GRAND Colonial Exhibition in London, Eng., 1886

Fifty-Four Thousand Feet Reserved for Canada.

FIRST ROYAL EXHIBITION COMMISSION SINCE 1862.

THE COLONIAL AND INDIAN EXHIBITION to be held in LONDON, England, commencing MAY 1st, 1886, is intended to be on a scale of great magnitude, having for object to mark an epoch in the relations of all the parts of the British Empire with each other.

In order to give becoming significance to the event, a Royal Commission is issued for the holding of this Exhibition, for the first time since 1862; and His Royal Highness the Prince of Wales has been appointed President by Her Majesty.

The very large space of 54,000 square feet has been allotted to the Dominion of Canada by command of the President, His Royal Highness.

This Exhibition is to be purely Colonial and Indian, and no competition from the United Kingdom or from foreign nations will be permitted, the object being to exhibit to the world at large what the Colonies can do.

The grandest opportunity ever offered to Canada is thus afforded to show the distinguished place she occupies, by the progress she has made in AGRICULTURE, in HORTICULTURE, in the INDUSTRIAL and FINE ARTS, in the MANUFACTURING INDUSTRIES, in the NEWEST IMPROVEMENTS in MANUFACTURING MACHINERY and IMPLEMENTS, in PUBLIC WORKS by MODELS and DESIGNS; also in an adequate display of her vast resources in the FISHERIES, and in FOREST and MINERAL wealth, and also in SHIPPING.

All Canadians of all parties and classes are invited to come forward and vie with each other in endeavouring on this great occasion to put Canada in her true place as the premier colony of the British Empire, and to establish her proper position before the world.

Every farmer, every producer, and every manufacturer, has interest in assisting, it having been already demonstrated that extension of trade always follows such efforts.

By order,
JOHN LOWE,
Sec. of the Dept. of Agriculture.

THE BEST IS CHEAPEST.

NEW WILLIAMS SEWING MACHINE

Possesses more new improvements and points of superiority than any other sewing machine yet introduced, namely:

A new Self Threader Shuttle, which can be instantly threaded by a blindfold operator.

An Adjustable Castor, which steadies the machine on an uneven floor.

An Automatic Bobbin Winder, which winds the thread as even as a spool of cotton without assistance.

A Thread Releaser, which prevents the necessity of pulling up the slack when taking out the work.

It runs smoothly and swiftly, never getting out of order. It is unequalled for beauty and utility.

It carries off the highest awards wherever exhibited. The Bronze Medal was awarded to it at Antwerp, and the only Diploma was awarded to it at the last Dominion Exhibition.

It is manufactured at Plattsburgh, N. Y., and in Montreal, P. Q. For circulars address
