the year 1907 was 8,006 lbs. per cow, despite the disastrous drought which prevailed over the Bay of Quinte district throughout the whole of the past summer. Watch for a more detailed advertisement, which will appear in this paper at an early date, and, in the meantime, any information desired as to the stock will be supplied anyone writing to A. Leitch, Farm Supt., Deseronto, Ontario.

Judge.—You have been sworn, sir. It behooves you to tell the truth, the whole truth, and nothing but the truth.

Lawyer (to client, who has seated himself in the witness chair).—Did you present your bill to the defendant for payment?

Client.—I did.

Lawyer.—And what did the defendant say?

Client.—He told me to go to the devil.

Lawyer.—Then what did you do?

Client.—I went to you.—[Judge.
