

THE McLAUGHLIN SIDE SPRING GEAR.

NOTE 1.—All these Gears have our New Double Fifth Wheel (see page 36,) and the Spring Corners are attached as shown in cuts on page 34.

NOTE 2.—For illustration and explanation of patent parts of this Gear see pages 34, 35 and 36.

NOTE 3.—We use Wrought Iron Forgings in these Gears, not Malleable Iron substitutes.

Don't buy a so-called McLaughlin Gear unless you are sure it is the genuine article.
