Thoughts in Sickness Faint, and too weary e'en to think And just perhaps upon the brink 10 Which bounds eternity, Father, I stretch my hands to thee, For thou alone canst comfort me. Friends, oh how tender, at my side In cheerful accents seek to hide Their own anxiety, And patient try each skilful art Which may fresh life or strength impart.

While I, alas, with nerves unstrung, And heart with nameless tremors wrung Feel their sweet sympathy, Yet scarce can thank them for their car

Nor speak of what I hope or fear. Lord, in my weakness pity me :

Lord, if thou wilt, oh strengthen me; Help me to rest in thee, Leaving with thee my every care ; Scarce even can I raise a prayer.

Yet, as descending from above, Oft come sweet words of praise and love As if spontaneously-

Were swept by heaven's own minstre

Oh precious thought ! The Saviour re Above, below: he still remains The same who died for me : He holds the keys of life, of death ; He gives or takes my mortal breath.

" In him is life "-a Friend indeed : He will "not break a bruised reed."

But ever tenderly Says. " As thy days thy strength shall b Yes, since thou answerest, Lord, for me.

Dear Saviour, let me feel thes pear ; Then without trembling, without fear

I may resignedly, Calmly await thy holy will,

Hearing thee whisper, " Peace, be still,"

Only Once "Stop a minute, James; we're making up skating-party to go down the river to-night. London Field. We shall build a fire on the island and have a grand time. Come; go with us."

"No, George, I can't. Father says I skate on the canal. It isn't so wide, nor quit so good skating I know, but it's safe." "Nonsense! The ice is at least two inch

thick, anywhere, even in the thinnest places." "No matter. I can't skate on the river,"

James was ready with his skates at the time appointed, and about to leave the house. *Where now, James ?" asked his father. compact soil, that they were as effectually secur- to try what virtue there was in common salt, bottle. But unless a very dry soil, they must have morning, noon, and night. We dissolved a large "I'm going to skate awhile on the canal,

"Well, it's a bright evening ; but don't stay late, and don't go on the river."

YEAST .- A baker in the army, celebrated for gargle the throat most thoroughly just before was ready to go to bed, shouted after him, "Stop, Jamie; give me a kiss," and holding who his excellent bread, gives the following receipt meal-time. The result has been that during the for making yeast: Boil one pound of flour, one entire Winter we were not only free from the Just then James's little sister Marion, who "Stop, Jamie; give me a kiss," and holding up fourth pound of brown sugar, and a little salt, in usual coughs and colds to which, as far as our her rosebud mouth, in a plump face from which wo gallons of water for one hour. When milk memory extends, we have always been subject the laughing eyes were shining, she received his warm, bottle and cork it close. It will be ready but the dry, hacking cough has entirely disa for use in twenty-four hours. BAUHZLOR PUDDING. -- Mix the yolks of five eggs with one pint of buttomilly good-night kiss and he went out. As he passed for use in twenty-four hours. the window, he saw, through the half-drawn curtains, little Marion kneeling by their mother,

Acto Sandhiringtes Fairbairs told his sudience at Manchester that he anticipates the time when it will rise to 500 lbs. The economy of steam and the consequent increase of force which will be thus secured will Marana Tana Italian Hoga The correspondent of an exchange paper, after attending a fair at Florence, says of the porkers issue in surprising results. At present, however, inprofessional minds are almost bewildered at A few of the pigs seen here were small, rather fat pig-like creatures; but the greater part of the yast complications of machinery introduced them were enormous, boar-like monsters, some into recent inventions. The boilers of the War-white, some black; some very hairy, some with vior contain 4,400 tubes through which the flames six bristles to their whole body, some with tusks, play from forty gigantic furnaces ; and these some without ; all of them the most gaunt, long- tubes, when filled to their working level, are cap-The little round fellows were of the Chinese water. Its cylinders are 9 ft. 4 in, in diameter, breed : the hairless frights were from the lovely and require for their joint service the evaporation Val d'Arno; the most formidable tusks were from of 16,250 gallons of water per hour, which is Contentino and Sardinia; the most highly prized equivalent to 2,000,000 cubic feet of steam. appeared to be the Tuscan Gentil and Forestieri, With all her stores and warlike apparatus, her appeared to be the Tuscan Genni and Forestieri, black giants, almost wild, living in the woods, weighing from six hundred to seven hundred Tuscan pounds, with long, boar like black bris-life-boat, and pursues her course with almost unles, long tusks, and legs like stilts; bold enough precedented speed.

to attack a traveller, and ferocious enough to give him a good deal of trouble, but furnishing pork power and its unequalled capabilities is furnished of a very superior flavor, and hams which appear to occupy a high place in the affections of Italian lines in the United Kingdom at the end of last ourmets. Some of these brutes were seven feet year was 10,433 miles. To work this distance ong, without counting their long snouts and no less than 5,801 locomotives, 15,076 passenge long, without counting their long enouts and longer tufted tails. Prince Orsini, Prince Demi-doff, and a numerous company of dukes, marqui-ses, counts, and barons, area to have devoted their energies with especial seal and success to the development of the porcine genus."

REMEDY FOR BEE STINGS. + Three years age the termination of the present year. Although one of my little ones poked his spade into a bee- 1860 was confessedly an unfavorable season for hive. You may suppose he was severely stung. railway enterprise, being seriously influenced by I immediately mixed with water some ipecac the continuous rain and deficient harvest, yet powder and applied it to the places stung, of the passengers showed an increase of 13,000,000 ourse extracting the stings where visible, and and the minerals an increase of 7,600,000 tons n ten minutes he was playing about and all ir- above that of previous years. The receipts were ritation was gone. The nurse was stung too in several places, and the same remedy was ap-plied with equal success. The Indians use this remedy for the stings of scorpions, and a friend has (since my publication of the cure in the West nas (ance my publication of the cure in the west intervalution. The expenditors was about \$7 Sussex Gazette at the period) called my attention per cent, so that the profits which remained to to the fact that Dr. Livingstone states in his be divided amongst the mortgagees and propriejournal that the African tribes use ipecacuanha tors were £14,500,000. The compensation for enakes' bites. I have not the book to refer awarded for accidents and losses, during the year to, but I think they mix the powder with oil. I amounted to the comparatively trivial item of have used it for guat bites .- Charles Hardy, in £181,170.

Salt for the Throat.

BURT POTATOES DEEP .- A writer in the Scottish Farmer relates that by accident a large In these days, when diseases of the throat quantity of potatoes were buried about aix feet so universally prevalent, and so many cases fatal, deep in an old ice well. Two years after, in dig- we feel it our duty to say a word in behalf of a ging to remove the stones from the well, the simple, and what has been with us a most effecworkmen came upon the potatoes and found al-most the whole in an excellent state of preserva-throat.
