OLD PASTOR AT PARK BAPTIST

Rev. C. W. Rose of Amherst, N. B., Spoke in City on Sunday

Large congregations greeted their former pastor, Rev. C. W. Rose, M.A., now pastor of one of the largest churches in the province of Nova Scotia, when he spoke in Park Baptist Church on Sunday. The people were highly pleased to greet Rev. and Mrs. Rose and their daughter Evelyn, all of whom are guests of Deacon Hugh Howie and his niece at their home, 251 Park Avenue. The morning subject was "The Greatness of God" and was most ably and earnestly presented. The singing was good, including an anthem by the choir "Behold what Manner of Love" (Andrews). The following is a message sent by the Pastor, Rev. W. H. Wrighton, who is still ill in the hospital, and was included in the calendar announcements Sunday.

A communication from Treasurer Reid advised the selling of new school debentures, as the building account is overdrawn.

Fire Commissioner W. G. Jackson recommended the purchase of 500 feet of new hose, oversize tires and puncture-proof inner tubes for the rear wheels of the chemical truck, more branch cut-offs, and other equipment, the whole totalling about \$1,000. Council declined to purchase any new hose at present, but most of the other items were passed.

Telephone System Fails to Call Firemen Promptly. A detailed report of a practice run was given and it was learned that it required four minutes to call out the men. Their response was prompt in all cases when notified. The commissioner requests that if not working when an alarm is sent in the bums should be turned on at once. Altogether the fire department appears to be getting into improved condition.

Harvey Diverse appeared on behalf of J. J. Wilson, corner Norfolk and Townline street, requesting Council to build a culvert across the ditch in front of his residence. The Board of Works will consult the solicitor in the matter.

Reeve Carter and Alderman Craig, followed the report of Alderman Langford, chairman of the committee appointed to report on water rates, with a motion for a by-law to discount the rates for all users not enjoying ancestral rates already, 20 per cent. instead of 10 per cent. for prompt payment. This if not in operation will affect almost all users of tap water.

The Police Committee requested a reversion to the appointing of Chas. Canning, Chief of Police, and Council agreed. County Organizer Geo. J. McKie called to request the members of the Council to give the Victory Loan effort their personal support in every possible way.

The question of gas service on Bank street was up again, the company having failed to comply with the request of Council. Members stated that the gas company is reverting to the appointing of Chas. Canning, Chief of Police, and Council agreed.

Get the Habit of Drinking Hot Water Before Breakfast Says we can't look or feel right with the system full of poisons.

Says we can't look or feel right with the system full of poisons. Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who immediately upon arising in the morning drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the bowels.

People who feel good one day and badly the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make any man or woman the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.

Make it an Over-Subscription By ARCHBISH HOP McNEIL. Men, money, munitions—these are strictly the sinews of war. Not all of us can aid King and Country by going to the front or by working in munition factories; but all of us can aid the Government for war can and should aid by lending money to the Government for war purposes. The Victory Loan is being placed before the people for subscription in large or small sums, and it is our patriotic duty to see that the Victory Loan is over-subscribed. Anyone who allows the desire for unnecessary luxuries to stand in the way of buying a Government Victory Loan Bond is deficient in patriotism. One of the serious drawbacks of Canada in the past has been the fact that it was entirely a debtor country. We derived no public revenues from investments in other countries, and a large percentage of the revenues raised by taxation went abroad in payment of interest. The war has given us the opportunity to reverse the process. We now lend money to England and spend it in Canada in the manufacture of munitions. This money will be refunded to Canada with interest. Of course, Canada must use a large part of the loans from the people to finance the Canadian Expeditionary Forces; but if we all become really thrifty in our personal expenses and lend to the Government what can thus be saved, Canada would not suffer seriously during the financial reaction and adjustments after the war.

Securing a Home Campaign
