

My Free Electric Belt

Never before has another person made a free offer such as this. I do not distribute cheap samples broadcast, but am daily sending out dozens of my full-power Dr. Sanden Electric Belts absolutely free of charge, and they are the same in every respect as though full cash prices were paid. The proposition is simple. If you are ailing, call at my office and take a Belt home with you. Or, if at a distance—no matter where—send your name and address, and I will at once arrange to deliver to you one of my Belts, with suspensory or other attachment needed. Use same according to my advice until cured, then pay me—many cases as low as \$5. Or if not cured, simply return the Belt, which will close the transaction. That's all there is to it. If you prefer to buy for cash, I give full wholesale discount.

Not One Penny in Advance Nor on Deposit.

Not a cent unless you are made well. I make this offer to show men what faith I have in my own remedy, and I can afford to take the risk because not one in a thousand, when cured, will cheat me out of the small amount asked. It pays me and my patient. My business was more than doubled the past year. Each Belt embodies all my own exclusive inventions (latest patent March 7th, 1905), and all patients receive the benefit of my 40 years' experience, a knowledge of infinite value, and which is mine alone to give. I am the originator of the Electric Belt treatment, and all followers are imitators. This I will prove by any guarantee you may ask. You wear my Belt all night. It sends a soothing current (which you feel) through the weakened parts, curing while you rest. Used for lost manhood, nervous debility, impotency, varicocele, lame back, rheumatism, lumbago, dull pain over kidneys, pains in all parts of the body, kidney, liver, bladder disorders, constipation and stomach troubles. Send for the Belt to-day; or, if you wish more information, write me fully of your case and receive my personal reply. I will also send my descriptive book, sealed, free of charge. I have thousands of recent testimonials from grateful patients. Would you care to read some of them?

Let us take charge of your case at once. I will put new life into you in two weeks' time. Don't you do the worrying. Put that on me. I will take all the risk. I have something to work for. Unless you are cured I get no pay. Address

nostrils he will see a hole on the reflected skin near the margin. It is the orifice of the duct or channel which conducts the surplus moisture from the front of the eye, and is squeezed into the corner or top end of canal when the horse blinks. All animals are so provided. Men who refuse to cry at scenes of grief blow their noses in order to dispose of the tears which would otherwise run down their manly cheeks.

Slaughter of the Innocents.

To impress young readers, may I tell another story? It shall be short. When thousands of horses were being sent to South Africa, and the supply of vets. ran out, some of the transports sailed without these officers. On one of them a zealous militia officer in command, who could not distinguish between the nasal discharge of influenza and that of glanders, and had been told (and rightly) that the presence of an ulcer on the membrane was diagnostic of glanders, made the astonishing discovery of my friend of this morning, and proceeded to pistol 180 horses before someone else discovered that other horses had the same "ulcers" that had not shown any nasal discharge or other symptoms of disease.

GOSSIP.

HORACE GREELEY AND THE DISSENTIENT SUBSCRIBER.

An Acquaintance met Horace Greeley one day, and said: "Mr. Greeley, I've stopped your paper."

"Have you?" said the editor, "well, that's too bad," and he went his way.

The next morning Mr. Greeley met his subscriber again, and said: "I thought you had stopped the 'Tribune.'"

"So I did."

"Then there must be some mistake," said Mr. Greeley, "for I just came from the office and the presses were running, the clerks were as busy as ever, the compositors were hard at work, and the business was going on the same as yesterday and the day before."

"Oh!" ejaculated the subscriber, "I didn't mean that I had stopped the paper; I stopped only my copy of it, because I didn't like your editorials."

"Pshaw!" retorted Mr. Greeley, "It wasn't worth taking up my time to tell me such a trifle as that. My dear sir, if you expect to control the utterance of the 'Tribune' by the purchase of one copy a day, or if you think to find any newspaper or magazine worth reading that will never express convictions at right angles with your own, you are doomed to disappointment."

WHAT IS THE MEANING OF THE WORD "SALE"?

The Secretary of the Territorial Livestock Associations accuses the "Farmer's Advocate" of direct falsehood in the statements it made re the various sales at Calgary, and also states that information re "the horse fair and sale" was mailed to all Western papers, including the "Farmer's Advocate." We accept the latter statement, but it is remarkable that this paper and a city contemporary failed to receive the circulars re the horse fair and sale, or any information whatever regarding the time, place or method of holding the vendue. We might also state that a copy of the circular referring to the establishment of a department of agriculture for Alberta was not sent this paper, although a copy was secured, it being deemed of sufficient public interest to warrant its publication. Neither was a catalogue of the cattle sale received by this paper, which may be considered as a slight to our readers in Alberta. Our doubts arose re the cattle sale being an auction, when a horse sale, advertised in a similar manner, did not materialize as an "auction," or considering the matter another way, to-day the word "sale" means a fair, not an auction, but a month hence, "sale" means an auction. When is it to mean one, and when the other? The attitude of the "Farmer's Advocate" in all such questions is to afford its readers all the information that can be derived, and if at times the shedding of light on certain places or actions is unpopular with a few, this paper cannot afford to be derelict in its duty to its large and growing circle of subscribers.
